for whom many sections should be considered mandatory reading Aleksander Sulejewicz Journal of Contemporary European Research Over 800 pages on the economics of sport What a feast What a treat The editors have done a wonderful job both in terms of breadth from David Beckham to child labour in Pakistan and depth tournaments and luxury taxes for example The 86 chapters are uniformly of a very high standard and illuminating And there are real gems in some of the contributions British Journal on the Economics of Sport This very interesting and comprehensive book achieves its objective namely to present an overview of research in sports economics at an introductory level The editors have produced an excellent reference book that belongs in all academic institutions libraries It provides extensive introduction to the growing body of literature in the rising field of economics of sport The book s relevant monographs should be read by institutions cities and countries prior to their committing major resources towards sports facilities or a sporting event James Angresano Journal of Sports Economics One could think of this book as the sports and economics counterpart to Joy of Cooking because it will satisfy the needs of those with a keen interest in such subjects as the **The Royal and Ancient Golfer's Handbook,**
