Scharrer Neuroendocrinology Cloth:

Scharrer E. SCHARRER,1992-02 Neuroendocrinology Horst-Werner Korf,Klaus-Henning Usadel,2012-12-06 70 years after the discovery of secretory neurons internationally leading experts gathered to discuss the latest developments in neuropeptide research and endocrinology concentrating on the molecular cellular supracellular and systemic aspects A variety of neuropeptidergic systems are considered under comparative and evolutionary aspects Neuroendocrinology ,1970 **Neuroendocrine Cells and Peptidergic Innervation in Human and Rat Prostrate** Luis Santamaria,Ildelfonso Ingelmo,Lucía Alonso,José Manuel Pozuelo,Rosario Rodríguez,2007-05-06 1 Introduction The prostate causes a significant number of medical problems in the adult male and the lower urinary tract symptoms are accepted as an unavoidable consequence of male aging Most of these symptoms are mainly due to clinical benign prostatic hyperplasia BPH which is the most frequent benign tumor in the male independent of race or culture On the other hand cancer of the prostate shows an increasing incidence being the second leading cause of death in men after lung cancer It has an etiology related to multiple factors age race androgen dependence chemical agents diet etc Both pathologies are very costly in terms of medical resources and they significantly diminish quality of life More than 400 000 prostate resections per year are done in the US and these result in an approximate cost of 5 billion dollars per year Because of all these circumstances a better knowledge of the mechanisms regulating normal hyperplastic and neoplastic prostate growth is important for treatment and prevention of BPH and prostate cancer Since the last review about prostate neuroendocrine cells published in 1998 there have been new and exciting developments relating to these cells in both normal and pathologic prostate The cross talk of signals between epithelial and neuroendocrine cells seems relevant to the development and physiopathology of the prostate thus the relationship between these cell populations should be more deeply studied The Publishers' Trade List Annual ,1973 **The Book Buyer's Guide** ,1963 **Zentral-vegetative Regulationen und Syndrome** R.
