Say that the River Turns Haki R. Madhubuti, 1987 Religious Allusion in the Poetry of Gwendolyn Brooks Margot Harper Banks, 2014-01-02 This book examines how Gwendolyn Brooks a self proclaimed nonreligious person advocates adherence to Christian ideals through religious allusions in her poetry The discussion integrates Brooks words biographical data commentary by other scholars scriptural references and doctrinal tenets It identifies biblical figures and events and highlights Brooks effective use of the sermon genre and her express parallels between Christianity and Democracy The work opens with a biographical chapter and Brooks comments on religion followed by analyses of her long poems and more than thirty of her short ones An illuminating interview with Nora Brooks Blakely about Brooks religious background and philosophy is included *Say that the River Turns* Haki R. Madhubuti, 1987 **A Life of Gwendolyn Brooks** George Kent, 2021-02-15 This is the first full scale biography of Gwendolyn Brooks one of America s major poets George E Kent a longtime friend and literary associate of the poet in Chicago was given exclusive access to Brooks early notebooks which she kept from the age of seven Kent also interviewed Brooks her mother and other family members in Chicago and elsewhere He scoured records and correspondence with her publishers editors and agent He participated in the poet s literary enterprises and in her wide circle of literary and family friends The study reveals intimate acquaintance with the Harlem Renaissance with the Chicago literary scene and its leading figures from the thirties on with historical developments in black culture and consciousness and with the significant figures and activities that impressed the poet s life and art It places Brooks work in the context of the civil rights movement the black arts movement and black nationalism Gwendolyn Brooks won the Pulitzer Prize for poetry in 1950 for *Annie Allen* and is today widely recognized as one of the nation s leading poets yet her work has received less than its due from mainstream critics Kent s authoritative book has been one step in correcting that neglect

On Gwendolyn Brooks Stephen Caldwell Wright, 2001 A reassessment of the art and achievements of the first black author to win the Pulitzer Prize *Gwendolyn Brooks* Harold Bloom, 2009 Provides insight into six of Brooks most influential works along with a short biography of the poet **The ^AWicked Sisters** Betsy Erkkila, 1992-12-10 This provocative study of the lives and works of Emily Dickinson Marianne Moore Elizabeth Bishop Adrienne Rich and Gwendolyn Brooks focuses on the historical struggles and differences among and within women writers and among feminists themselves Erkkila explores the troubled relations women writers experienced with both masculine and feminine literary cultures arguing that popular feminist views often romanticize and maternalize women writers and their interrelations in ways that effectively reinforce the very gender stereotypes and polarities which initially grounded women s oppression Studying the multiple race class ethnic cultural and other locations of women within a particular social field Erkkila offers a revisionary model of women s literary history that challenges recent feminist theory and practice along with many of our fundamental assumptions about the woman writer women s writing and women s literary history In contrast to the tendency of earlier feminists to heroize

literary foremothers and communities of women Erkkila focuses on the historical struggles and conflicts that make up the history of women poets Without discounting the historical power of sisterhood she seeks to reclaim women s literary history as a site of contention contingency and ongoing struggle rather than a separate space of untroubled and essentially cooperative accord among women Encompassing the various historical significations of wickedness as destructive powerful playful witty mischievous and not righteous *The Wicked Sisters* explores the power struggles and discord that mark both the history of women poets and the history of feminist criticism Dudley Randall, Broadside Press, and the Black Arts Movement in Detroit, 1960-1995 Julius E. Thompson, 2005-02-15 In 1965 Dudley F Randall founded the Broadside Press a company devoted to publishing distributing and promoting the works of black poets and writers In so doing he became a major player in the civil rights movement Hundreds of black writers were given an outlet for their work and for their calls for equality and black identity Though Broadside was established on a minimal budget Randall s unique skills made the press successful He was trained as a librarian and had spent decades studying and writing poetry most importantly Randall was totally committed to the advancement of black literature The famous and relatively unknown sought out Broadside including such writers as Gwendolyn Brooks Margaret Walker Mae Jackson Lance Jeffers Etheridge Knight Sonia Sanchez Nikki Giovanni Audre Lorde and Sterling D Plumpp His story is one of battling to promote black identity and equality through literature and thus lifting the cultural lives of all Americans **Heroism in the New Black Poetry** D.H. Melhem, 2021-12-14 D H Melhem s clear introductions and frank interviews provide insight into the contemporary social and political consciousness of six acclaimed poets Amiri Baraka Gwendolyn Brooks Jayne Cortez Haki R Madhubuti Dudley Randall and Sonia Sanchez Since the 1960s the poet hero has characterized a significant segment of Black American poetry The six poets interviewed here have participated in and shaped the vanguard of this movement Their poetry reflects the critical alternatives of African American life separatism and integration feminism and sexual identity religion and spirituality humanism and Marxism nationalism and internationalism They unite in their commitment to Black solidarity and advancement **Catching the Dream** Joyce W. Leo & Nathalie Roy, 2011-03-26 *Catching the Dream* is a collection of poems written by 14 poets from all over the world These poets all share a common trait they fell in love with Susan Boyle s voice and personality and were inspired enough to join a fan site for the first time ever for most of them where they discovered each other and enjoyed the pleasures of cyber creation and communication Long time lovers of words and word games they naturally expressed the joy and wonderment they felt through poetry Their common adventure started with playing a word tag game of having the Last Word As they shared thoughts and feelings experimenting different poetic styles they gained trust with each other and joined on the same journey ultimately taking the form of individual spiritual quests into the common humanity that unites us all Calling themselves the Golden Girls these poets reflect the uniqueness and preciousness of gold as well as its overtones of age ripeness and wisdom Each poet has a distinctive voice but together they

create a continuous chant their voices blending to sing a Hymn to Life The 211 poems were edited and arranged by Joyce W Leo and Nathalie Roy

Phelps, 2013 A disproportionate number of male writers including such figures as Amiri Baraka Larry Neal Maulana Karenga and Haki Madhubuti continue to be credited for constructing the iconic and ideological foundations for what would be perpetuated as the Black Art Movement Though there has arisen an increasing amount of scholarship that recognizes leading women artists activists and leaders of this period these new perspectives have yet to recognize adequately the ways women aspired to far more than a mere dismantling of male oriented ideals In Visionary Women Writers of Chicago's Black Arts Movement Carmen L Phelps examines the work of several women artists working in Chicago a key focal point for the energy and production of the movement Angela Jackson Johari Amiri and Carolyn Rodgers reflect in their writing specific cultural local and regional insights and demonstrate the capaciousness of Black Art rather than its constraints Expanding from these three writers Phelps analyzes the breadth of women's writing in BAM In doing so Phelps argues that these and other women attained advantageous and unique positions to represent the potential of the BAM aesthetic even if their experiences and artistic perspectives were informed by both social conventions and constraints In this book Phelps's examination brings forward a powerful and crucial contribution to the aesthetics and history of a movement that still inspires

The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater

number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential
