Unconquered States H. E. Chehabi, David Motadel, 2024-11-25 In the heyday of empire most of the world was ruled directly or indirectly by the European powers Unconquered States explores the struggles for sovereignty of the few nominally independent non Western states in the imperial age It examines the ways in which countries such as China Ethiopia Japan the Ottoman Empire Persia and Siam managed to keep European imperialism at bay whereas others such as Hawai i Korea Madagascar Morocco and Tonga long struggled but ultimately failed to maintain their sovereignty The chapters in this book address four major aspects of the relations these countries had with the Western imperial powers armed conflict and military reform unequal treaties and capitulations diplomatic encounters and royal diplomacy Bringing together scholars from five continents this book provides the first comprehensive global history of the engagement of the independent non European states with the European empires reshaping our understanding of sovereignty territoriality and hierarchy in the modern world order

Royal Capitalism Puangchon Unchanam, 2020-01-14 Thanks to its active role in national politics the market economy and popular culture the Thai crown remains both the country s dominant institution and one of the world s wealthiest monarchies Puangchon Unchanam examines the reign of Thailand s King Bhumibol Adulyadej or Rama IX 1946 2016 and how the crown thrived by transforming itself into a distinctly bourgeois monarchy that co opted middle class values of hard work frugality and self sufficiency The kingdom positioned itself to connect business elites patronize local industries and form strategic partnerships with global corporations Instead of restraining or regulating royal power white collar workers joined

with the crown to form a dynamic symbiotic force that has left the lower classes to struggle in their wake Unchanam presents a surprising case study that kings and queens live long and large in cooperation with the bourgeoisie s interests and ideology

The King and the Making of Modern Thailand Antonio Rappa,2017-04-21 The making of modern Thailand is grounded in specific political institutions Brahmanical tropes and sacred Buddhist traditions stylized with Hindu rituals Over and above these mysterious practices and ancient customs modern Thailand is a product of the late Great Rama IX Bhumibol Adulyadej Most Thai people have only known one King Born in Europe and educated during World War II Bhumibol was the son of a Harvard medical doctor who had a penchant for jazz music and fast cars When he returned to Thailand in 1951 to assume his royal duties he could hardly speak Thai but his French and German were remarkable Bhumibol had inherited an impoverished country with nothing but a symbolic role as a figurehead monarch He was surrounded by envious courtiers and royals from other families now sidelined by the rise of the Chakri Scheming generals and authoritarian field marshals were emptying the Kingdom s coffers Using guile and wit Bhumibol had turned the tide by 1973 He became the most powerful modern warlord in the history of the Kingdom He survived attempted murder crafty politicians corrupt generals sycophantic courtiers and impoverished masses When he died on October 13 2016 Bhumibol was already the longest standing monarch in the world King Bhumibol was deeply respected and well liked by farang and locals alike Despite his massive social and economic achievements many problems continue to plague the Kingdom These are prostitution human rights issues pollution corruption cronyism in Chinese businesses border conflicts with Cambodia and the refugee problem This book examines the role of Rama IX and the variegated set of problems that persist in life under the great white elephant and mango trees Rappa draws from his primary research that includes interviews surveys and first hand observations of a remarkable kingdom and a uniquely remarkable king to reveal the internal security threats to democracy and civil society in the oldest Southeast Asian kingdom in late modernity

[A History of Manners and Civility in Thailand](#) Patrick Jory,2021-01-07 An innovative new social history of Thailand told through the lens of changing

ideals of manners civility and behaviour Thailand in the Cold War Matthew Phillips, 2015-09-16 Thailand's position during the Cold War was ambiguous the country's political leadership was very keen to maintain the country's independence on the world stage yet at the same time was anxious to establish the country's credentials as staunchly anti communist However as this book argues Thailand though never formally a client state of the United States was very closely embedded in the Western camp through the commitment of Thailand's cosmopolitan urban communities to developing a modern consumerist lifestyle Considering popular culture including film literature fashion tourism and attitudes towards Buddhism the book shows how an ideology of consumerism and integration into a free world culture centred in the United States gradually took hold and became firmly established and how this popular culture and ideology was fundamental in determining Thailand's international political alignment

International Relations as a Discipline in Thailand Chanintira na Thalang, Soravis Jayanama, Jittipat Poonkham, 2018-07-24 There has long been considerable debate about the nature of non Western IR theory Most attempts to understand such a phenomenon begin by taking a top down approach on a country by country basis Instead this book takes a bottom up approach involving specialists from a range of Thai universities revealing the contours of the Thai IR community It examines the state of various sub fields under the IR rubric in Thailand such as foreign policy analysis security studies international political economy and area studies and how Thai thinkers in these fields have contributed to IR as a discipline and IR theory development in Thailand In doing so it identifies factors unique to Thai academia which have hindered the development of an indigenous sourced theory as well as exploring the similarities shared with other non Western contexts that have posed an obstacle to the creation of a more general non Western IR theory Providing both an in depth insight into the specific phenomena of Thai IR theory and a broader perspective on the challenges of formulating non Western IR theory this book aims to push the debate on non Western IR theory forward It will be of particular interest to readers looking for a better understanding of IR theory in Thailand but also for those more generally looking to formulate and characterise non Western approaches to the discipline
