Teaching for Creativity in the Common Core Classroom Ronald A. Beghetto, James C. Kaufman, John Baer, 2015 Creativity and the Common Core State Standards are both important to today's teachers Yet for many educators nurturing students creativity seems to conflict with ensuring that they learn specific skills and content In this book the authors outline ways to adapt existing lessons and mandated curricula to encourage the development of student creativity alongside more traditional academic skills Based on cutting edge psychological research on creativity the text debunks common misconceptions about creativity and describes how learning environments can support both creativity and the Common Core offers creative lessons and insights for teaching English language arts and mathematics and includes assessments for creativity and Common Core learning Featuring numerous classroom examples this practical resource will empower teachers to think of the Common Core and creativity as encompassing complementary rather than mutually exclusive goals

Book Features Shows how teaching skills mandated by the CCSS and teaching for creativity can reinforce one another Helps teachers better understand what creativity is how to develop it and how to assess it in meaningful ways Examines the many misconceptions about creativity that prevent teachers from doing their best work Provides classroom examples ideas and lesson plans from successful teachers across disciplines This wonderful book makes the important point that teaching to well designed standards is completely consistent with teaching for creativity It is filled with practical advice for teachers about how to teach to Common Core standards in both ELA and math in ways that lead to creative learning outcomes

Keith Sawyer Morgan Distinguished Professor in Educational Innovations University of North Carolina at Chapel Hill Beghetto and Baer make a strong nuanced case that knowledge for the sake of knowledge may be acceptable for immediate retention but knowledge in the service of creating new possibilities has long term consequences that can't be ignored by educators and society

Scott Barry Kaufman scientific director The Imagination Institute and researcher Positive Psychology Center University of Pennsylvania
