Corey Brettschneider,2012-07-22 How should a liberal democracy respond to hate groups and others that oppose the ideal of free and equal citizenship The democratic state faces the hard choice of either protecting the rights of hate groups and allowing their views to spread or banning their views and violating citizens rights to freedoms of expression association and religion Avoiding the familiar yet problematic responses to these issues political theorist Corey Brettschneider proposes a

new approach called value democracy The theory of value democracy argues that the state should protect the right to express illiberal beliefs but the state should also engage in democratic persuasion when it speaks through its various expressive capacities publicly criticizing and giving reasons to reject hate based or other discriminatory viewpoints Distinguishing between two kinds of state action expressive and coercive Brettschneider contends that public criticism of viewpoints advocating discrimination based on race gender or sexual orientation should be pursued through the state s expressive capacities as speaker educator and spender When the state uses its expressive capacities to promote the values of free and equal citizenship it engages in democratic persuasion By using democratic persuasion the state can both respect rights and counter hateful or discriminatory viewpoints Brettschneider extends this analysis from freedom of expression to the freedoms of religion and association and he shows that value democracy can uphold the protection of these freedoms while promoting equality for all citizens **What People Believe When They Say That People Believe** Todd

Rays from the Rose Cross ,1918 Ciulirnerunak Yuuyaqunak/Do Not Live Without an Elder Ann Fienup-Riordan,2016-10-15 In October of 2010 six men who were serving on the board of the Calista Elders Council CEC gathered in Anchorage with CEC staff to spend three days speaking about the subsistence way of life The men shared stories of their early years growing up on the land and harvesting through the seasons and the dangers they encountered there The gathering was striking for its regional breadth as elders came from the Bering Sea coast as well as the Yukon and Kuskokwim rivers And while their accounts had some commonalities they also served to demonstrate the wide range of different approaches to subsistence in different regions This book gathers the men s stories for the current generation and those to come Taken together they become more than simply oral histories rather they testify to the importance of transmitting memories and culture and of preserving knowledge of vanishing ways of life **Mother's Milk** Deena Aranoff,2025-09-02
