Hegel's God William Desmond, 2017-07-05 Hegel is widely regarded as one of the major thinkers of the modern era if not the entire tradition of philosophy Hegel like many philosophers took seriously traditional philosophical perplexities about God but unlike many modern philosophers he claimed to take the specific characteristic of Christianity into account in his philosophizing This book presents a new examination interpretation and critical engagement with Hegel's philosophy of religion and with his concept of God in particular William Desmond explores the distinctive stresses of Hegel's approach to God the influence it has exerted and the fundamental problems that his approach exhibits

A Phenomenology of Christian Life Felix Ó Murchadha, 2021-12-22 A study of how the world is experienced through Christian philosophy and phenomenology How does Christian philosophy address phenomena in the world Felix Murchadha believes that seeing hearing or otherwise sensing the world through faith requires transcendence or thinking through glory and night being and meaning By challenging much of Western metaphysics Murchadha shows how

phenomenology opens new ideas about being and how philosophers of the theological turn have addressed questions of creation incarnation resurrection time love and faith He explores the possibility of a phenomenology of Christian life and argues against any simple separation of philosophy and theology or reason and faith Murchadha makes abundant and timely references to the philosophical tradition from Plato through Heidegger but also perhaps more so to the post Heideggerian developments sometimes considered together and at once as the theological turn in phenomenology He is equally at home in the Christian theological traditions from Paul to Barth and von Balthasar Jeffrey Bloechl Boston College The book is engaging well written and from this reviewer s point of view generally convincing It constitutes an impressive and original contribution to both the philosophy of religion and has very much to offer to those interested in phenomenology and phenomenological analysis Modern Theology As an explication of how Christian belief can transform the meaning of the world this book shows its greatest worth Here it does as compelling a job as any in bringing out the novelty of Christianity before it became overly familiar and overwritten Philosophical Quarterly Astonishment and Science Paul Tyson,2022-12-27 Science can reveal or conceal the breathtaking wonders of creation On one hand knowledge of the natural world can open us up to greater love for the Creator give us the means of more neighborly care and fill us with ever deepening astonishment On the other hand knowledge feeding an insatiable hunger for epistemic mastery can become a means of idolatry hubris and damage Crucial to world respecting science is the role of wonder curiosity perplexity and astonishment In this volume philosopher William Desmond explores the relation of the different modes of wonder to modern science Responding to his thought are twelve thinkers across the domains of science theology philosophy law poetry medicine sociology and art restoration Introduction Paul Tyson The Dearth of Astonishment On Curiosity Scientism and Thinking as Negativity William Desmond Preparing to Paint the Virgin s Robe Spike Bucklow Cultivating Wonder Steven Knepper The Astonishment of Philosophy William Desmond and Isabelle Stengers Simone Kotva 5 Astonishment and the Social Sciences Paul Tyson Curiosity Perplexity and Astonishment in the Natural Sciences Andrew Davison Scientism as the Dearth of the Nothing Richard J Colledge The Determinations of Medicine and the Too Muchness of Being Jeffrey Bishop Attending to Infinitude Law as in between the Overdeterminate and Practical Judgment Jonathan Horton Life s Wonder Simon Oliver Being in Control Michael Hanby Wondering about the Science Scientism Distinction D C Schindler Basil and Desmond on Wonder and the Astonishing Return of Christian Metaphysics Isidoros C Katsos The Children of Wonder On Scientism and Its Changelings William Desmond

Ethnic Diversity, National Unity Theodros A. Teklu,2021-01-29 Although asserting one s ethnic identity is not morally wrong the manner in which one ethnic group construes or relates to the ethnic other s can obliterate the bond of togetherness and create the insecurity of life Ethiopia which is home to anthropologically diverse ethno linguistic groups exhibits a proclivity to ethnic based hostilities and conflicts As a result of such hostilities Ethiopia had suffered recurrent small and large scale deaths and in the last half decade only millions have been internally displaced and live in dire

conditions In dialogue with perspectives from a wide range of disciplines such as history law sociology philosophy theology and political thought this multi authored book aims at generating Christian moral resources for peaceful multiethnic togetherness This interdisciplinary engagement is meant to buttress the task of interpreting ethnic diversity and national unity within both contemporary and historical Ethiopia and articulating a Christian moral response to the crisis of togetherness ensuing from the malpractices of affirming ethnic identity and enacting national unity

Religion in the Anthropocene Celia Deane-Drummond, Sigurd Bergmann, Markus Vogt, 2018-01-01 Religion in the Anthropocene charts a new direction in humanities scholarship through serious engagement with the geopolitical concept of the Anthropocene Drawing on religious studies theology social science history philosophy and what can be broadly termed as environmental humanities this collection represents a groundbreaking critical analysis of diverse narratives on the Anthropocene The contributors to this volume recognize that the Anthropocene began as a geological concept the age of the humans but that its implications are much wider than this Does the Anthropocene idea challenge the possibility of a sacred Nature or is it a secularized theological anthropology more properly dealt with through traditional concepts from Roman Catholic social teaching on human ecology Not all contributors to this volume agree about the answers to these and many more different questions Readers will be challenged provoked and stimulated by this book

The Roots of the World Duncan B. Reyburn, 2025-02-24 During his career the metaphysically minded journalist G K Chesterton 1874 1936 made a number of remarkable predictions about the future many of which have come true He had no science of history or theory of progress and he vehemently denied that what he was foretelling was inevitable in any way Yet he was still able to imagine with impressive clarity so much of what has come to pass This raises an obvious question How was Chesterton able to be so prescient In this book Duncan Reyburn offers an answer by arguing that Chesterton s gift for prophecy resulted from his unique awareness of formal causation which differs from the typical modern focus on efficient causes and effects To understand Chesterton s attunement to the formal cause his work is refracted through the lenses provided by four thinkers Plato Aristotle Marshall McLuhan and William Desmond These fit together to create a philosophical theological telescope that we can look through to better see the astonishing world in which we live as well as perhaps some of what might happen next

Bradley and the Problematic Status of Metaphysics Damian Ilodigwe, 2005 Bradley is a much neglected philosopher The neglect is hardly justifiable considering what Bradley actually wrote However the situation has improved in the last couple of decades as there are signs of renewed interest in Bradley Indeed a basic consensus among Bradley scholars is the need for a reassessment of his philosophy and his place in the history of philosophy In this interpretive and critical work Ilodigwe undertakes an appraisal of Bradley TM s philosophy He argues that Bradley TM s metaphysics of the absolute is the core of his philosophical system This means that we cannot understand Bradley TM s philosophy unless we do justice to this aspect of his thought Nor would it be possible to gain a full conspectus of the varied ramification of his thought if dissociated

from the larger milieu relative to which they subsist and have their being Unfortunately much of the contemporary rejection of Bradley TM s metaphysics is predicted on this sort of fragmentary appreciation as evidenced by Russell and James TM s reception of Bradley Bradley and the Problematic Status of Metaphysics tries to redress this imbalance Ilodigwe here makes a case for a fundamental reassessment of Bradley TM s philosophy by taking his account of the Absolute as point of reference for receiving other aspects of his thought In keeping with this strategy Part 1 and 2 focuses on a number of themes in Bradley TM s philosophy such as his account of immediate experience his theory of Judgement his analysis of the essence of thought and his account of truth as appearance In each case Ilodigwe shows how the themes illustrate a two fold thesis that permeate Bradley TM s thought the claim as to the immanence of the Absolute in its appearances and the further claim that the Absolute is irreducible to to any of its appearances Part 3 relates Bradley TM s philosophy to the situation of contemporary philosophy by assessing Russell and James TM s appraisal of Bradley

Mystery and Intelligibility Jeffrey Dirk Wilson, 2021-02-26 Philosophy is born in its history as pursuit of the wisdom we are never able fully to know Mystery and Intelligibility History of Philosophy as Pursuit of Wisdom both argues for that method and presents the results it can achieve Editor Jeffrey Dirk Wilson has gathered essays from six philosophical luminaries In History Philosophy and the History of Philosophy Timothy B Noone provides the volume s discourse on method in which he distinguishes three tiers of history History of philosophy as method occupies the third and highest tier John Rist reckons with contemporary corruption of the method in A Guide for the Perplexed or How to Present or Pervert the History of Philosophy Wilson s own essay Wonder and the Discovery of Being From Homeric Myth to the Natural Genera of Early Greek Philosophy shows the loss of wonder so evident in mythology by early Greek thinkers and its recovery by Plato and Aristotle In Metaphysics and the Origin of Culture Donald Phillip Verene demonstrates the wide cultural implications of philosophical discoveries even when the discovery is the boundary of what humans can know William Desmond offers an essay Flux Gibberish For and Against Heraclitus that owes as much to the humor of James Joyce as to the philosophical insights of philosophers ancient medieval and modern Eric D Perl s essay turns to the apophatic character of pursuing wisdom perhaps especially when asking what may be the most fundamental metaphysical question Into the Dark How Not to Ask Why is There Anything at All Philipp W Rosemann concludes the volume with the question best asked at the end of this literary seminar What is Philosophy Although

there are philosophers within the analytic and continental schools who are committed to the history of philosophy Mystery and Intelligibility demonstrates that history of philosophy as a third and distinct philosophical method is revelatory of the nature and structure of reality The God Who Is Beauty Brendon Thomas Sammon,2014-09-25 In the beginning was beauty and beauty was with God and beauty was God If the tradition of divine names that in its Christian form originates with Dionysius the Areopagite and includes among its ranks Albert the Great Thomas Aquinas and others is correct in identifying God with the name beauty then repurposing the Prologue to John s Gospel in this way seems hardly controversial For if beauty is a divine name then not only is it fitting to say God is beautiful but it is equally fitting to say that God is beauty itself However like most arguments from fittingness that is to say arguments whose veracity derives from the congruency proportion or harmony between the various elements of a proposition or idea rather than from some categorically higher or univocally determinate logical necessity the simplicity of its utterance stands in stark contrast to the complexity of its intelligible content It is the aim of the present work is to explore what it means to say that beauty is a divine name **The Gift of Beauty and the Passion of Being** William Desmond,2018-07-06 This book gathers a set of reflections on the gift of beauty and the passion of being There is something surprising about beauty that we receive and that moves the passion of being in us The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity Beauty seems bland and lacks the more visceral thrill of the ugly indeed the excremental We crave what disrupts and provokes us not what gives delight or even consoles By contrast attention is given to how beauty arouses enigmatic joy in us and we enjoy an elemental rapport with it as other Surprised by beauty our breath is taken away but we are more truly there with the beautiful when we are taken outside of ourselves We are first receivers of the gift of surprise and only then perceivers and conceivers My attention to the passion of being stresses a patience a receptivity to what is other What happens is not first our construction There is something given something awakening something delighting something energizing something of invitation to transcendence The theme is amplified in diverse reflections on life and its transient beauty on soul music and its relation to self on the shine on things given in creation on beauty and Schopenhauer s dark origin on creativity and the dynamis in Paul Weiss s creative ventures on redemption in Romanticism in the thought of Stanley Cavell on theater as a between or metaxu on redeeming laughter and its connection with the passion of being

The Divine Manifold Roland Faber,2014-07-30 The Divine Manifold is a postmodern enquiry in intersecting themes of the concept and reality of multiplicity in a chaosmos that does not refuse a dimension of theopoetics but rather defines it in terms of divine polyphilia the love of multiplicity In an intricate play on Dante s Divine Comedy this book engages questions of religion and philosophy through the aporetic dynamics of love and power locating its discussions in the midst of and in between the spheres of a genuine philosophy of multiplicity This philosophy originates from the poststructuralist approach of Gilles Deleuze and the process philosophical inspirations of Alfred N Whitehead As their chaosmos invites questions of

ultimate reality religious pluralism and multireligious engagement a theopoetics of love will find paradoxical dissociations and harmonizations with postmodern sensitivities of language power knowledge and embodiment At the intersection of poststructuralism s and process theology s insights in the liberating necessity of multiplicity for a postmodern cosmology the book realizes its central claim If there is a divine dimension of the chaosmos it will not be found in any identification with mundane forces or supernatural powers but on the contrary in the absolute difference of polyphilic love from creativity Yet the concurrent indifference of love and power its mystical undecidability in terms of any conceptualization will lead into existential questions of the insistence on multiplicity in a world of infinite becoming as inescapable background for its importance and creativeness formulating an ecological and ethical impulse for a mystagogy of becoming intermezzo

Post-Subjectivity Andrew German, Merav Mack, Christoph Schmidt, 2014-04-11 Modern thinkers have often declared the end or even the death of the subject and have been searching for new ways of being a self Indeed many contemporary scholars regard this search as one of the most significant effects of the general crisis of secularity Post Subjectivity is a contribution to that search conducted with a renewed attention to the centrality of religion in a pluralistic and global context This volume of essays guides the reader through but also beyond the crises of modernity and postmodernity toward an attempt to resurrect the subject in new forms The volume resonates with voices from across the humanistic disciplines the theological turn in recent phenomenology new directions in Christian and Jewish theology and reappraisals of figures in the history of philosophy psychoanalysis and the study of sexuality all are represented in an attempt to rethink from the beginning what it is to be a self

Educating for Democracy Alan M. Olson, David M. Steiner, Irina S. Tuuli, 2004-08-04 The central conflicts of the world today are closely related to cultural traditional and religious differences between nations As we move to a globalized world these differences often become magnified entrenched and the cause of bloody conflict Growing out of a conference of distinguished scholars from the Middle East Europe and the United States this volume is a singular contribution to mutual understanding and cooperative efforts on behalf of peace The term *paideia* drawn from Greek philosophy has to do with responsible education for citizenship as a necessary precondition for effective democracy The problems discussed here are crucial but not simple How can we find shared ethical principles on which to build international consensus How can religious tolerance make inroads in societies accustomed to restrictive fundamentalism What might bring about de dogmatization of education in the Middle East as a necessary condition for free and rational inquiry and the broader vistas required by democracy All of these issues highlight the underlying question What is education really for Finally the volume confronts the promises and perils of economic globalization Noting that one third of the world s population lives in abject poverty business has become a battlefield where ethics and trust are clearly at stake
