**Sixteenth-century Identities** A. J. Piesse, 2001 Institutionalism has become one of the dominant strands of theory within contemporary political science Beginning with the challenge to behavioural and rational choice theory issued by March and Olsen institutional analysis has developed into an important alternative to more individualistic approaches to theory and analysis This body of theory has developed in a number of ways and perhaps the most commonly applied version in political science is historical institutionalism that stresses the importance of path dependency in shaping institutional behaviour The fundamental question addressed in this book newly available in paperback is whether institutionalism is useful for the various sub disciplines within political science to which it has been applied and to what extent the assumptions inherent to institutional analysis can be useful for understanding the range of behaviour of individuals and structures in the public sector The book consists of a set of strong essays by noted international scholars from a range of sub disciplines within the field of political science each analysing their area of research from an

institutionalist perspective and assessing what contributions this form of theorising has made and can make to that research. The result is a balanced and nuanced account of the role of institutions in contemporary political science and a set of suggestions for the further development of institutional theory. *The Anthropology of Christianity* Fenella Cannell, 2006-11-07 Ethnographies exploring the vastly different ways that Christianity is experienced and understood by different groups around the world. **A Different God?** Renate Schlesier, 2011-12-23 Within modern frameworks of knowledge and representation Dionysos often appears to be atypical for ancient culture an exception within the context of ancient polytheism or even an instance of a difference that anticipates modernism. How can recent research contribute to a more precise understanding of the diverse transformations of the ancient god from Greek antiquity to the Roman Empire. In this volume which is the result of an international conference held in March 2009 at the Pergamon Museum Berlin scholars from all branches of classical studies including history of scholarship consider this question. Consequently this leads to a new look on vase paintings sanctuaries rituals and religious political institutions like theatre and includes new readings of the texts of ancient poets historians and philosophers as well as of papyri and inscriptions. It is the diversity of sources or methods and the challenge of former views that is the strength of this volume providing a comprehensive innovative and richly faceted account of the different god in an unprecedented way. *When God Talks Back* Tanya M. Luhrmann, 2012 Through a series of intimate illuminating interviews with various members of the Vineyard an evangelical church with hundreds of congregations across the country Luhrmann leaps into the heart of evangelical faith. **Looking for God in Brazil** John Burdick, 1993-12-28 For a generation the Catholic Church in Brazil has enjoyed international renown as one of the most progressive social forces in Latin America. The Church's creation of Christian Base Communities CEBs groups of Catholics who learn to read the Bible as a call for social justice has been widely hailed. Still in recent years it has become increasingly clear that the CEBs are lagging far behind the explosive growth of Brazil's two other major national religious movements Pentecostalism and Afro Brazilian Umbanda. On the basis of his extensive fieldwork in Rio de Janeiro including detailed life histories of women blacks youths and the marginal poor John Burdick offers the first in depth explanation of why the radical Catholic Church is losing and Pentecostalism and Umbanda winning the battle for souls in urban Brazil. The Power of God Against the Guns of Government Paul J. Vanderwood, 1998 Writing in a narrative style reminiscent of Womack's Zapata and the Mexican Revolution author explains a series of 1890s uprisings in Tomochic in the border state of Chihuahua against the Porfirians determination to dictate who would control the land. **Magistrates, Madonnas and Miracles** Trevor Johnson, 2016-12-05 In 1621 in one of the earliest campaigns of the Thirty Years War the South German principality of the Upper Palatinate was invaded and annexed by Maximilian of Bavaria director of the Catholic League. In the subsequent years the eyes of Europe looked to the fate of this erstwhile hub of the Calvinist international as Maximilian steadily moved to convert its population to Catholicism. This study is the first account in English to focus on this important instance of forced

conversion and the first account in any language to place the political impact of the Thirty Years War into the broader context of the Upper Palatinate's religious culture examined over the longue dur e from the later sixteenth to the mid eighteenth centuries The book analyses the rich unpublished sources of church and state from Bavarian and Roman archives as well as printed texts in varied genres to reconstruct the region's sacred system and to gauge the effectiveness of the campaign of conversion This allows the study to address questions of how the re catholicisation was achieved how a religious culture infused with the spirit of the Counter Reformation developed and how this change shaped the identity of its people More than this however the book also uses the Upper Palatinate case study to draw broader conclusions about the strengths and limitations of the Confessional model and suggests other ways of looking at religious change and identity formation in early modern Europe which embraces popular religious culture and voluntary religion as well coercion As such the book offers much not only to scholars of early modern Germany but to all with an interest in the formation adoption and imposition of religious identity during this period

*Gender and Power in Contemporary Spirituality* Anna Fedele, Kim E. Knibbe, 2013 Contemporary distinctions between religion and spirituality can often be traced to rebellion against hierarchical institutions with biases towards women and minorities that constrain individual freedom This opposition is carefully addressed in this volume with greater attention paid to gender and power in the context of contemporary spirituality and how these relate to the distinction between religion and spirituality
