Controlling Police Corruption Lawrence William Sherman, 1978 **Controlling Police Corruption** Lawrence William Sherman, 1976 Police Corruption Maurice Punch, 2013-01-11 Policing and corruption are inseparable This book argues that corruption is not one thing but covers many deviant and criminal practices in policing which also shift over time It rejects the bad apple metaphor and focuses on bad orchards meaning not individual but institutional failure For in policing the organisation work and culture foster can encourage corruption This raises issues as to why do police break the law and crucially who controls the controllers Corruption is defined in a broad multi faceted way It concerns abuse of authority and trust and it takes serious form in conspiracies to break the law and to evade exposure when cops can become criminals Attention is paid to typologies of corruption with grass eaters meat eaters noble cause the forms corruption takes in diverse environments the pathways officers take into corruption and their rationalisations and to collusion in corruption from within and without the organization Comparative analyses are made of corruption scandal and reform principally in the USA UK and the Netherlands The work examines issues of control accountability and the new institutions of oversight It provides a fresh accessible overview of this under researched topic for students academics police and criminal justice officials and members of oversight agencies **Corrupt Exchanges** Donatella della Porta, 2017-07-28 Political corruption has traditionally been presented as a phenomenon characteristic of developing countries authoritarian regimes or societies in which the value system favored tacit patrimony and clientelism Recently however the thesis of an inverse correlation between corruption and economic and political development and therefore democratic maturity has been frequently and convincingly challenged Countries with a long democratic tradition such as the United States Belgium Britain and Italy have all experienced a combination of headline grabbing scandals and smaller scale cases of misappropriation In **Corrupt Exchanges** primary research on Italian cases judicial proceedings in depth interviews parliamentary documents and press databases combined with a cross national comparison based on a secondary analysis of corruption in democratic systems is used to develop a model to analyze corruption as a network of illegal exchanges The authors explore in great detail the structure of that

network by examining both the characteristics of the actors who directly engage in the corruption and the resources they exchange. These processes of degeneration have caused a crisis in the dominant paradigm in both academic and political considerations of corruption. The book is organized around the analysis of the resources that are exchanged and of the different actors who take part: Politicians in business, illegal brokers, Mafia members, protected entrepreneurs, and party appointed bureaucrats exchange resources on the illegal market, altering the institutional system of interactions between the state and the market. In this complex web of exchanges, bonds of trust are established that allow the corrupt exchange to thrive. The book will serve both as a theoretical approach to a political problem of large bearing on democratic institutions and a descriptive warning of a system in peril.

Policing Citizens P.A.J. Waddington, 2002-11. This comparative text serves both as an introduction to contemporary police studies and an intervention into current debates concerning police reform and practice.

Policing and Political Regime Transformation Stiven Tremaria, 2024-10-10. This book offers a comprehensive study on the dynamics of policing under contexts of political regime transformation in the interplay between democratization and de democratization through a cross case comparative analysis among Venezuela, Bosnia and Herzegovina, and Ukraine. The central concern lies in working out the intertwining between politics and policing by examining the development trajectories of democratic police reforms under scenarios of democratic stagnation, backsliding, and autocratic consolidation. In particular, this book analyzes those changes experienced by the police as an institution, their powers, and the practices for policing society in the framework of the endeavors for politicization, militarization, and informalization of policing. This analysis is addressed from a macro level actor based approach which accounts for the decisive role of ruling political actors and senior police managers as critical players who influence the decisions and patterns of political regime transformation and policing. Therefore, this book offers a groundbreaking study of the interrelationship among contemporary processes of de democratization and police counter reform from an actor based perspective.
