Ultimate Sacrifice Lamar Waldron, Thom Hartmann, 2013-08-22 Drawing on seventeen years of research thousands of recently declassified files and dozens of interviews *Ultimate Sacrifice* re creates and in many ways rewrites the crucial period of our history leading up to November 22 1963 In the process this groundbreaking account provides the missing pieces to the greatest tragic puzzle of post war America the true circumstances behind the assassination of President John F Kennedy *Ultimate Sacrifice* details a previously unknown Plan for a Coup in Cuba authorized by President John Kennedy run by Attorney General Robert Kennedy and set for December 1 1963 The Kennedy plan unique and different from any previously disclosed operation was as detailed in a Joint Chiefs of Staff memo to have included a palace coup a provisional Cuban government and if necessary a full scale invasion by invited US military forces The CIA s code name for their part of the operation AMWORLD has never previously surfaced in any government

investigation nor in any book or article making it one of the most covert operations in United States history Ultimate Sacrifice will detail how the Kennedy plan was penetrated by three mafia godfathers Carlos Marcello Santo Trafficante and Johnny Roselli being vigorously pursued by Attorney General Robert Kennedy along with a dozen of their associates six of whom were also working on the Coup plan The crime bosses then used parts of the Coup Plan AMWORLD to arrange JFK's assassination in a way that would prevent a truly thorough government investigation in order to protect the Coup Plan its participants and national security By using the secrecy surrounding the Plan the mob bosses would target JFK not only in Dallas but in two earlier attempts one in Chicago on November 1 and then one in Tampa on November 18 which Ultimate Sacrifice reveals for the first time in any book Ultimate Sacrifice has finally pieced together the whole story by building on the work of the seven governmental committees that have investigated aspects of the assassination on the work of former government investigators and on the four million documents that were declassified in the 1990s in addition to exclusive interviews with dozens of witnesses and participants including Secretary of State Dean Rusk Press Secretary Pierre Salinger and the Kennedys' closest Cuban exile aide Harry Ruiz Williams Making All the Difference Martha Minow, 2016-10-01

Should a court order medical treatment for a severely disabled newborn in the face of the parents' refusal to authorize it How does the law apply to a neighborhood that objects to a group home for developmentally disabled people Does equality mean treating everyone the same even if such treatment affects some people adversely Does a state requirement of employee maternity leave serve or violate the commitment to gender equality Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and disability Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Exploring the historical sources of ideas about difference she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference Minow is passionately interested in the people different people whose lives are regularly misshaped and misdirected by the legal system's ways of handling them Drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it Education for handicapped children conflicts between job and family responsibilities bilingual education Native American land claims these are among the concrete problems she discusses from a fresh angle of vision Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine a self seen as either separate and autonomous or else disabled and incompetent in some way In contrast she regards the self as being realized through connection capable of shaping an identity only in relationship to other people She shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis

that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection The meanings of many differences can change when people locate and revise their relationships to difference she asserts The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access Her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different Here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law By illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference
