Ritual In Early Modern Europe:

Ritual in Early Modern Europe Edward Muir, 2005-08-18 The comprehensive 2005 study of rituals in early modern Europe argues that between about 1400 and 1700 a revolution in ritual theory took place that utterly transformed concepts about time the body and the presence of spiritual forces in the world Edward Muir draws on extensive historical research to emphasize the persistence of traditional Christian ritual practices even as educated elites attempted to privilege reason over passion textual interpretation over ritual action and moral rectitude over gaining access to supernatural powers Edward Muir discusses wide ranging themes such as rites of passage carnivalesque festivity the rise of manners Protestant and Catholic Reformations the alleged anti Christian rituals of Jews and witches This edition examines the impact on the European understanding of ritual from the discoveries of new civilizations in the Americas and missionary efforts in China and adds more material about rituals peculiar to women

The King's Body Sergio Bertelli, R. Burr Litchfield, 2010-11 The King's Body offers a unique and up to date overview of a central theme in European history the nature and meaning of the sacred rituals of kingship Informed by the work of recent cultural anthropologists Sergio Bertelli explores the cult of kingship which pervaded the lives of hundreds of thousands of subjects poor and rich noble and cleric His analysis takes in a wide spectrum from the Vandal kings of Spain and the long haired kings of France to the beheaded kings of England and France Charles I and Louis XVI Bertelli explores the multiple meanings of the rites related to the king's body from his birth with the exhibition of his masculinity to the crowning a rebirth to his death a triumph and an apotheosis We see how particular occasions such as entrances processions and banquets make sense only as they related directly to the king's body Bertelli also singles out crowd participatory aspects of sacred kingship including the rites of violence connected with the interregnum perceived as a suspension of the law and the rites of expulsion for a tyrant's body emphasizing the inversion of crowning rituals First published in Italy in 1990 The King's Body has been revised and updated for English speaking readers and expertly translated from the Italian by R Burr Litchfield Deftly argued and amply illustrated this book is a perfect introduction to the cult of kingship in the West at the same time it illuminates for modern readers how strangely different the medieval and early modern world was from our own

Defining Community in Early Modern Europe Michael J. Halvorson, 2016-12-05 Numerous historical studies use the term community to express or comment on social relationships within geographic religious political social or literary settings yet this volume is the first systematic attempt to collect

together important examples of this varied work in order to draw comparisons and conclusions about the definition of community across early modern Europe Offering a variety of historical and theoretical approaches the sixteen original essays in this collection survey major regions of Western Europe including France Geneva the German Lands Italy and the Spanish Empire the Netherlands England and Scotland Complementing the regional diversity is a broad spectrum of religious confessions Roman Catholic communities in France Italy and Germany Reformed churches in France Geneva and Scotland Lutheran communities in Germany Mennonites in Germany and the Netherlands English Anglicans Jews in Germany Italy and the Netherlands and Muslim converts returning to Christian England This volume illuminates the variety of ways in which communities were defined and operated across early modern Europe as imposed by community leaders or negotiated across society as defined by belief behavior and memory as marked by rigid boundaries and conflict or by flexibility and change as shaped by art ritual charity or devotional practices and as characterized by the contending or overlapping boundaries of family religion and politics Taken together these chapters demonstrate the complex and changeable nature of community in an era more often characterized as a time of stark certainties and inflexibility As a result the volume contributes a vital resource to the ongoing efforts of scholars to understand the creation and perpetuation of communities and the significance of community definition for early modern Europeans

Medieval and Early Modern Ritual: Formalized Behavior in Europe, China and Japan Joelle Rollo-Koster, 2021-10-01 The essays in this volume transcend Eastern and Western geographical boundaries during a loosely defined medieval and early modern period ranging from Carolingian Europe to Qing China and pull rituals out of their geographical contexts Cultural history binds these essays together This volume permits readers to compare ritual in religious and secular contexts in the East and West and to focus on the purposes of ritual without being caught up in localism or historical jingoism The various essays are organized chronologically and thematically they focus on ritual and gender law identity and political legitimization They cover topics as varied as the spatial appropriation of surfaces and territories charity carnival women s magic the Jesuits graffiti theater business medicine Qing imperial ceremonies Chinese princesses coming of age spiritual reconciliation and the Great Western Schism Contributors include Catherine Bell Virginia A Cole Andr e Courtemanche James L Hevia Michael W Maher S J V ronique Plesch Marguerite Ragnow Martha Rampton Eric C Rath Dylan Reid Kathryn Reyerson Jo lle Rollo Koster and Ann Waltner

Drama in Medieval and Early Modern Europe Nadia Thérèse van Pelt, 2019-03-28 Drama in Medieval and Early Modern Europe moves away from the customary conceptual framework that artificially separates medieval from early modern drama to explore the role of drama and spectacle in England France the Low Countries Spain Italy Switzerland and the German speaking areas that now constitute Austria and Germany This book investigates the ranges of dramatic and performative techniques and strategies that playwrights across Europe used to adapt their work to the changing contexts in which they performed and to the changing or expanding audiences that they faced It considers the different views expressed through

drama and spectacle on shared historical events how communities coped with similar issues and why they ritually recycled these themes through reinvented or alternative forms that replaced or existed alongside their predecessors A wide variety of genres of play are discussed throughout including visitatio sepulchri visit to the tomb plays Easter and Passion plays and morality plays the French civic mystère Italian sacre rappresentazioni performed by choirboys in the context of the church Burgertheater from the Swiss Confederacy drama performed for the purpose of royal entertainment and propaganda May and summer games and the commercial professional theatre of Shakespeare and Lope de Vega Examining the strength of drama in relation to the larger cultural forces to which it adapted and demonstrating the use of social political economic and artistic networks to educate and support the social structures of communities Drama in Medieval and Early Modern Europe offers a broader understanding of a shared European past across the traditional chronological divide of 1500 It is ideal for students of social history and the history of medieval and early modern drama or literature

The Reformation of Ritual Susan Karant-Nunn, 2005-08-19 Susan Karant Nunn applies the insights of anthropologists to ritual change in the German Reformation finding that Church and state cooperated in using ritual as an instrument for imposing social discipline
