U.S. Savings Bonds Division, 1965 **Moose Pastures and Mergers** Chris Armstrong, 2001-12-15 Long before the spectacular collapse of Bre X in 1997 the Canadian capital markets had their share of swindlers and crooks In the boom times after Second World War hard sell speculative mining ventures pushing what often amounted to a few acres of moose pasture riddled over the counter markets and the TSE It was in this context that the Ontario Securities Commission developed into Canada's leading securities regulator Following the war the OSC concerned itself primarily with fraudsters and attempts to reign in Toronto's boiler rooms but by the mid sixties increasingly sophisticated markets and a series of scandals culminating in the Windfall affair resulted in a rewriting of the Securities Act and a widening of the OSC's investor protection mandate The seventies tested the Commission's new powers as increased corporate merger activity brought the phrase insider trading into the popular lexicon Surprisingly considering that capital markets have such a profound impact on Canada's well being this is the first thorough study of their post war evolution and regulation *Moose Pastures and Mergers* takes off where the author's acclaimed previous work *Blue Skies and Boiler Rooms* Buying and Selling Securities in Canada 1870-1940 left off With an ear for a good story seedy personalities bunglers and guileless victims abound and a scholar's rigour Armstrong has met the protean beast of share markets head on and revealed its shape for the timid or the merely baffled Essential reading for business journalists securities lawyers academics and interested investors Winner of the J J Talman Award presented by the Ontario Historical Society **The Limits of Corporate Power** Ira M. Millstein, Salem M.

**Windfall** Tim Falconer,2025-02-18 The fascinating scandalous and true story of Viola MacMillan and the Windfall mining scandal Viola MacMillan had it all success money and respect Influence even But in 1964 after three decades in the mining industry one of the most fascinating women in Canadian business history was the central character in one of the country's most famous stock scandals MacMillan who started out as a prospector in the 30s had developed lucrative mines and put together big deals But she still wanted a major discovery Early in July 1964 shares in Windfall Oil and Mines a company she and her husband controlled traded for around 56 cents Then one day the stock took off In the absence of any information from the company about what it had found near Timmins on its claims rumors and greed pushed the share price to a high of 570 MacMillan stayed quiet Finally after three weeks Windfall admitted it had nothing So many small investors lost money when the stock crashed that the Ontario government appointed a royal commission to examine what had happened which led to changes at the Ontario Securities Commission and the Toronto Stock Exchange Although MacMillan spent a few weeks in prison she later received a pardon and the Order of Canada      **Texas** James Alan Marten,1992 708 annotated entries in 20 sections State of Texas and its people Geography and natural history History Military affairs Ethnic groups Reference works and bibliographies      *Corporate Power and Social Responsibility* Neil H. Jacoby,1973 One of America's most distinguished economists Neil H Jacoby has served as a public member of the Phase II pay board an economic adviser to President Eisenhower founding dean of UCLA's Graduate School of Management and a consultant to numerous government agencies and private corporations In *Corporate Power And Social Responsibility* he gives a thorough objective social assessment of the American corporation He identifies trends which point to a changing corporate role at home and abroad and he offers creative reforms of corporate and public policy which will promote a more just efficient creative and democratic society Jacoby finds no evidence to support New Left charges that the U S has become a corporate state In fact he says corporate political power is waning conglomeration is tapering off the corporate share of the nation's wealth is holding steady at 28% Competition says Jacoby is on the increase Where price and quality of materials and manufacturing were once the only factors mushrooming technology new business practices and new markets have created new competitive pressures An increasing variety of product features services warranties credit terms and trade in allowances have multiplied consumer choices As a smaller and smaller proportion of personal income is spent on necessities competition between different kinds of products has become more important should discretionary income go for a sail boat or a trip to Europe In many industries

increasing competition from foreign manufacturers is a factor Rapid changes in business practices and technology have even made potential competition from entering firms and new products an important consideration Still Jacoby sees much need for improvement He proposes measures to increase the political power of the consumer upgrade the performance of boards of directors expand the involvement of stockholders in company decision making encourage environmental responsibility and make defense companies function efficiently For the future Jacoby predicts the continued decline of corporate power as government regulation expands and new competing interest blocs spring up At the same time corporations will become more responsive to changing social values and priorities The rapid growth of multinational firms he believes will increase the stability of the world order and promote the growth of regional and world wide political organization      **Social Strategy &**

**Corporate Structure** Neil W. Chamberlain, 2007-09-10 This new work by Neil W Chamberlain will be of great importance to the business community and to all those charged with defining the role large corporations play in the affairs of society Social Strategy and Corporate Structure is an objective indepth examination of the organizational requirements of a social role for large scale business The role Neil Chamberlain presents is one of heroic dimensions the political choice of goals the strategic allocation of resources and the tactical operations of the mechanisms of production While there has been much discussion of corporate social responsibility few have investigated the ways its structure will have to change if the corporation is to pursue a strategy that is both economic and social This timely book integrates a large number of issues involving corporate activities and governance that go directly to the heart of this problem In step by step detail Chamberlain analyzes the organizational imperatives of this new age of social responsibility the composition and functions of boards of directors and the relation of their duties to a broad system of national planning the internal social audit changes in the characteristics of corporate social planning and proposals for restructuring ultimate corporate authority either through public or outside directors In addition he examines the potential relevance of federal chartering of corporations and the effects of international economic interdependence on the development of a new corporate social strategy This book is not a detailed blueprint for change Rather it presents a thorough systematic study of available courses of action for improvement based on the principle that conventional notions of corporate independence will have to be modified for any social strategy to work And while not everyone will agree with Neil Chamberlain few can afford to ignore his provocative insights into what corporations must do to function effectively in a changed social environment      **Kentucky Law Journal** ,1978      Southwestern Historical
