Management Control Systems and Cross-Cultural Research Michael Hanzlick,2015-01-31 A fundamental challenge that management faces in the twenty first century is how to exercise adequate control i e how to guide and direct the behaviour of their subordinates With increasing globalisation firms witness a cross cultural impact too Of particular interest is the question of whether to use the standardized form of control similar to the home base of firms or whether to adapt their

control practices to the local specificities Given the meagre state of the literature in management control with a cross cultural emphasis this study addresses a real world problem namely the question whether management control practices are configured similarly or differently across cultures Relying on a generalized industry sample across four countries Belgium Canada Germany and Poland this study sought to shed light on one of the more intriguing questions does culture matter for specific control areas in particular for performance measurement performance evaluation and reward systems The theoretical foundations are grounded in the cultural framework of the GLOBE project accompanied by thoughts of new institutionalism stakeholder theory and contingency thoughts Hypotheses are tested by mean comparisons ANOVA ANCOVA The empirical findings highlight cultural differences for a broader set of control practices and deliver new insights into the intersection of culture and management control This dissertation crafts a novel topic with high relevance for both researchers and practitioners The study demonstrates areas for which management control practices should be adapted to the local needs and areas for which those practices could be harmonized in the whole company This monograph stresses some areas in which future empirical cross cultural research can benefit and some areas where conceptual thoughts could be advanced

High-Performance Coaching for Managers William J. Rothwell, Behnam Bakhshandeh, 2022-07-05 Coaching is a necessary skill for managers It is important as a fundamental part of an organization's talent efforts including talent acquisition development and retention strategies For a coaching program to succeed in an organization it should be recognized as a useful approach throughout the organization and become part of the fabric of the corporate culture Performance Coaching for Managers provides an important tool for organizations to use to train their managers on coaching This book differs significantly from other books in the coaching market Many books on coaching cast coaches as facilitators who question their clients the coachees helping them to articulate their own problems formulate their own solutions develop their own action plans to solve problems and measure the success of efforts to implement those plans That is called a nondirective approach But this book adopts a directive approach by casting the coach as a manager who diagnoses the problems with worker job performance and offers specific advice on how to solve those problems While there is nothing wrong with a nondirective approach it does not always work well in job performance reviews in which the manager must inform the worker about gaps between what is needed the desired and what is performed the actual The significant difference between what is currently available in the market and

what is offered in this book is the authors collective experience of over 70 combined years of hands on research and delivery experiences in the Human Resources Development field According to the Harvard Business Review 2015 workers generally expect their immediate supervisors to give them honest feedback on how well they do their jobs and specific advice on what to do if they are not performing in alignment with organizational expectations When workers do not receive advice but instead are questioned about their own views they regard their managers as either incompetent or disingenuous Effective managers should be able to offer direction to their employees After all managers are responsible for ensuring that their organizational units deliver the results needed by the organization If they fail to do that the organization does not achieve its strategic goals This book gives managers direction in how to offer directive coaching to their workers *Developing People and Organisations* Jim Stewart,Pat Rogers,2012-08-28 *Developing People and Organisations* introduces and explores concepts relevant to the learning outcomes for the optional units in CIPD s Level 5 Intermediate qualifications in human resource development HRD and organisational design and development It provides a practical and accessible exposition of key theories informing the professional practice of HRD so students can explain and analyse the organisational context of HRD practice and describe compare and critically evaluate a range of theories and approaches Written and edited by CIPD accredited experts in the field and mapped to CIPD s HR Profession Map *Developing People and Organisations* covers key topics such as organisation design and development developing coaching and mentoring in organisations meeting OD needs and developments in HRD It includes reflective activities annotated further reading a glossary and case studies to encourage the application of theory to a practical working environment Online supporting resources include an instructor s manual additional case studies multiple choice questions and annotated web links
