Power Transition in Asia David Walton, Emilian Kavalski, 2016-08-12 Current preoccupations with the rise of Asia attest to the nascent contestation of the very idea of what the pattern of international politics should look like and how it should be practiced In this respect the growing reference to a shift to the East in global politics has become a popular shorthand for the nascent power transition in world affairs This volume offers a detailed conceptual and empirical investigation of the dynamics of power transition in Asia and details the accommodation strategies and coping mechanisms of different small and middle powers in Asia and importantly China's responses to these approaches
