Kirsten Drotner, Sonia Livingstone, 2008-02-19 This essential volume brings together the work of internationally renowned researchers each experts in their field in order to capture the diversity of children and young people s media cultures around the world Why are the media such a crucial part of children s daily lives Are they becoming more important more influential and in what ways Or does a historical perspective reveal how past media have long framed children s cultural horizons or perhaps how families however constituted have long shaped the ways children relate to media In addressing such questions the contributors present detailed empirical cases to uncover how children weave together diverse forms and technologies to

create a rich symbolic tapestry which in turn shapes their social relationships At the same time many concerns even public panics arise regarding children s engagement with media leading the contributors also to inquire into the risky or problematic aspects of today s highly mediated world Deliberately selected to represent as many parts of the globe as possible and with a commitment to recognizing both the similarities and differences in children and young people s lives from China to Denmark from Canada to India from Japan to Iceland from the authors offer a rich contextualization of children s engagement with their particular media and communication environment while also pursuing cross cutting themes in terms of comparative and global trends Each chapter provides a clear orientation for new readers to the main debates and core issues addressed combined with a depth of analysis and argumentation to stimulate the thinking of advanced students and established scholars Since children and young people are a focus of study across different disciplines the volume is thoroughly multi disciplinary Yet since children and young people are all too easily neglected by these same disciplines this volume hopes to accord their interests and concerns they surely merit **Sisterhood, Interrupted** Deborah Siegel,2007-05-15

Call Your "Mutha" Jane Caputi, 2020-06-24 The ecocide and domination of nature that is the Anthropocene does not represent the actions of all humans but that of Man the Western and masculine identified corporate military intellectual and political class that long has masked itself as the civilized and the human In this book Jane Caputi looks at two major myths of the Earth one ancient and one contemporary and uses them to devise a manifesto for the survival of nature which includes human beings in our current ecological crisis These are the myths of Mother Earth and the Anthropocene The former personifies nature as a figure with the power to give life or death and one who shares a communal destiny with all other living things The latter myth sees humans as exceptional for exerting an implicitly sexual domination of Mother Earth through technological achievement from the plow to synthetic biology and artificial intelligence Much that we take for granted as inferior or taboo is based in a splitting apart of inherent unities culture nature up down male female spirit matter mind body life death sacred profane reason madness human beast light dark The first is valued and the second reviled This provides the framework for any number of related injustices sexual racial and ecological This book resists this pattern in part by deliberately putting the dirty back into the mind the obscene back into the sacred and vice versa Ecofeminism and Environmental Justice argue for the significance and reality of the Earth Mother Caputi engages specifically with the powers of that Mother ones made taboo and even obscene throughout heteropatriarchal traditions Jane Caputi rejects misogynist and colonialist stereotypes and examines the potency of the Earth Mother in order

to deepen awareness of how our relationship to the Earth went astray and what might be done to address this Drawing upon Indigenous and African American ecofeminism ecowomanism green activism femme queer and gender non binary philosophies literature and arts Afrofuturism and popular culture images Call Your Mutha contends that the Anthropocene is not evidence so much of Man s supremacy but instead a sign that Mother Nature Earth faced with disrespect is turning away withdrawing the support systems necessary for life and continuance Caputi looks at contemporary narratives and artwork to consider the ways in which respect for the autonomous and potent Earth Mother and a call for their return has already reasserted itself into our political and popular culture
