Rise Of Liberalism:

The Collapse of Global Liberalism Philip Pilkington, 2025-06-03 In the 1990s a vision emerged of a frictionless world of globalization in which the West would become ever richer on the basis of a tech based service economy all underpinned by a rules based liberal international order It became the basis for the mainstream politics of centre left and right Philip Pilkington argues that this vision was always delusional and is now dying It is based on a doctrinaire and unrealistic form of liberalism and has given rise to hollowed out financialised economies and disintegrating societies that can barely even reproduce their population or meet their energy needs The US and UK find themselves ill equipped to compete with China and other non liberal states within an emerging post liberal order in which what really matters is industrial capacity realpolitik and military strength Only by abandoning our liberal delusions and advancing our own brand of hard headed post liberalism can the West survive No clear sighted observer of contemporary geopolitics can afford to miss this bracing diagnosis of the West's malaise and bold agenda for renewal

Richard Nixon and the Rise of Affirmative Action Kevin Yuill, 2006-06-27 Nixon's efforts in moving the focus of U S race relations from reform to indemnifying damages Yuill argues at least equal his contributions to the origins of affirmative action through policy innovations Jacket

Harold Laski, the Reluctant Marxist Peter Lamb, 2024-09-13 This book examines Harold Laski's relationship to Marxism Laski was a reluctant Marxist he had been a pluralist democratic socialist who wanted to reach a better society by means of parliamentary constitutional and associational channels In fact he never abandoned these early aspirations In the 1930s and 1940s he wove them into a distinctive Marxist position as he gradually came to believe that there was no answer to Marxist philosophy on history social change and the prospects for socialism It is the incorporation of his earlier political thought into his later work that makes his Marxism so fascinating and his work raises important questions Harold Laski's Marxism aims to bring a relatively forgotten political theorist back into the spotlight Peter Lamb provides an overview to Laski's political thought in the 20th century and explores his connections to essential foundations of Marxist thought He ends with a discussion of ways in which Laski's Marxism is of lasting significance and can contribute to more recent Marxist and neo Marxist debates

Citizenship and Identity Engin F Isin, Patricia K Wood, 1999-09-08 Through a detailed introductory discussion of the relation between the civil and the political and between recognition and representation this book provides a comprehensive vocabulary for understanding citizenship It uses the work of T H Marshall to frame the critical interrogation of how ethnic technological ecological cosmopolitan sexual and cultural rights relate to citizenship The authors show how the civil political and social meanings of citizenship have been redefined by postmodernization and globalization
