Rosenborg The Royal Danish Collection:

Rosenborg De Danske Kongers Kronologiske Samling (Kopenhagen),1986

Rosenborg Mogens Bencard,1996

Landscape and Earth in Early Modernity Christine Göttler,Mia Mochizuki,2025-10-01 Early modern views of nature and the earth upended the depiction of land Landscape emerged as a site of artistic exploration at a time when environments and ecologies were reshaped and transformed This volume historicizes the contingency of an ever changing elemental world reframing and reimagining landscape as a mediating space in the interplay between the natural and the artificial the real and the imaginary the internal and the external The lens of the unruly reveals the latent landscapes that undergirded their conception the elemental resources that resurfaced from the bowels of the earth the staged topographies that unsettled the boundaries between nature and technology and the fragile ecologies that undermined the status quo of human environs Landscape and Earth in Early Modernity Picturing Unruly Nature argues for an art history attentive to the vicissitudes of circumstance and attributes the regrounding of representation during a transitional age to the unquiet landscape The Treasure Collection at Rosenborg Castle: Catalogue, pt. 1 Jørgen Hein,2009 **The Treasure Collection at Rosenborg Castle** Jørgen Hein,2009 Sign 100 466 Rosenborg Palace Jørgen Hein,1993 **The Treasure Collection at Rosenborg Castle: Catalogue, pt. 2** Jørgen Hein,2009 *Anna of Denmark* Jemma Field,2020-06-11 Approaching the Stuart courts through the lens of the queen consort Anna of Denmark this study is underpinned by three key themes translating cultures female agency and the role of kinship networks and genealogical identity for early modern royal women Illustrated with a fascinating array of objects and artworks the book follows a trajectory that begins with Anna s exterior spaces before moving to the interior furnishings of her palaces the material adornment of the royal body an examination of Anna s visual persona and a discussion of Anna s performance of extraordinary rituals that follow her life cycle Underpinned by a wealth of new archival research the book provides a richer understanding of the breadth of Anna s interests and the meanings generated by her actions associations and possessions **The Deformation** Susanna Berger,2025-07-29 A fascinating account of the use and meaning of visual and spatial distortions in seventeenth century art and architecture During the Catholic Reformation patrons artists architects and viewers especially in Rome were strongly drawn to visual and spatial distortions or deformations works of art and architecture that were designed to be visually incomprehensible at least initially From Borromini s San Carlo alle Quattro Fontane in Rome to the attention grabbing prospettiva in the city s Palazzo Spada and the anamorphoses that define the corridors and walls of Minim and Jesuit buildings The Deformation explores what this intriguing phenomenon reveals about contemporary religious belief optics and the natural sciences as well as wider questions about attention and discernment Failing to conform to an established ideal deformations required a reformation to achieve that ideal Anamorphic deformations for example could only be reformed into clarity when viewed from a particular angle or through a special mirror Susanna Berger examines how deformations were experienced by beholders and how they

were embraced or opposed by critics The book shows how deformations and related works whether altar tabernacles ephemeral religious architecture churches monumental sundials colonnades with accelerated perspective illusionistic frescoes turned ivories or painted anamorphoses focused observers attention on theological mysteries and the social power and sophistication of patrons The book s rich illustrations include two gatefolds and some anamorphic images that can be seen without distortion by using an included reflective insert as a mirror Looking at writings as well as visual works in multiple artistic media not typically considered in relation to each other The Deformation offers a new interpretation of deformation that highlights the delay between perception and discernment **Fragile Diplomacy** Maureen

Cassidy-Geiger,2007-01-01 While imported Chinese porcelain had become a valuable commodity in Europe in the seventeenth century local attempts to produce porcelain long remained unsuccessful At last the secret of hard paste porcelain was uncovered and in 1710 the first European porcelain was manufactured in Saxony Meissen porcelain still manufactured today soon ranked in value with silver and gold This thorough and lavishly illustrated volume explores the early years of Meissen porcelain and how the princes of Saxony came to use highly prized porcelain pieces as diplomatic gifts for presentation to foreign courts An eminent team of international contributors examines the trade of Meissen with other nations from England to Russia They also investigate the cultural ambience of the Dresden Court varying tastes of the markets the wide range of porcelain objects and their designers and makers Individual chapters are devoted to gifts to Denmark other German courts the Holy Roman Empire Italy France and other nations For every Meissen collector or enthusiast this book will be not only a treasured handbook but also a source of visual delight **Frommer's? Denmark**

Darwin Porter,Danforth Prince,2009-08-13 Experience a place the way the locals do Enjoy the best it has to offer And avoid tourist traps At Frommer s we use 150 outspoken travel experts around the world to help you make the right choices Frommer s Your guide to a world of travel experience Choose the Only Guide That Gives You Outspoken opinions on what s worth your time and what s not Exact prices so you can plan the perfect trip no matter what your budget Off the beaten path experiences and undiscovered gems plus new takes on top attractions The best hotels and restaurants in every price range with candid reviews Global Objects Edward S. Cooke, Jr.,2022-10-04 A bold reorientation of art history that bridges the

divide between fine art and material culture through an examination of objects and their uses Art history is often viewed through cultural or national lenses that define some works as fine art while relegating others to the category of craft Global Objects points the way to an interconnected history of art examining a broad array of functional aesthetic objects that transcend geographic and temporal boundaries and challenging preconceived ideas about what is and is not art Avoiding traditional binaries such as East versus West and fine art versus decorative art Edward Cooke looks at the production consumption and circulation of objects made from clay fiber wood and nonferrous base metals Carefully considering the materials and process of making and connecting process to product and people he demonstrates how objects act on those

who look at use and acquire them He reveals how objects retain aspects of their local fabrication while absorbing additional meanings in subtle and unexpected ways as they move through space and time In emphasizing multiple centers of art production amid constantly changing contexts Cooke moves beyond regional histories driven by geography nation state time period or medium Beautifully illustrated *Global Objects* traces the social lives of objects from creation to purchase and from use to experienced meaning charting exciting new directions in art history

The Art and Culture of Scandinavian Central Europe, 1550-1720 Kristoffer Neville, 2019-12-10 Politically and militarily powerful early modern Scandinavia played an essential role in the development of Central European culture from the sixteenth to the eighteenth century In this volume Kristoffer Neville shows how the cultural ambitions of Denmark and Sweden were inextricably bound to those of other Central European kingdoms Tracing the visual culture of the Danish and Swedish courts from the Reformation to their eventual decline in the eighteenth century Neville explains how and why they developed into important artistic centers He examines major projects by figures largely unknown outside of Northern Europe alongside other more canonical artists including Cornelis Floris Adriaen de Vries and Johann Bernhard Fischer von Erlach to propose a more coherent view of this part of Europe one that rightly includes Scandinavia as a vital component The seventeenth century has long seemed a bleak moment in Central European culture Neville's authoritative and unprecedented study does much to change this perception showing that the arts did not die in the Reformation and Thirty Years War but rather flourished in the Baltic region

The Rough Guide to Copenhagen Lone Mouritsen, Caroline Osborne, 2004 This guide to Copenhagen captures all the city's highlights from alternative Christiania to the Museum of Modern Art at Louisiana in a 16 page introduction There are informative and revealing accounts of all the attractions both well known sights and lesser known local gems The top restaurants bars hotels guesthouses and pastry shops are uncovered by reviews and full contact details are provided There are also accounts of several possible day trips including the castle at Helsingør and Hans Christian Andersen's home town of Odense

The Structural Conservation of Panel Paintings Kathleen Dardes, Andrea Rothe, 1998-10-29 This volume presents the proceedings of an international symposium organized by the Getty Conservation Institute and the J Paul Getty Museum The first conference of its kind in twenty years the symposium assembled an international group of conservators of painted panels and gave them the opportunity to discuss their philosophies and share their work methods Illustrated in color throughout this volume presents thirty one papers grouped into four topic areas Wood Science and Technology History of Panel Manufacturing Techniques History of the Structural Conservation of Panel Paintings and Current Approaches to the Structural Conservation of Panel Paintings

Early Professional Women in Northern Europe, c. 1650-1850 Johanna Ilmakunnas, Marjatta Rahikainen, Kirsi Vainio-Korhonen, 2017-07-06 This book focuses on early examples of women who may be said to have anticipated in one way or another modern professional and or career oriented women The contributors to the book discuss women who may at least in some respect be seen as professionally ambitious unlike the great majority of

working women in the past In order to improve their positions or to find better business opportunities the women discussed in this book invested in developing their qualifications and professional skills took economic or other kinds of risks or moved to other countries Socially they range from elite women to women of middle class and lower middle class origin In terms of theory the book brings fresh insights into issues that have been long discussed in the field of women's history and are also debated today However despite its focus on women the book is conceptually not so much focused on gender as it is on profession business career qualifications skills and work By applying such concepts to analyzing women's endeavours the book aims at challenging the conventional ideas about them

Sculpture Collections in Europe and the United States 1500-1930 ,2021-04-26 Exploring the variety of forms taken by collections of sculpture this volume presents new research by twelve internationally recognized scholars The essays delve into the motivations of different collectors the modes of display and the aesthetics of viewing sculpture bringing to light much new archival material The book underscores the ambiguous nature of sculpture collections variously understood as decorative components of interiors or gardens as objects of desire in cabinets of curiosity or as autonomous works of art in private and public collections

Emphasizing the collections and the ways in which these were viewed and described this book addresses a significant but neglected aspect of art collecting and contributes to the literature on this branch of art and cultural history This book evolved from a symposium *Sculpture Collecting and Display 1600-2000* organized by the Center for the History of Collecting that was held at The Frick Collection on May 19 and 20 2017 Both the book and the symposium were made possible through the generous support of the Robert H Smith Family Foundation The book is published in association with The Frick Collection

The Rise and Fall of the Danish Empire Michael Bregnsbo,Kurt Villads Jensen,2022-06-07 This book examines the Danish Empire which for over four hundred years stretched from Northern Norway to Hamburg and was feared by small German principalities to the South Evolving over time it has included most of Scandinavia and the North Atlantic has shifted from a Western orientation under the Vikings to an Eastern one in the Middle Ages and from a North Sea Empire to a Baltic Empire From the seventeenth to the early twentieth century it comprised small overseas colonies in India Africa

and the Caribbean Exploring the rise and fall of Denmark's Kingdom from 9 AD to the present this textbook considers how such vast empires were kept together through ideology and symbols military force transport systems and networks of civil servants The authors demonstrate how the lands under Danish rule included a variety of religious groups social and economic structures law systems and ethnic and linguistic groups They also consider the economic and ideological benefit of an empire structure in comparison to a nation state Providing a detailed overview of the long history of the Danish Empire whilst also confronting current debate and providing novel interpretations this book offers an original imperial and multi territorial perspective on the history of the Danish state providing essential reading for students of Danish or Scandinavian history and European or Global empires

Art of the Royal Court Wolfram Koeppe, Anna Maria Giusti, Cristina Acidini Luchinat, Metropolitan Museum of Art (New York, N.Y.), 2008 In the royal and princely courts of Europe artworks made of multicolored semiprecious stones were passionately coveted objects Known as *pietre dure* or hardstones this type of artistic expression includes paintings in stone which were composed of intricately cut separate pieces that were made into magnificent tabletops cabinets and wall decorations Other works included vessels and ornaments carved with virtuosic skill from a single piece of rare and brilliant lapis lazuli chalcedony jasper or similarly prized substance exquisite objects such as boxes clocks and jewelry and portraits of nobles sculpted in variously colored stones Derived from ancient Roman decorative stonework the art of *pietre dure* was developed in Renaissance Florence where the manufacture of such objects was enthusiastically sponsored by Medici princes Ideally suited for ostentatious display the works sent an unmistakable message of wealth and political might that was understood in centers of power everywhere From Italy the medium spread across Europe to Prague Madrid Naples Paris and later Saint Petersburg Precious and fragile *pietre dure* objects are rarely brought together in large numbers This richly illustrated catalogue contains more than 150 masterworks from across Europe dating from five centuries including almost every artistic use of semiprecious stone during this time as well as some of the finest examples of the medium Eight essays by European and American experts discuss the individualized development of *pietre dure* in every European region the latest developments in scholarship the interrelationships between art and dynastic politics and between cultures and a variety of techniques used to produce these luxurious masterworks Metropolitan Museum of Art website
