Rise And Demise:

Age of Auto Electric Matthew N. Eisler, 2022-12-06 The electric vehicle revival reflects negotiations between public policy which promotes clean fuel efficient vehicles and the auto industry which promotes high performance vehicles Electric cars were once as numerous as internal combustion engine cars before all but vanishing from American roads around World War I Now we are in the midst of an electric vehicle revival and the goal for a sustainable car seems to be within reach In *Age of Auto Electric* Matthew N Eisler shows that the halting development of the electric car in the intervening decades was a consequence of tensions between environmental energy and economic policy imperatives that informed a protracted reappraisal of the automobile system These factors drove the electric vehicle revival argues Eisler hastening automaking's transformation into a science based industry in the process Challenging the common assumption that the electric vehicle revival is due to the development of better batteries *Age of Auto Electric* instead focuses on changing environmental and socioeconomic conditions energy and environmental policies systems of energy conversion and industrial production and innovation practices that affected the prevalence and popularity of electric vehicles in recent decades Eisler describes a world in transition from legacy to alternative energy conversion systems and the promises compromises new problems and unintended consequences that enterprise has entailed

The Age of Change Michelle D. Gavin, 2025-09-04 An approachable guide to the political social and demographic changes happening in Africa and why they matter for the rest of the world Africa is undergoing an astounding transformation that will usher in a new era of political volatility and experimentation in the coming years The region is in the midst of a historically unprecedented demographic surge that has skewed the median age in most countries to below twenty years old This demographic moment coincides with three factors likely to amplify the political agendas of African youth rapid urbanization dramatically increased digital connectivity and increasing recognition that old political narratives are no longer fit for purpose Michelle D Gavin argues that these clear trends will result in an increase in political volatility Anti government movements will continue to find new expression incumbents will be more vulnerable honeymoon periods for new leaders will be shorter and transfers of power and leadership will be more frequent Citizens frustrated by the status quo will show more willingness to experiment with different forms of government and different external partnerships all with significant implications for those hoping for a global democratic resurgence This book explores growing dissatisfaction and desire for change as the political through line emerging on a diverse continent and illuminates some of the frustrated defiant and often humorous pan African political conversations underway among young politically engaged populations What is coming will be dramatically different from the period of political stagnation that has characterized the past two decades in the region and that also means that major powers like the United States Russia and China that are competing for influence in the region will have to change the way they do business

Extraterrestrial Ethics Jensine Andresen, 2023-11-25 This unique book takes both inductive and deductive approaches to the topic of extraterrestrial

ethics Inductively it asks what kind of ethics an advanced intelligent extraterrestrial species might display Deductively it asks how human beings should transform their own understanding of ethics to prepare for widespread contact with an advanced extraterrestrial species Using the ontological interpretation of quantum mechanics proposed by physicist and philosopher David Bohm Extraterrestrial Ethics considers how an extraterrestrial intelligence ETI may view ethical concerns relating to humankind The book examines two areas of concern nuclear technologies and the militarization and weaponization of space The text of the Fiscal Year 2022 National Defense Authorization Act FY22 NDAA in the United States clearly states that Unidentified Aerial Phenomena UAP have been reported at sites associated with nuclear weapons nuclear powered ships and submarines nuclear power generating stations etc suggesting that ETI is very concerned about the human use of nuclear technologies Furthermore the more ubiquitous level of UAP sightings by the U S military over the last few years as documented in the June 2021 report from the Office of the Director of National Intelligence ODNI in the U S suggest that ETI also is concerned about rapid acceleration relating to the militarization and weaponization of space The book concludes by advocating a normative approach to de militarize space

Lochner V. New York Paul Kens,1998 On the case of Joseph Lochner a baker in Utica N Y charged in 1901 with violating the New York Bakeshop Act of 1895 by requiring an employee to work more than 60 hours in one week

The Secularization of Baptism Mark G. McKim,2025-01-31 Does God actually do anything in baptism Is it more than just a symbol Most early Baptists would have answered yes Most Baptists today would answer no How and why did this change happen and does it matter Providing thorough documentation of the changing understandings of baptism among American Canadian and English Baptists from the 1600s to the present day The Secularization of Baptism demonstrates that four factors led to the symbolic only position becoming dominant These were suspicion in reaction to Roman Catholicism of the idea of God revealing himself through the physical the influence of the Enlightenment and embarrassment with claims that God could be acting in the world today reaction against the Oxford Movement and reaction against the understanding of baptism advocated by the Disciples of Christ Campbellites The now dominant symbolic only position so focuses attention on what the believer is doing in baptism that God is seen as largely absent from and doing nothing through the rite in effect believers baptism has been secularized A carefully reasoned biblical and theological argument is made for a return to the Regular Particular Baptist view that God is both profoundly spiritually present and active in baptism while at the same time rejecting the sacramentalist position advocated by a small number of mid twentieth and twenty first century Baptists such as H Wheeler Robinson George Beasley Murray Stanley K Fowler and Anthony R Cross

Apartheid, 1948-1994 Saul Dubow,2014-05 This fresh interpretation of apartheid South Africa integrates histories of resistance with the analysis of power asking not only why apartheid was defeated but how it came to survive for so long

The Demise of Finance-dominated Capitalism Eckhard Hein,Daniel Detzer,Nina Dodig,2015-04-30 This book provides an overview of different theoretical perspectives on the long run transition towards finance dominated

capitalism on the implications for macroeconomic and financial stability and ultimately on the recent global financial and economic crisis. Freedom and the Court Henry Julian Abraham, Barbara Ann Perry, 2003 Previous edition 6th published in 1994

No Place for the State Christopher Dummitt, Christabelle Sethna, 2020-04-15 There is no place for the state in the bedrooms of the nation Pierre Elliott Trudeau told reporters. He was making the case for the most controversial of his proposed reforms to the Criminal Code: those concerning homosexuality, birth control and abortion. In *No Place for the State*, contributors offer complex and often contrasting perspectives as they assess how the 1969 Omnibus Bill helped shape sexual and moral politics in Canada by examining the bill's origins, social implications and repercussions. The new legal regime had significant consequences for matters like adoption, divorce and suicide. After the bill passed, a great many Canadians continued to challenge how sexual behaviour was governed, demanding much more exhaustive changes to the law. Fifty years later, the origins and legacies of the bill are equivocal and the state still seems interested in the bedrooms of the nation. This incisive study explains why that matters. **Book Review Index**, 2003 Vols 8-10 of the 1965-1984 master cumulation constitute a title index.
