Francoeur, Patricia Koch, David Weis, 1999-08-01 Now available in a new paperback edition this survey is different in both breadth and scope from all other reports on sexuality in the United States It covers every topic imaginable from a multicultural point of view in order to reflect fully the complex society in which we live the biological psychological social and spiritual aspects of our sexual lives

Sexual Paradox: Complementarity, Reproductive Conflict and Human Emergence Christine Fielder, Chris King, 2006 Unlocks the keys to the paradox of how sexual selection fertilized the explosion of culture and the resulting fallout in sexual dominion of man over woman and nature How sexuality generates the universe through symmetry broken complementarity The implicit conflict of interests of sexual intrigue in the prisoners dilemma and its ecstatic resolution in the cosmology of love Sexual dominance as a koan for planetary crises 560 pages containing 270 illustrations Evolution and Human Sexual Behavior Peter B. Gray, Justin R. Garcia, 2013-04-15 A comprehensive survey of the evolutionary science of human sexual behavior Evolution and Human Sexual Behavior invites us to imagine human sex from the vantage point of our primate cousins in order to underscore the role of evolution in shaping all that happens biologically and behaviorally when romantic passions are aroused *The Smell of Slavery* Andrew Kettler, 2020-05-28 In the Atlantic World different groups were aromatically classified in opposition to other ethnic gendered and class assemblies due to an economic necessity that needed certain bodies to be defined as excremental which culminated in the creation of a progressive tautology that linked Africa and waste through a conceptual hendiadys born of capitalist licentiousness The African subject was defined as a scented object appropriated as filthy to create levels of ownership through discourse that marked African peoples as unable to access spaces of Western modernity Embodied cultural knowledge was potent enough to alter the biological function of the five senses to create a European olfactory consciousness made to sense the African other as foul Fascinating informative and deeply researched The Smell of Slavery exposes that concerns with pungency within the Western self were emitted outward upon the freshly dug outhouse of the mass slave grave called the Atlantic World *The Human Psyche* Peter Snow, 2010 The Human Psyche is a far reaching expose of human identity that seeks to unify the startling new insights gained from modern neuroscientific studies of higher consciousness with insights gained from introspection and philosophy In simple straightforward prose and diagrammatic form it presents several new models of the generation of and interactions between the neural centers that are responsible for thought emotion and mood It will be of particular interest to neuroscientists neurologists biologists mental health professionals students of religion and philosophers and indeed all those fascinated by human behavior its origins in the animal world and its implications for our future The Human Psyche reminds us that we live in a time when science finally has significant answers about the true nature and origins of human behavior a perspective that heralds a new era that will inevitably see the dissolution of many hallowed though plainly stagnant institutions and the establishment of a new world **The Handbook of Evolutionary Psychology, Volume 1** David M.

Buss,2015-11-02 The indispensable reference tool for the groundbreaking science of evolutionary psychology Why is the mind designed the way it is How does input from the environment interact with the mind to produce behavior These are the big unanswered questions that the field of evolutionary psychology seeks to explore The Handbook of Evolutionary Psychology is the seminal work in this vibrant quickly developing new discipline In this thorough revision and expansion luminaries in the field provide an in depth exploration of the foundations of evolutionary psychology and explain the new empirical discoveries and theoretical developments that continue at a breathtaking pace Evolutionary psychologists posit that the mind has a specialized and complex structure just as the body has a specialized and complex structure From this important theoretical concept arises the vast array of possibilities that are at the core of the field which seeks to examine such traits as perception language and memory from an evolutionary perspective This examination is intended to determine the human psychological traits that are the products of sexual and natural selection and as such to chart and understand human nature Join the discussion of the big questions addressed by the burgeoning field of evolutionary psychology Explore the foundations of evolutionary psychology from theory and methods to the thoughts of EP critics Discover the psychology of human survival mating parenting cooperation and conflict culture and more Identify how evolutionary psychology is interwoven with other academic subjects and traditional psychological disciplines The Handbook of Evolutionary Psychology is the definitive guide for every psychologist and student interested in keeping abreast of new ideas in this quickly developing field

The Rough Guide to Sex James McConnachie, 2010-01-04 Has any big subject ever generated so many myths lies and unfounded claims as sex The Rough Guide to Sex is the antidote to the cynical hype noisy boasts and all those embarrassed silences It tells it how it is for men and women gay and straight from touch and masturbation to sexual positions with accessible how to do it advice Honest and informative author James McConnachie gets up close and personal covering not just body parts techniques and accessories but sexual health attitudes expectations and beliefs Amply illustrated this is a book for the curious dealing with

everything you know and don't know about sex and beyond. It unveils the nature of desire, the meaning of fantasy, the science of orgasm, what works and what doesn't for both him and her. It tells how scientists and gurus, writers and lovers, perverts and priests have all contributed to the story of sex. Above all, it looks at how sex really figures in people's lives. Myth busting, witty, thoughtful and candid. **The Rough Guide to Sex** uncovers the facts of life without the fiction. **Sex Differences** Linda Mealey, 2000-04-13. *Sex Differences* serves as an advanced text for courses in evolutionary and human biology, psychology and sexuality and gender studies. It also serves as a reference source for academic professionals in these disciplines. The book covers the evolution of sex and sex differences and sex differences and sexual strategies in non-human and human animals. The final chapter addresses issues of sex and gender in interpersonal relationships, organizations and politics. Diagrams, graphs, charts and tables illustrate key concepts; cartoons and photos provide visual breaks and an element of humor. Examines sexual differences from a multi-level comparative approach. Contains a thorough coverage of literature through 1998 and into 1999. Illustrates pages with a generous use of cartoons, photos, figures and diagrams. Invites bonus learning with special interest boxes interspersed throughout text. Presents a critical analysis. Includes a combination of feminist and evolutionary thinking. *How Race Is Made* Mark M. Smith, 2009-09-14. For at least two centuries, argues Mark Smith, white southerners used all of their senses, not just their eyes, to construct racial difference and define race. His provocative analysis, extending from the colonial period to the mid-twentieth century, shows how whites of all classes used the artificial binary of black and white to justify. *Natural Aphrodisiacs* Ravi K. Puri Ph.D., Raman Puri MD., 2011-12-05. The widespread use of effective prescription drugs for erectile dysfunction has helped advance society's acceptance of talking about sexual dysfunction for both men and women. As the authors elegantly describe sexual dysfunction and attempts at treating it, have been around for as long as sexuality itself. It's no surprise that history is full of myths about aphrodisiacs. Despite all the advances we have made in medicine, the myth of the aphrodisiacs is as powerful as ever. However, sexual dysfunction is very often a complex problem requiring careful, thoughtful and educated treatment. Rarely is there a quick, natural fix. Consumers need to do their homework before buying into the claims of companies selling natural aphrodisiacs. This book is an excellent resource for those seeking to educate themselves about the history, effectiveness, safety and future of natural aphrodisiacs. Nevertheless, the information contained within the text is also important and valuable for both sides of the patient/physician equation in the treatment of sexual dysfunction. Siobhan Hyland McGaughey M.D. Urologist, Urology Associates of Central Missouri, Columbia, MO 65201. The authors have expressed very clearly the various merits and demerits of natural aphrodisiac products on the market. Discussion on the future prospects of plant used as aphrodisiacs is excellent information for the phytochemists who are interested to pursue research. Limitations in the area of existing natural aphrodisiacs and their standardizations is consistent with the rising interest of global consumers in green environment. A special effort in creating the drawings of the natural products for enabling readers to identify the natural products is phenomenal. I recommend this

book to the lovers of natural products without any hesitation I hope that manufacturers scholars and consumers of natural aphrodisiac products will take advantage of this document in years to come Usha Chowdhary Ph D Professor Human Environmental Sciences Central Michigan University Mount Pleasant MI 48859 The latest research on herbal aphrodisiacs cited by the authors is very impressive The appropriate quotations at the beginning of each chapter are very fascinating It is a comprehensive compendium on natural aphrodisiacs comprising their origin myth chemistry pharmacology risk and romance Hand drawings of the plants are excellent and depict their morphological characteristics that can be helpful in identifying them The book is actually a ready reckoner for physicians pharmacist or herbalists for guiding the patients who are incorporating natural products in their daily regime K C Varma Ph D Emeritus Professor Chief Editor Indian Journal of Natural Products India

American Behavioral History Peter N.
