Creativity Matters : Kasidi vs AI 01-25 Tri Budhi

Sastrio,2025-05-17 Besides the Introductions which are written in three languages i e Indonesian Javanese and English this book is actually common and usual like any other books Nothing new in this book except there is an attempt to compare a human being made poem with a poem composed by AIPG and FVPG The comparison made is also simple because there is no depth analysis just compare and give the rest to the reader It is no question that AI can compose a rhyming poem or a free verse in a blink of our eyes Very fast and without any typo and any grammatical error Just give the key word or even key words to the AI and the poem is emerged Who can challenge or contest this super ability this amazing achievement No one right Even Kasidi the most stubborn critic raised his two hands and admit that now and in the future there is no one like an AI to compose a poem Not give up yet but it is a confession that AI is better stronger faster and cleverer than human being to make the job of composing a poem done in a blink of AI AI is better and faster than human being says Kasidi almost in whisper
