Flynn,2008-04-15 Sartre and Foucault were two of the most prominent and at times mutually antagonistic philosophical figures of the twentieth century And nowhere are the antithetical natures of their existentialist and poststructuralist philosophies more apparent than in their disparate approaches to historical understanding A history thought Foucault should be a kind of map a comparative charting of structural transformations and displacements But for Sartre authentic historical understanding demanded a much more personal and committed narrative a kind of interpretive diary of moral choices and risks compelled by critical necessity and an exacting reality Sartre s history a rational history of individual lives and their intrinsic social worlds was in essence immersed in biography In Volume One of this authoritative two volume work Thomas R Flynn conducts a pivotal and comprehensive reconstruction of Sartrean historical theory and provocatively anticipates the Foucauldian counterpoint to come in Volume Two A Bibliography of Historical Economics to 1980 Deirdre N. McCloskey,George K. Hersh, Jr,1990 Historians and economists will find here what their fields have in common the movement since the 1950s known variously as cliometrics economic history or historical economics A leading figure in the movement Donald McCloskey has compiled with the help of George Hersh and a panel of distinguished advisors a highly comprehensive bibliography of historical economics covering the period up until 1980 The book will be useful to all economic historians as well as quantitative historians applied economists historical demographers business historians national income accountants and social historians **Rethinking Labor History** Lenard R. Berlanstein,1993 The fundamentals guiding labor historians are under scrutiny today as never before The field has attempted to uncover the socioeconomic conditions that produced labor militancy and class consciousness with scholars focusing on proletarianization the loss of control over the production process as the key to class conflict Currently this entire approach is being questioned In *Rethinking Labor History* nine well known French labor historians join the debate Advocates of both revisionist Marxism and discourse analysis are represented and examples of empirical research emerging from the theoretical disputes are included *United States History* Donald R. Wentworth,Beth Kraig,Mark C. Schug,1996 Students in senior high school grades recognize connections and patterns between historical events and current events as they develop an understanding of the human experience *Sartre's Existential Psychoanalysis* Mary Edwards,2022-10-20 Western philosophical orthodoxy places many aspects of other people s lives outside the scope of

our knowledge Demonstrating an alternative to this view however this book argues that Jean Paul Sartre s application of his unique psychoanalytic method to Gustave Flaubert is the culmination of his project to show that it is possible to know everything there is to know about another person It examines how Sartre aims to revolutionize our way of thinking about others by presenting his existential psychoanalysis as the means to knowledge of both ourselves and others By so doing it highlights how his determination to solve the longstanding philosophical conundrum about other minds drives him not only to incorporate insights from Descartes Hegel Husserl Freud Marx and Beauvoir into his philosophy but also to supplement and enhance his philosophy through the development and application of a new form of psychoanalysis Sartre s Existential Psychoanalysis integrates for the first time Sartre s psychoanalysis into his overarching philosophical project By offering a critical interrogation of the role his psychoanalytical studies played in the development of his existentialism Mary Edwards uncovers the overlooked philosophical significance of his existential psychoanalysis and brings it into a new and productive dialogue with current research in the fields of philosophy psychology and psychotherapy
