

Scandinavian Archaeology

Anders Andrén, Kristina Jennbert

Scandinavian Archaeology:

Ancient Scandinavia T. Douglas Price, 2015-06-12 Ancient Scandinavia provides a comprehensive overview of the archaeological history of Denmark Norway and Sweden

Scandinavian Archaeology Haakon Shetelig, Hjalmar Sejersted Falk, 1937

A History of Scandinavian Archaeology Ole Klindt-Jensen, 1975-01-01 *Dealing with the Dead* Tore Artelius, Fredrik Svanberg, 2005 The papers in this volume explore how prehistoric Scandinavian burial ritual and religion can be interpreted and understood within contemporary Swedish contract archaeology In different cases and from varying theoretical perspectives the authors demonstrate how the material culture in collective burial ritual was used to create and express everything from very functional and distinct religious results to individual local and regional cultural identity Emphasis is placed upon the interpretation of the actual dealings with the dead the graves the monuments and with burial grounds in the landscape Examples range from the Neolithic to the conversion to Christianity in the late Viking Age

A History of Archaeological Thought Bruce G. Trigger, 2006-09-18 Publisher description

Archaeological Theory in Europe Ian Hodder, 2014-10-30 The 1980s witnessed exciting developments in theoretical writing in Western archaeology Where previous decades were dominated by the Anglo American perspective or New Archaeology the recent years showed the European debate grow in confidence and vitality This book published in 1991 captures this spirit of debate as contributors from a wide cross section of countries evaluate the development of the distinctly national and European characteristics of archaeology and assess future directions Contributors consider an extensive range of ideologies and viewpoints stressing the fundamentally historical emphasis and social construction of European archaeology The development of archaeological theory is traced with specific emphasis on factors which differ from country to country Ultimately it argues that the most active response to archaeology is to celebrate theory within a constantly critical mode A great insight into the development of theory

The Scandinavian Early Modern World Jonas Monié Nordin, 2020-05-14 The Scandinavian Early Modern World explores the early modern colonialism globalization and modernity in Scandinavia along with its colonies and its role in the shaping of the modern world Scandinavians played an active role in early modern globalization and were present as traders as colonialists and as consumers in competition and collaboration with indigenous agents and other colonial actors in America Africa and India This story is rarely told The joint study of history historical landscape and material culture from a Scandinavian vantage point provides for a comprehensive and original interpretation of the birth of globalization and modernity New perspectives and data are presented deepening and challenging our knowledge of the long seventeenth century In depth analysis of case studies encompassing four continents and their material entanglement makes this book a unique contribution to historical archaeology The Scandinavian Early Modern World aims at students and scholars of anthropology archaeology and history alike taking interest in the global connections of the long seventeenth century and the role of Scandinavia in that process

Iron Age Myth and Materiality Lotte

Hedeager,2011-04-29 *Iron Age Myth and Materiality an Archaeology of Scandinavia AD 400 1000* considers the relationship between myth and materiality in Scandinavia from the beginning of the post Roman era and the European Migrations up until the coming of Christianity It pursues an interdisciplinary interpretation of text and material culture and examines how the documentation of an oral past relates to its material embodiment While the material evidence is from the Iron Age most Old Norse texts were written down in the thirteenth century or even later With a time lag of 300 to 900 years from the archaeological evidence the textual material has until recently been ruled out as a usable source for any study of the pagan past However Hedeager argues that this is true regarding any study of a society s short term history but it should not be the crucial requirement for defining the sources relevant for studying long term structures of the *longue dur e* or their potential contributions to a theoretical understanding of cultural changes and transformation In Iron Age Scandinavia we are dealing with persistent and slow changing structures of worldviews and ideologies over a wavelength of nearly a millennium Furthermore iconography can often date the arrival of new mythical themes anchoring written narratives in a much older archaeological context Old Norse myths are explored with particular attention to one of the central mythical narratives of the Old Norse canon the mythic cycle of Odin king of the Norse pantheon In addition contemporaneous historical sources from late Antiquity and the early European Middle Age the narratives of Jordanes Gregory of Tours and Paul the Deacon in particular will be explored No other study provides such a broad ranging and authoritative study of the relationship of myth to the archaeology of Scandinavia Architecture, Society, and Ritual in Viking Age Scandinavia Marianne Hem Eriksen,2019-02-28 In this book Marianne Hem Eriksen explores the social organization of Viking Age Scandinavia through a study of domestic architecture and in particular the doorway A highly charged architectural element the door is not merely a practical constructional solution Doors control access generate movement and demark boundaries yet also serve as potent ritual objects For this study Eriksen analyzes and interprets the archaeological data of house remains from Viking Age Norway which are here synthesized for the first time Using social approaches to architecture she demonstrates how the domestic space of the Viking household which could include masters and slaves wives and mistresses children and cattle was not neutral Quotidian and ritual interactions with through and orchestrated by doorways prove to be central to the production of a social world in the Viking Age Eriksen s book challenges the male dominated focus of research on the Vikings and expands research questions beyond topics of seaborne warriors trade and craft Microarchaeology Stephen Weiner,2010-02-15 The archaeological record is a combination of what is seen by eye as well as the microscopic record revealed with the help of instrumentation The information embedded in the microscopic record can significantly add to our understanding of past human behaviour provided this information has not been altered by the passage of time Microarchaeology seeks to understand the microscopic record in terms of the type of information embedded in this record the materials in which this information resides and the conditions under which a reliable signal can be extracted This book

highlights the concepts needed to extract information from the microscopic record Intended for all archaeologists and archaeological scientists it will be of particular interest to students who have some background in the natural sciences as well as archaeology *Medieval Scandinavia* Birgit Sawyer,1993 The study of Scandinavia has been and still is deeply influenced by the interpretation of its earliest history that was developed in the 19th century by political legal and literary historians archaeologists and anthropologists Scandinavia figured prominently in discussions of early medieval Europe not only as the homeland of the Vikings but also as the region in which Germanic society remained uncontaminated by Christianity and other influences longer than anywhere else In *Medieval Scandinavia* Birgit and Peter Sawyer question assumptions about early Scandinavian history including the supposed leading role of free and equal peasants and their position in founding churches They meticulously trace the development of Scandinavia from the early ninth century through the second and third decades of the 16th century when rulers of Scandinavia rejected the authority of the Papacy and the attempt to establish a united Scandinavian monarchy finally collapsed The authors include a discussion of medieval history writing and comment on the use of history in the 16th century and modern attitudes to medieval history which differ in various parts of Scandinavia They ultimately conclude that historic Scandinavia held greater similarities to other European regions than has been commonly supposed Birgit Sawyer is one of the founders of the biennial interdisciplinary conferences on women in medieval Scandinavia Peter Sawyer s previous books include *Kings and Vikings* and *The Age of the Vikings*

The Viking World Stefan Brink,Neil Price,2008-10-31 Filling a gap in the literature for an academically oriented volume on the Viking period this unique book is a one stop authoritative introduction to all the latest research in the field and the most comprehensive book of its kind ever attempted *Old Norse Religion in Long-Term Perspectives* Anders

Andrén,Kristina Jennbert,2006-01-12 Consisting of more than 70 papers written by scholars concerned with pre Christian Norse religion the articles discuss subjects such as archaeology art history historical archaeology history history of ideas theological history literature onomastics Scandinavian languages and Scandinavian studies The interdisciplinary aim of the book brings together text based and material based researchers to improve scholarly exchange and dialogue and provide a variety of contributions that elucidate topics such as worldview and cosmology ritual and religious practice myth and memory as well as reception and present day use of old Norse religion **Norse Mythology** John Lindow,2002-09-19 Provides information on the gods heroes rituals beliefs symbols and stories of Norse mythology

Ritual Landscapes and Borders within Rock Art Research Heidrun Steberggløkken,Ragnhild Berge,Eva Lindgaard,2015-10-31 Ritual landscapes and borders are recurring themes running through Professor Kalle Sognnes long research career This anthology contains 13 articles written by colleagues from his broad network in appreciation of his many contributions to the field of rock art research *An Introduction to Old Norse* Eric Valentine Gordon,1927 **The Hidden Lives of Viking Women** Michèle

Hayeur Smith,Alexandra Sanmark,2025-03-21 Analyzes the lives roles and experiences of Viking women highlighting their

societal contributions through interdisciplinary perspectives This edited volume brings together an international group of scholars to address the lives roles myths mythology and lived experiences of Viking women as well as the impacts of change on women during the turbulent period of the Viking Age Through interdisciplinary perspectives this is a book dedicated to the lesser known aspects of women s lives as active members of society It provides an innovative way of bringing together work from archaeological anthropological historical and literary perspectives to address questions about women in trade in war in magic in the household and activities that provided women with power and respect in their communities History of Scandinavia T. K. Derry,2000-04-07 Traces the history of Scandinavian countries emphasizing common features in their heritage

The Role of Anglo-Saxon Great Hall Complexes in Kingdom Formation, in Comparison and in Context AD 500-750 Adam McBride,2020-01-31 This book explores the role of great hall complexes in kingdom formation through an expansive and ambitious study incorporating new fieldwork new quantitative methodologies and new theoretical models for the emergence of high status settlements and the formation and consolidation of supra regional socio political units

Avaldsnes - A Sea-Kings' Manor in First-Millennium Western Scandinavia Dagfinn Skre,2017-12-04 The Royal manor Avaldsnes in southwest Norway holds a rich history testified by 13th century sagas and exceptional graves from the first millennium AD In 2011 12 the settlement was excavated In this first book from the project crucial results from an international team of 23 scholars are published The chapters cover a wide array of topics ranging from building remains and scientific analyses of finds to landownership and ritual manifestations

Scandinavian Archaeology: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Scandinavian Archaeology : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
