Perlette Goutte Deau:

Gender by the Book Julie Fette, 2024-10-31 *Gender by the Book* investigates the gender representations that French children's literature transmits to readers today Using an interdisciplinary mixed methods approach this book grounds its literary analysis in a sociohistorical examination of three key institutions libraries book clubs and subscription magazines that circulate reading material to children It shows how French policies cultural beliefs and market forces influence the content of children's literature including tensions between State support for unprofitable artistic endeavors and a belief in children's right to high quality products on the one hand and suspicion of activism as anathema to creativity and fear of losing boy readers on the other In addition the notion of universalism which asserts that equality is best achieved when society is blind to differences thwarts a diverse and equitable array of literary representations Nevertheless conditions are favorable for 21st century French children's publishers to offer a robust body of richly entertaining egalitarian literature for children This title is freely available as open access thanks to generous support from the Fondren Library at Rice University
