Right And Left Essays On Dual Symbolic Classification:

Right & Left Rodney Needham, 1978 *Right and Left* is the first book to explore symbolic dualism systematically in a variety of cultures Featuring a new translation of Robert Hertz's seminal work *The Pre-eminence of the Right Hand* this rewarding collection presents seventeen essays written between 1909 and 1971 by notable scholars on both literary and ethnographic aspects of the subject Many appear here in English for the first time and several have been materially revised for this volume Together these essays reveal the amazing range of dual symbolic classifications such as right and left masculine and feminine yin and yang and support Hertz's contention that polarity is a fundamental aspect of human expression back cover *Right & Left* Rodney Needham, 1973 *Right and Left*, 1992 **Right & Left** Rodney Needham, 1973 *Right Hand, Left Hand* I. C. McManus, 2002 McManus considers evidence from anthropology particle physics the history of medicine and the notebooks of Leonardo to answer questions like Why are most people right handed Why does European writing go from left to right while Arabic and Hebrew go from right to left And how do we know that Jack the Ripper was left handed *Right and Left*, 1992 *Thinking with Demons* Stuart Clark, 1999 This is a work of fundamental importance for our understanding of the intellectual and cultural history of early modern Europe Stuart Clark offers a new interpretation of the witchcraft beliefs of European intellectuals based on their publications in the field of demonology and shows how these beliefs fitted rationally with many other views current in Europe between the fifteenth and eighteenth centuries Professor Clark is the first to explore the appeal of demonology to early modern intellectuals by looking at the books they published on the subject during this period After examining the linguistic foundations of their writings the author shows how the writers' ideas about witchcraft and about magic complemented their other intellectual commitments in particular their conceptions of nature history religion and politics The result is much more than a history of demonology It is a survey of wider intellectual and ideological purposes and underlines just how far the nature of rationality is dependent on its historical context **Right and Left, Essays on Dual Symbolic Classification, Edited and with an Intro** Rodney Needham, 1973 *Right and Left* Rodney Needham, 1973 *Senses of Touch: Human Dignity and Deformity from Michelangelo to Calvin* Marjorie O'Rourke Boyle, 2021-10-11 *Senses of Touch* anatomizes the uniquely human hand as a rhetorical figure for dignity and deformity in early modern culture It concerns a valuational shift from the contemplative ideal as signified by the sense of sight to an active reality as signified by the sense of touch From posture to piety from manicure to magic the book discovers touch in a critical period of its historical development in anatomy and society It features new interpretations of two landmarks of western civilization Michelangelo's fresco of the Creation of Adam and Calvin's doctrine of election It also accords special attention to the typing of women as sensual creatures by using their hands as a heuristic Its alternative interpretations explore in theory and in practice the sensuality the creativity and the plain utility of hands thus integrating biology and culture
