Round Dance And Other Plays:

Round Dance and Other Plays Arthur Schnitzler, 2004-07-08 This is a unique collection of seven of Schnitzler's best known plays in a new English translation. They explore love, sexuality and death in various guises against the backdrop of turn of the century Viennese decadence. The introduction explores the plays in relation to Schnitzler's life, to the culture of late twentieth century Vienna and to Modernism in general. *Flirtations*, *Round Dance*, *The Green Cockatoo*, *The Last Masks*, *Countess Mizzi*, *The Vast Domain*, *Professor Bernhardt*. The playwright Arthur Schnitzler is best known as the chronicler of fin de siècle Viennese decadence. *Round Dance*, written in the late 1890s, exposes sexual life in Vienna with such witty frankness that it could not be staged until after the First World War when it provoked a riot in the theatre and a prosecution for indecency. The other plays in this collection explore love, sexuality and death in various guises, always with a sharp non-judgemental awareness of the complexity and mystery of the psyche. Acquainted with Freud and his circle, Schnitzler probes beneath the surface of his characters to uncover emotions they barely understand. And in the tragicomedy *Professor Bernhardt*, Schnitzler addresses the growing anti-Semitism of the period. Davies's translation once again brings us closer to a masterpiece of modern drama written before the twentieth century had even begun. Leo A. Lensing, TLS

Adaptations, Versions and Perversions in Modern British Drama Ignacio Ramos Gay, 2014-10-02 This book aims to explore which plays were deemed suitable to be reworked for foreign or local stages, what

transformations linguistic semiotic theatrical were undertaken so as to accommodate international audiences how national literary traditions are forged altered and diluted by means of transnational adapting techniques and finally to what extent the categorical boundaries between original plays and adaptations may be blurred on the account of such adjusting textual strategies It brings together ten articles that scrutinise the linguistic social political and theatrical complexities inherent in the intercultural transference of plays The approaches presented by the different contributors investigate modern British theatre as an instance of diachronic and synchronic transnational adaptations based upon a myriad of influences originating in and projected upon other national dramatic traditions These traditions rooted in relatively distant geographies and epochs are traced so as to illustrate the split between the state imposed identity and personal subjective identity caused by cultural negotiations of the self in an age of globalism International frontiers are thus pointed at in order to claim the need to be transcended in the process of cultural re appropriation associated with theatre performance for international audiences
