Anderson, 2024-03-18 This book explores the Australian press reporting of the persecution and genocide of European Jews and the extent to which the news of the Holocaust was known and believed revealed and hidden and acknowledged and minimised Spanning the coverage of Hitler's political ascent in the 1920s through to the Nazis extermination campaign it culminates in the accounts of the trials of Nazi war criminals and the post war transnational migration to Australia of Holocaust survivors to a country far from universally welcoming in its reception of them The book also tells the story of the journalists who reported on these tragic events and the editors who published them along with the political social and cultural context in which they worked in an environment influenced by exclusionary ideas about race and nationality that did not necessarily inspire sympathy for Jews and their trauma This book sheds light on the ethics of reporting human suffering violence and genocide and centrally on the role of the press in shaping Australia's collective memory of the Holocaust It encourages readers to think critically about media power public apathy advocacy and the importance of truth Disturbing evidence of increasing antisemitism in Australia as elsewhere along with continuing Holocaust denial provide an additional urgency to this study **By the Book** Patrick Buckridge, Belinda McKay, 2007-09 Queensland a place of barren land and

Australian Books and Authors in the American Marketplace 1840s-1940s David Carter, Roger Osborne, 2018-07-02

Australian Books and Authors in the American Marketplace 1840s 1940s explores how Australian writers and their works were present in the United States before the mid twentieth century to a much greater degree than previously acknowledged Drawing on fresh archival research and combining the approaches of literary criticism print culture studies and book history David Carter and Roger Osborne demonstrate that Australian writing was transnational long before the contemporary period In mapping Australian literature s connections to British and US markets their research challenges established understandings of national imperial and world literatures Carter and Osborne examine how Australian authors editors and publishers engaged productively with their American counterparts and how American readers and reviewers responded to Australian works They consider the role played by British publishers and agents in taking Australian writing to America and how the international circulation of new literary genres created new opportunities for novelists to move between markets Some of these writers such as Christina Stead and Patrick White remain household names others who once enjoyed international fame such as Dale Collins and Alice Grant Rosman have been largely forgotten The story of their books in America reveals how culture commerce and copyright law interacted to create both opportunities and obstacles for Australian writers
