their numbers recruitment teaching methods social position and prospects The governess provides a key to the central Victorian concept of the lady Her education consisted of a series of accomplishments designed to attract a husband able to keep her in the style to which she had become accustomed from birth Becoming a governess was the only acceptable way of earning money open to a lady whose family could not support her in leisure Being paid to educate another woman's children set in play a series of social and emotional tensions The governess was a surrogate mother who was herself childless a young woman whose marriage prospects were restricted and a family member who was sometimes mistaken for a servant
