Crossing Sex and Gender in Latin America V. Lewis,2010-08-02 Signifying others or signs of life This book critically examines the ways in which crossing sex and gender is imagined in key cultural texts from contemporary Latin America Unlike previous studies Crossing Sex and Gender in Latin America does not hold that sexually diverse figures are always and only performative or allegorical and instead places the accent on questions of the presence or absence of an account of subjectivity in contemporary representation Via analysis of selected films and literary works of Reinaldo Arenas Mayra Santos Febres Pedro Lemebel among others the author reflects on the political implications of recent visions 1985 2005

The Translator's Visibility Heather Cleary,2020-12-10 At the intersection of translation studies and Latin American literary studies The Translator s Visibility examines contemporary novels by a cohort of writers including prominent figures such as Cristina Rivera Garza C sar Aira Mario Bellatin Valeria Luiselli and Luis Fernando Verissimo who foreground translation in their narratives Drawing on Latin America s long tradition of critical and creative engagement of translation these novels explicitly visibly use major tropes of translation theory such as gendered and spatialized metaphors for the practice and the concept of untranslatability to challenge the strictures of intellectual property and propriety while shifting asymmetries of discursive authority above all between the original as a privileged repository of meaning and translation as its hollow emulation In this way The Translator s Visibility show that translation not only serves to renew national literatures through an exchange of ideas and forms when rendered visible it can help us reimagine the terms according to which those exchanges take place Ultimately it is a book about language and power not only the ways in which power wields language but also the ways in which language can be used to unseat power

Representations of China in Latin American Literature (1987-2016) Maria Montt Strabucchi, 2023-11-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Representations of China in Latin American Literature 1987 2016 analyses contemporary Latin American novels in which China is the main theme Using China as a multidimensional term it explores how the novels both highlight and undermine assumptions about China that have shaped Latin America's understanding of China and shows China to be a kind of literary imaginary third term which reframes Latin American discourses of alterity On one level it argues that these texts play with the way that China stands in as a wandering signifier and as a metonym for Asia a gesture that essentialises it as an unchanging other On another level it argues that the novels employment of China resists essentialist constructions of identity China is thus shown to be serving as a concept which allows for criticism of the construction of fetishized otherness and of the exclusion inherent in essentialist discourses of identity The book presents and analyses the depiction of an imaginary of China which is arguably performative but which discloses the tropes and themes which may be both established and subverted in the novels Chapter One examines the way in which China is represented and constructed in Latin American novels where this country is a setting for their stories The novels studied in Chapter Two are linked to the presence of Chinese communities in Latin America The final chapter examines novels whose main theme is travel to contemporary China Ultimately in the novels studied in this book China serves as a concept through which essentialist notions of identity are critiqued Los héroes impuros Rosibel Morera, 1995 Excellent novel that falls within the now common practice of recovering colonial discourse in contemporary Spanish American narrative Different from other works that fictionalize the history of the chroniclers stories Morera chooses to fictionalize the conquistadors mainly Pizarro and Nez de Balboa They interact with Piedra Ce uda Esperanza a sort of Malinche Do a Marina who guides them But Cima Napa and other native women have a different purpose to undo the myths about the discovery and subsequent colonialization of the Americas Thus the fable moves from Central to South America and Amerindians and Spaniards are represented in their complexity not as binary oppositions Yet the narrative sees both as poetic and surreal heroes a choice which sometimes undermines the narrative thread Handbook of Latin American Studies v 58 Amores Perros Paul Julian Smith, 2019-07-25 Amores Perros 2000 speaks to an international audience while never oversimplifying its local culture This study of this film

opens up that culture revealing the film's relationship to television soap operas pop music and contemporary debates about what it means to be Mexican
