Military Leadership in the British Civil Wars, 1642-1651 Stanley D. M. Carpenter,2005 This work is a study of military leadership and resulting effectiveness in battlefield victory focusing on the parliamentary and royalist regional commanders in the north of England and Scotland in the three civil wars between 1642 and 1651 **The Patterns of War**

Since the Eighteenth Century Larry H. Addington,1994-10-22 This important work synthesizes the evolution of warfare from 1775 to the present Military Review A thorough revision of a highly successful text the second edition of this classic work provides a comprehensive picture of the evolution of modern warfare Addington discusses developments in strategies and tactics logistics and weaponry and provides detailed discussions of important battles and campaigns His book is an excellent introduction for both students and the general reader There is nothing else in print that tells so much so concisely about how war has been conducted since the days of General George Washington Russell F Weigley author of The American Way of War A superior synthesis Well written nicely organized remarkably comprehensive and laced with facts Military Affairs *War and Society in Early Modern Europe* Frank Tallett,2016-02-08 War and Society in Early Modern Europe takes a fresh approach to military history Rather than looking at tactics and strategy it aims to set warfare in social and institutional contexts Focusing on the early modern period in western Europe Frank Tallett gives an insight into the armies and shows how warfare had an impact on different social groups as well as on the economy and on patterns of settlement

The Great Powers and Global Struggle, 1490-1990 Karen A. Rasler,William R. Thompson,2021-10-21 In The Great Powers and Global Struggle Karen A Rasler and William R Thompson focus on two themes the rise and fall as well as the relative

decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict

Professional Journal of the United States Army ,1982 **U.S. Special Warfare** Samuel A. Southworth,2009-07-21 For many centuries the job of everyday soldiers the grunts was the same see the hill take the hill But the combat role of today s U S soldier has undergone a radical change The recent revolution in the art of soldiering in America emphasizes a smaller but more highly specialized and technologically equipped armed force Now even everyday soldiers in America s armed forces specialize in elite combat skills that use the very latest high tech equipment After basic training many of today s recruits continue advanced training in one of the new emerging combat specialties such as urban mountain and arctic warfare amphibious underwater and small boat operations modern cavalry combat sniping military intelligence and psychological warfare search and rescue procedures and combat engineering In lively and entertaining prose military historian Sam Southworth describes these emerging combat specialties as well as the training and equipment for each that characterize America s fighting force today

The Age of Wars of Religion, 1000-1650 Cathal J. Nolan,2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in

world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires
