Royal Conquests and Cultural Migrations in South India and the Deccan C. Sivaramamurti, 1955 a kara Parvati Endowment lectures for 1951-52 delivered at the University of Madras in December 1951 *Orthodoxy, Heterodoxy and Dissent in India* S. N. Eisenstadt, D. Shulman, R. Kahane, 2011-12-07 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **Samkara's Advaita Vedanta** Jacqueline G. Suthren Hirst, 2005-03-31 Examines Samkara's teaching method and asks how the words of the sacred texts can give knowledge of a reality beyond words Provides a detailed introduction to Samkara's method for Hindus and non Hindus alike Sets the current study in the context of a wide range of Indian North American European and Japanese scholarship First research monograph to explore in detail the interrelation between sacred text content and teaching method **Temple Imagery from Early Mediaeval Peninsular India** Archana Verma, 2017-07-05 Analyzing the ways in which ideas of heroic discourse and the socio religious and political needs of the period moulded iconography this book explores the evolution of the iconography of the early mediaeval Hindu temples of the Indian peninsula over the course of the sixth twelfth centuries C E In order to study the socio religious and political atmosphere in which the early mediaeval temple iconography grew and developed its specific forms the author makes use of the inscriptions archaeological and the literary materials ranging from the fourth centuries B C E to the thirteenth century C E as these give an idea of the continuities and discontinuities in the ideas of heroic and political discourses which lie at the back of the visual art forms that they created Of particular interest are the royal charters issued in Sanskrit and Tamil the religious narratives from the Sanskrit epics and the Puranas iconographic canons that form a part of the religious texts known as the Agamas written in Sanskrit the court literature of the early mediaeval period and the early historical Sangam Tamil literature apart from the archaeological material from the Indian peninsula The author focuses particularly on exploring the ideas of power current in the society that created the narrative iconography of the period and the region studied *Lives of Indian Images* Richard H. Davis, 2020-07-21 For many centuries Hindus have taken it for granted that the religious images they place in temples and home shrines for purposes of worship are alive Hindu priests bring them to life through a complex ritual establishment that invokes the god or goddess into material support Priests and devotees then maintain the enlivened image as a divine person through ongoing liturgical activity they must awaken it in the morning bathe it dress it feed it entertain it praise it and eventually put it to bed at night In this linked series

of case studies of Hindu religious objects Richard Davis argues that in some sense these believers are correct through ongoing interactions with humans religious objects are brought to life Davis draws largely on reader response literary theory and anthropological approaches to the study of objects in society in order to trace the biographies of Indian religious images over many centuries He shows that Hindu priests and worshipers are not the only ones to enliven images Bringing with them differing religious assumptions political agendas and economic motivations others may animate the very same objects as icons of sovereignty as polytheistic idols as devils as potentially lucrative commodities as objects of sculptural art or as symbols for a whole range of new meanings never foreseen by the images makers or original worshipers **Epic**

Narratives in the Hoysala Temples Kirsti Evans,1997 This contextual study of narrative reliefs depicting Hindu epics and puranas on specific South Indian Hoysala temples provides a detailed exposition of narrative episodes paired with photographs illustrating and reviewing the stories and exploring techniques of Indian visual narrative *Jaina Culture in Medieval Karnataka* Julia A.B. Hegewald,2025-04-21 Why did the Jainas in Karnataka plunge from a position of supremacy into one of severe dependency After a steep and steady rise throughout the region from about the fifth century CE Jaina influence waned dramatically from the late eleventh or early twelfth centuries onwards In this publication specialists in Indian history religious studies and anthropology as well as historians of art and architecture discuss various expressions of this sudden and detrimental decline and explore the reasons for it focusing in particular on the relations of the Jainas with Vraivas and Muslims The evidence provided by the five international scholars who offer insights from different disciplinary backgrounds indicates that the reasons for the Jainas loss of authority in the region were manifold Certain internal triggers such as changes in Jaina social structure and religious practices adversely affected their position over time In particular however the withdrawal of royal patronage the success of the Vraivas as traders and the emergence in the area at this time of a number of competing religious groups caused the Jainas to slip into a position of strong asymmetrical dependency

Library,1965 **Historical Dictionary of the Tamils** Vijaya Ramaswamy,2017-08-25 The Tamils have an unbroken

history of more than two thousand years Tamil the language they speak is one of the oldest living languages in the world The only people comparable to the Tamils in terms of their hoary past and vibrant present would be the Jews with one marked difference The Tamils have always had their homeland Tamilaham alternately pronounced and spelt Tamizhaham known today as Tamil Nadu which to them represents their mother and is revered by them as Tamizh Tai literally Tamil Mother This is in striking contrast to the Jews who have been through a long and arduous struggle to gain their homeland a deeply contested site to this day with Hebrewisation of Israel being a key marker of Jewish identity in the region Tamils by contrast have a clear numerical majority in the region that now comprises Tamil Nadu and the language unites rather than divides adherents of different faiths The second edition of Historical Dictionary of the Tamils contains a chronology an introduction and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Tamils

The Concept of Rudra-Siva Through the Ages Mahadev Chakravarti,1986-01-01 The present book throws new light on the gradual development of the concept of Rudra Siva in his animal phallic and human forms since the days of the Harappa Civilization It examines how Siva the composite Aryan non Aryan Divinity was not only admitted but was ultimately crowned with an exalted position in the Brahmanical pantheon how the bull once identified with the deity was regulated to the position of a vahana how phallism was related to Saivism and also how Siva in his different forms was represented in early Indian Art and the Art of Further India The wide range and depth of the author s research fills a vital gap in the subject and his treatment of the entire subject is unique This methodical study on Siva also contains an exhaustive bibliography *The*

Indian Historical Quarterly ,1985 Head and Heart Mary Storm,2015-08-12 An extensive study of self sacrificial images in Indian art this book examines concepts such as head offering human sacrifice blood suicide valour self immolation and self giving in the context of religion and politics to explore why these images were produced and how they became paradigms of heroism Tamil David Shulman,2016-09-26 Spoken by eighty million people Tamil is one of the great world languages and one of the few ancient languages that survives as a mother tongue David Shulman presents a comprehensive cultural history of Tamil emphasizing how its speakers and poets have understood the unique features of their language over its long history

A Comprehensive History of India ,2008 A Dictionary of Hinduism Margaret and James Stutley,2019-04-09 Hinduism is a term often used to summarize the aspirations of the majority of the Indian people But any simple definition of it is difficult if not impossible This is partly owing to the nuances of the Sanskrit language in which many texts are written and partly to the too literal interpretation of Hindu imagery and mythology that often veils its real significance This book first published in 1977 is an essential reference source that goes some way to clarifying the difficulties of understanding Hinduism
