La menstruación: de la biología al símbolo Francisco Donat Colomer, 2023-04-03 La menstruación es mucho más que un hecho biológico que afecta al cuerpo de las mujeres en una amplia etapa de su vida Las diferentes visiones que sobre esta se han dado a lo largo de la historia las implicaciones psicológicas o antropológicas los aspectos culturales e incluso las interpretaciones provenientes de movimientos tan relevantes como el feminismo hacen de este un fenómeno políptico en el que merece la pena introducirse Sin olvidar por supuesto ya desde un punto de vista más su descripción biológica y sus posibles alteraciones así como los medicamentos tratamientos y remedios más o menos naturales que ayudan a mitigar sus situaciones Toda esta información explicada de manera rigurosa por especialistas en las diversas áreas implicadas se ofrece con un estilo divulgativo y accesible que ayuda a que las lectoras o lectores que se aproximen al libro puedan disfrutar de este estudio sobre la menstruación en toda su amplitud

*The Publishers' Trade List Annual*, 1985 **Cosa de mujeres** Eugenia Tarzibachi, 2017-11-01 Recorrido histórico por los diferentes sentidos desplegados en torno a la menstruación y por las distintas maneras de gestionar la experiencia menstrual a través de toallitas tampones y otros productos por parte de la industria del cuidado femenino a lo largo del siglo XX y hasta nuestros días No hace tantas diferencias las mujeres usaban retazos de telas para contener y enmascarar la menstruación estos se manchaban se lavaban se escondían se reutilizaban y se ocultaban otra vez La invisibilización del sangrado secreto femenino por excelencia fue históricamente un mandato constitutivo del hacerse ser mujer Ya en el siglo XX la industria del cuidado femenino instaló una forma moderna de menstruar y proclamó la liberación de las mujeres Lo descartable de las toallitas y los tampones no tardó en deslizarse simbólicamente a cierta concepción del cuerpo menstruante sucio y fuera de moda y sin embargo útil para el trabajo y la maternidad En este libro Eugenia Tarzibachi traza un exhaustivo recorrido histórico por los significados económicos sociales y culturales que fueron construyéndose en torno a la experiencia de la menstruación y

demuestra por qué esto no es un asunto individual y privado más una cosa de mujeres sino social y político. Este libro es una contribución rigurosa acerca de las intervenciones para resolver el flujo menstrual a lo largo de los tiempos. Recorre desde las inquietantes y a menudo desquiciadas concepciones sobre el tema menor de la menstruación hasta las tecnologías recientes impuestas por el mercado del cuidado íntimo. Su lectura es además de fascinante imprescindible. Dora Barrancos, directora del CONICET Eugenia Tarzibachi ilustra brillantemente cómo los mercados y las ideologías de género producen una feminidad curiosamente sin sangre. Revela que las innovaciones de productos y de marketing reifican el insidioso mandato social de la vergüenza el secreto y el silencio a pesar de las reivindicaciones de la industria de liberar y proteger. Pero donde hay conformidad también hay resistencia. Este libro contiene una poderosa crítica feminista a los discursos transnacionales que disciplinan y mercantilizan e imagina un futuro más igualitario inclusivo que mire positivamente los cuerpos. Chris Bobel, profesora asociada de Women's Gender and Sexuality Studies en la Universidad de Massachusetts Boston Estados Unidos. Lo personal es político y Eugenia Tarzibachi le hace honor a esta vieja y siempre vigente consigna feminista. Con sus relatos tan íntimos como sociales rompe estereotipos expone eso que nos enseñaron a esconder refleja el precio de ser mujer en un mundo atravesado por la desigualdad y pone a los cuerpos menstruantes como protagonistas de un libro que alza una bandera roja y brillante para inspirarnos redescubrirnos y llenarnos de herramientas para nuestras luchas feministas.
