[The Secret Life of the Georgian Garden](#) Kate Felus, 2016-12-09 Georgian landscape gardens are among the most visited and enjoyed of the UK's historical treasures The Georgian garden has also been hailed as the greatest British contribution to European Art seen as a beautiful composition created from grass trees and water a landscape for contemplation But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous Beautifully illustrated in colour and black white this book is about the daily life of the Georgian garden It reveals its previously untold secrets from early morning rides through to evening amorous liaisons It explains how by the eighteenth century there was a desire to escape the busy country house where privacy was at a premium and how these gardens evolved aesthetically with modestly sized far flung temples and other eye catchers to cater for escape and solitude as well as food drink music and fireworks Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown arguably Britain's greatest ever landscape gardener and the book is uniquely positioned to put Brown's work into its social context

[The British Are Coming](#) Rick Atkinson, 2019-05-14 Winner of the George Washington Prize Winner of the Barbara and David Zalaznick Book Prize in American History Winner of the Excellence in American History Book Award Winner of the Fraunces Tavern Museum Book Award From the bestselling author of the Liberation Trilogy comes the extraordinary first volume of his new trilogy

Gardens of Court and Country David Jacques, 2017-01-01 *Gardens of Court and Country* provides the first comprehensive overview of the development of the English formal garden from 1630 to 1730 Often overshadowed by the English landscape garden that became fashionable later in the 18th century English formal gardens of the 17th century displayed important design innovations that reflected a broad rethinking of how gardens functioned within society With insights into how the Protestant nobility planned and used their formal gardens the domestication of the lawn and the transformation of gardens into large rustic parks David Jacques explores the ways forecourts flower gardens bowling greens cascades and more were created and reimagined over time This handsome volume includes 300 illustrations including plans engravings and paintings that bring lost and forgotten gardens back to life *Fourteenth Century England IV* J. S. Hamilton, 2000 This series provides a forum for the most recent research into the political social and ecclesiastical history of the 14th century

Baroque Garden Cultures Michel Conan, 2005 *Baroque Garden Cultures* proposes a new approach to the study of baroque gardens examining the social reception of gardens as a means to understand garden culture in general and exploring baroque gardens as a feature of baroque cultures in particular

Hanover and England Marcus Köhler, Joachim Wolschke-Bulmahn, 2018-07-31 When George I Elector of Hanover was crowned King of England in 1714 he established a dynastic union between the two countries that endured until 1837 leaving many cultural and political accomplishments to posterity The 300th anniversary of this union led the Institute of Landscape Architecture Technische Universität Dresden and the Centre of Garden and Landscape Architecture CGL Leibniz Universität Hannover to take a critical look at the gardens that resulted The symposium *Hanover and England* a union of state and garden German and British garden culture between 1714 and today was sponsored by the Lower Saxonian Ministry of Science and Culture The resulting papers dealt with far more than garden

history addressing as well the background and channels by which ideas on art agriculture commerce technology literature and politics were exchanged Given the encyclopedic interests of late 18th century thinkers it was necessary to invite several academic disciplines to participate in order to describe and discuss the cultural transfer between Great Britain and Hanover The transfer of horticultural and artistic ideas very often flourished in the 19th century at different places For this reason the conference focused on two key aspects the Hanoverian British exchange between 1714 and 1837 the period of the actual royal union and the Anglo German relations that endure to the present day Als Georg I Kurfürst von Hannover 1714 zum König von England gekrönt wurde begründete dies eine Personalunion zwischen den beiden Ländern die bis 1837 bestand und der Nachwelt eine Vielzahl kultureller und politischer Errungenschaften hinterließ Das 300 jährige Jubiläum dieses Zusammenschlusses nahmen das Institut für Landschaftsarchitektur der Technischen Universität Dresden und das Zentrum für Gartenkunst und Landschaftsarchitektur CGL der Leibniz Universität Hannover zum Anlass sich kritisch mit den in dieser Zeit entstandenen Grenzen auseinanderzusetzen Das Symposium Hanover and England a union of state and garden German and British garden culture between 1714 and today wurde vom Niedersächsischen Ministerium für Wissenschaft und Kultur gefördert Die Beiträge beschäftigten sich nicht nur mit Gartengeschichte sondern widmeten sich auch dem Austausch von Ideen zu Kunst Landwirtschaft Handel Technologie Literatur und Politik So schien es sinnvoll unterschiedliche akademische Disziplinen zur Teilnahme einzuladen um den kulturellen Transfer zwischen Großbritannien und Hannover zu untersuchen und zu diskutieren Die Konferenz konzentrierte sich auf zwei Schlüsselaspekte den hannoverisch britischen Austausch zwischen 1714 und 1837 die Zeit der Personalunion und die deutsch englischen Beziehungen die bis heute andauern

Washington at the Plow Bruce A. Ragsdale, 2021-10-12 George Washington spent most of his time farming often employing experimental methods Washington saw slave powered scientific agriculture as the key to the nation's prosperity Bruce Ragsdale argues that it was slave labor's inefficiency as much as its inhumanity that finally convinced Washington to emancipate the men and women bonded to him

A Companion to Chivalry Robert W. Jones, Peter R. Coss, 2019 A comprehensive study of every aspect of chivalry and chivalric culture Chivalry lay at the heart of elite society in the Middle Ages but it is a nebulous concept which defies an easy definition More than just a code of ethical behaviour it shaped literary tastes art and manners as well as social hierarchies political events and religious practices its impact is everywhere This work aims to provide an accessible and holistic survey of the subject Its chapters by leading experts in the field cover a wide range of areas the tournament arms and armour the chivalric society's organisation in peace and war its literature and its landscape They also consider the gendered nature of chivalry its propensity for violence and its post medieval decline and reinvention in the early modern and modern periods It will be invaluable to the student and the scholar of chivalry alike

Oliver Creighton David Green Robert W Jones Megan G Leitch Ralph Moffat Helen J Nicholson Clare Simmons David Simpkin Peter Sposato Louise J Wilkinson Matthew Woodcock *Lancelot Brown and the Capability Men* David Brown, Tom Williamson, 2016-08-15 Lancelot Capability Brown is often thought of as the innovative genius who single handedly pioneered a new naturalistic style of landscape design but he was in fact only one of many landscape designers in Georgian England Published to commemorate the three hundredth anniversary of Brown's birth this book casts important new light on his world renowned work his eventful life and the wider and robust world of landscape design in Georgian England David Brown and Tom Williamson argue that Brown was one of the most successful designers of his time working in a style that was otherwise widespread and that it was his skill with this style and not his having invented it that linked his name to it The authors look closely at Brown's design business and the products he offered clients showing that his design packages helped define the era's aesthetic They compare Brown's business to those of similar designers such as the Adam brothers Thomas Chippendale and Josiah Wedgwood and they contextualize Brown's work within the wider contexts of domestic planning and the rise of neoclassicism Beautifully illustrated throughout this book celebrates the work of a master designer who was both a product and harbinger of the modern world **Majolica Mania** Susan Weber, 2021-01-12 The first comprehensive study of the most important ceramic innovation of the 19th century Colorful wildly imaginative and technically innovative majolica was functional and aesthetic ceramic ware Its subject matter reflects a range of 19th century preoccupations from botany and zoology to popular humor and the macabre Majolica Mania examines the medium's considerable impact from wares used in domestic settings to monumental pieces at the World's Fairs Essays by international experts address the extensive output of the originators and manufacturers in England including Minton Wedgwood and George Jones and the migration of English craftsmen to the U S New research including information on important American makers in New York Baltimore and Philadelphia is also featured Fully illustrated the book is enlivened by new photography of pieces from major museums and private collections in the U S and Great Britain Shakespearean Objects in the Royal Collection, 1714-1939 Kirsten Tambling, 2025-09-22 The British royal collection includes nearly 2 000 objects with a connection to Shakespeare What stories do these objects tell of the relationship between the man often described as Britain's national poet and Britain's royal family Royal collecting of Shakespeare did not really begin until 1714 and has therefore broadly tracked the development and entrenchment of the Hanoverian and latterly the Saxe Coburg Gotha royal family Not entirely coincidentally this period also saw a general increase in public interest in objects associated with Shakespeare's life and biography often to the detriment of Shakespeare's works a development partially spearheaded by the Shakespeare Jubilee masterminded by the actor David Garrick at Stratford upon Avon in 1769 The histories of specific works of art in the royal collection from Thomas Gainsborough's painting of Mary Robinson to a collection of relic objects relating to Herne's Oak and Shakespeare's mulberry tree reveal how royal engagement with Shakespearean objects between 1714 and 1939 contributed to the

development of a new constitutional settlement between the monarchy and its subjects under George IV Queen Victoria and George V and Queen Mary During this period objects relating to Shakespeare increasingly regarded by the royal family as nostalgic souvenirs from a fantastical national past were useful tools in shoring up these ideas and in yoking the fortunes of the British monarchy to a new vision of shared national history

Envisioning Landscapes, Making Worlds Stephen Daniels, Dydia DeLyser, J. Nicholas Entrikin, Doug Richardson, 2012-03-15 There has been a remarkable resurgence in the past decade of intellectual interplay between geography and the humanities in both academic and public circles Terminology and concepts such as space place landscape mapping and geography are becoming pervasive as conceptual frameworks and core metaphors in recent publications by humanities scholars and well known writers Envisioning Landscapes Making Worlds examines the depth and complexity of human meaning invested in maps attached to landscapes and embedded in the spaces and places of modern life The clashing and blending of cultures caused by globalization and the new technologies that profoundly alter human environmental experience suggest new geographical narratives and representations that are explored here by a multidisciplinary group of authors With contributions from leading scholars this text is essential reading for scholars and students seeking to understand the new synergies and interconnectedness of geography and the humanities

Country Life, 1999 **King Edward VIII** Ted Powell, 2018-08-23 Before he fell in love with Wallis Simpson Edward VIII had fallen in love with America As a young Prince of Wales Edward witnessed the birth of the American century at the end of the First World War and captivated by the energy confidence and raw power of the USA as it strode onto the world stage he paid a number of subsequent visits surfing in Hawaii dancing with an American shop girl in Panama and partying with the cream of New York society on Long Island Eventually of course he fell violently in love with Wallis a Southern belle and latter day Scarlett O'Hara Forceful irreverent and sassy she embodied everything that Edward admired about modern America But Edward's fascination with America was not unreciprocated America was equally fascinated by the Prince especially his love life and he became an international media celebrity through newsreels radio and the press Indeed even in the decades after his abdication in 1936 Edward remained a celebrity in the US and a regular guest of Presidents and the elite of American society

however fiercely debated Brown worked at hundreds of important sites across England and his name became synonymous with the English Garden style which was copied across Northern Europe and entranced Catherine the Great who remodelled her landscapes in St Petersburg to reflect the new style He was famed in his time and recognised by the Crown but Brown's style was readily copied over his later life and particularly after his death Arguably this ubiquity led to the denigration of his achievements and even his character particularly by the agents of the Picturesque The lack of any personal primary material from Brown forcing scholars to rely on his landscapes contracts and bank accounts has hindered attempts to provide a rounded and credible account of the man and his works However by exploring his team of associates and his role as Royal Gardener new light can be thrown on the man his landscapes and his landscape legacy Bringing together a number of perspectives from across Northern Europe Capability Brown Royal Gardener explores the lasting international impact of Brown With Brown's position as Royal Gardener at its heart this book explores for the first time his business methods working methods and European influence It assesses how crucially Brown's work practices placed him within the world of nurserymen and landscape designers and how his business practices and long term relationships with draughtsmen and designers allowed him to manage a huge number of projects and a substantial financial turnover This in turn allowed him to work in a way that promoted and advanced his style of landscape Edited by Professor Jonathan Finch University of York and Dr Jan Woudstra University of Sheffield and with a varied range of engaging contributors drawn internationally from archaeology art history history and landscape architecture Capability Brown Royal Gardener weaves together strands from across a broad range of disciplinary interests It makes an important contribution to the scholarly discussion of Brown's work the work of his collaborators and legacy in the UK and across Northern Europe Relevant to students and academics at all levels this volume throws new light on Capability Brown and his impact on the business of place making in Northern Europe
