Rio Plus Ten:

Rio Plus Ten Neil Middleton, Phil O'Keefe, 2003-08-20 Thoroughly revised and updated edition of this comprehensive survey of resource depletion

Rio Plus Ten Neil Middleton, Phil O'Keefe, 2003-08-20 The World Summit on Sustainable Development took place in Johannesburg South Africa in September 2002 In this book the authors look at the agenda established since the original Rio conference in 1992 and cover the events of the intervening years global warming and the unfolding arguments over climate change energy water and sanitation patents and many other issues They examine what progress if any has been made Offering a critical analysis of the links between neoliberal economics and transnational organisations the authors expose the poverty of so called international protocols and resolutions which claim to offer solutions They show how in virtually every case these resolutions remain part of the problem of continuing poverty and environmental degradation in the non Western world

The Crisis of Global Environmental Governance Jacob Park, Ken Conca, Matthias Finger, 2008-03-27 Taking a critical perspective and providing a comprehensive framework on globalization and governance this book examines what institutional mechanisms and arrangements will enable people to achieve sustainable environmental governance

In Search of the Rain Forest Candace Slater, 2004-03-22 Collection of essays offers a multi layered understanding of the social complexities of rainforest practice and representation

Tourism Management Dynamics Dimitrios Buhalis, Carlos Costa, 2006-08-11 As the global tourism industry continues to expand and to become more complex it is vital that those in the industry identify trends early and design proactive strategies to gain competitive advantage Tourism Futures dynamics challenges and tools provides the readers with a comprehensive insight of the changes in the external business environment and equips them with new managerial techniques and tools in order to adapt and profit from these changes and into the future Written by a team of globally renowned thinkers and researchers it provides the manager of tomorrow with the ability to look beyond normal planning horizons and identify potential opportunities from change Tourism Futures dynamics challenges and tools is part of a two part set with its companion text Tourism Futures the emerging business which takes the reader on a logical progression to look at new products new consumers and new industry Both texts thereby provide the reader with a complete set of tools and knowledge to enable them to recognise the key areas of growth and change and the ability to use the new tools and technologies available to develop them and maximise business potential

Sustainable Construction Sandy Halliday, 2008-01-14 It has taken a very long time for sustainable development to be recognised as a justified restraint on inappropriate development and a primary driver of improving quality of life for all For designers clients and project managers this means we have to create healthy buildings and places which support communities enhance biodiversity and contribute to reversing unsustainable trends in pollution and resource consumption It is a very positive agenda This groundbreaking book will help all building design management and cost professionals to understand sustainable design and provide the technical skills needed to implement

the most up to date concepts Based on a hugely successful series of workshops for professionals in construction the book covers the history of ideas materials measurement both cost and benchmarking performance environmental services and the building design and delivery process through to post occupancy evaluation It covers individual buildings and the urban scale Sustainable Construction is a master class in how to achieve practical affordable replicable sustainable design It has something new and often surprising in it for everybody in the construction industry For the Architect and Engineer it gives chapter and verse to the basic design issues at all scales and through the whole of the plan of work For Quantity Surveyors and cost professionals it challenges current conventions with researched case study evidence For clients and project managers it outlines the drivers and the justification for a sustainable approach and outlines the legislative framework and it gives guidance on procurement and project and site management issues For contractors and developers it contains a wealth of case study material rooted in practical experience and economic reality For teachers and students it will bust myths liberate thinking and inform design

Bringing New Law to Ocean Waters David D. Caron, Harry N. Scheiber, 2004-09-01

In this volume leading scholars and jurists in ocean law provide perspectives on the past record of legal change together with analyses of a wide range of institutional and legal innovation that are needed to meet current challenges The topics that are addressed here include policy process and legal innovation in marine fisheries management institutional capacity and jurisdictional conflict in ocean law adjudication regionalism and multilateralism in their various aspects the challenges posed by the sudden recent availability of technological access to underwater cultural heritage compensation for war related environmental damage and the problems associated with access to marine genetic materials Bringing new law to ocean waters the quest to adjust the legal order of the oceans to changing realities a quest that has produced both great achievements and grievous failures has constituted one of the major developments in international law in the last half century

China and International Fisheries Law and Policy Guifang Xue, 2005-12-01 This book deals with China's response to international fisheries law and policy as envisaged in the LOSC framework and post LOSC fisheries instruments A substantial effort was made to examine the major areas of China's national action on legislative harmonisation and policy adjustment to implement these instruments China's regional fisheries cooperation in the form of bilateral agreements with Japan South Korea and Vietnam is evaluated to identify the progress already achieved and the problems that remain to be solved in managing the shared fish stocks between these maritime neighbours As the first monograph of its kind dealing with the complex issue of the global fisheries crisis and China's fisheries management practice over a significant period of time the book builds a bridge between China and the world for a better understanding of Chinese fisheries management It will be of great value to academics professionals and policy makers alike

Local Economic Development and the Environment David Gibbs, 2005-07-08 This book focuses upon the potential to integrate economic and environmental policies at the local and regional scale Local initiatives are investigated within their wider economic and environmental policy contexts in order

to illustrate both the constraints and opportunities for local policy makers Attention is given to global economic trends as well as to the specific policy contexts of the European Union and the national contexts of the UK USA Australia Japan and Sweden The key principles for designing integrative policies and descriptions of initiatives and projects in a variety of locations are also considered

Human Rights and the Environment Lyuba Zarsky, 2012-06-25 The impact of environmental damage on human rights civil political or welfare and labour rights is becoming ever more widely appreciated and has direct bearing on the behaviour of companies and their norms of conduct In this volume contributors draw on the tools and insights of a range of disciplines including law anthropology economics geography and social science to analyze the issues and show how new standards that protect rights and liberties can be established
