Home without Walls Carol Crawford Holcomb, 2020-04-07 A critical examination of the Woman's Missionary Union and how it shaped the views of Southern Baptist women The Woman's Missionary Union WMU founded in 1888 carved out a uniquely feminine space within the Southern Baptist Convention during the tumultuous years of the Progressive Era when American theologians were formulating the social gospel These women represented the Southern Baptist elite and as such had the time to read write and discuss ideas with other Southern progressives They rubbed shoulders with more progressive Methodist and Presbyterian women in clubs and ecumenical missionary meetings Baptist women studied the missionary publications of these other denominations and adopted ideas for a Southern Baptist audience *Home without Walls* Southern Baptist Women and Social Reform in the Progressive Era shows how the social attitudes of women were shaped at the time By studying primary documents including personal letters official exchanges and memoranda magazine publications newsletters and editorials Carol Crawford Holcomb uncovers ample evidence that WMU leaders aware of the social gospel and sympathetic to social reform appropriated the tools of social work and social service to carry out their missionary work Southern Baptist women united to build a financial empire that would sustain the Southern Baptists through the Great Depression and beyond Their social attitudes represented a kaleidoscope of contrasting opinions By no stretch of the imagination could WMU leaders be characterized as liberal social gospel advocates However it would also be wrong to depict

them as uniformly hostile to progressivism or ignorant of contemporary theological ideas In the end they were practical feminists in their determination to provide a platform for women s views and a space for women to do meaningful work

Congress. House. Select Committee on Small Business, Accounts and Papers of the House of Commons Great Britain. Parliament. House of Commons, 1860 **British Royal and State Funerals** Matthias Range, 2016 The first in depth study of the ceremonial and music performed at British royal and state funerals over the past 400 years British royal and state funerals are among the most elaborate and solemn occasions in European history This book is the first in depth study of the ceremonial and the music performed at these events over the past 400 years from the funeral of Elizabeth I in 1603 Covering funerals of both royalty and non royalty including Nelson Wellington and Churchill this study goes up to the funerals of Queen Elizabeth The Queen Mother in 2002 and the ceremonial funeral of Baroness Thatcher in 2013 While some of these funerals have received a good deal of attention especially the 1997 funeral of Diana Princess of Wales these extraordinary events have largely not been discussed in their longer historical context The book examines the liturgical changes in the Anglican funeral rite since the Reformation and also the change from the so called public to private funerals It includes many new findings on the development of the ceremonial and its intricate peculiarities as well as new insights into the music and its performance British Royal and State Funerals shows that despite a strong emphasis on continuity in the choice of music the ceremonial itself has shown an astonishing flexibility over the last four centuries Overall the book also contributes to the debate on the monarchy s changing public image over time by paying particular attention to topics such as tradition and propaganda Drawing on substantial research in principal libraries and archives including those of Westminster Abbey the College of Arms Lambeth Palace and the British Library this book is an exhaustive resource for musicologists musicians and historians alike providing an unprecedented insight into this most sombre of royal and state occasions MATTHIAS RANGE is author of Music and Ceremonial at British Coronations 2012 He is a post doctoral researcher for the Digital Image Archive of Medieval Music and its partner AHRC

funded Tudor Partbooks project at the Faculty of Music University of Oxford *Edward VIII (Penguin Monarchs)* Piers Brendon, 2016-04-28 After my death George V said of his eldest son and heir the boy will ruin himself within twelve months The forecast proved uncannily accurate Edward VIII came to the throne in January 1936 provoked a constitutional crisis by his determination to marry the American divorcee Wallis Simpson and abdicated in December He was never crowned king In choosing the woman he loved over his royal birthright Edward shook the monarchy to its foundations Given the new title Duke of Windsor and essentially sent into exile he remained a visible skeleton in the royal cupboard until his death in 1972 and he haunts the house of Windsor to this day Drawing on unpublished material notably correspondence with his most loyal though much tried supporter Winston Churchill Piers Brendon's superb biography traces Edward's tumultuous public and private life from bright young prince to troubled sovereign from wartime colonial governor to sad but glittering expatriate With pace and panache it cuts through the myths that still surround this most controversial of modern British monarchs
