

How many of us will follow the lead of a woman, 40 years old, who has been told by her doctor to quit smoking? Those in the first two New Hampshire polls said 50 percent to 55 percent would follow her lead. But in the third poll, only 35 percent said they would. Klein, 2001-01-11 Maps make the world visible but they also obscure distort idealize This wide ranging study traces the impact of cartography on the changing cultural meanings of space offering a fresh analysis of the mental and material mapping of early modern England and Ireland Combining cartographic history with critical cultural studies and literary analysis it examines the construction of social and political space in maps in cosmography and geography in historical and political writing and in the literary works of Marlowe Shakespeare Spenser and Drayton *Maps and Travel in the Middle Ages and the Early Modern Period* Ingrid Baumgärtner, Nirit Ben-Aryeh Debby, Katrin Kogman-Appel, 2019-03-04 The volume discusses the world as it was known in the Medieval and Early Modern periods focusing on projects concerned with mapping as a conceptual and artistic practice with visual representations of space and with destinations of real and fictive travel Maps were often taken as straightforward objective configurations However they expose deeply subjective frameworks with social political and economic significance Travel narratives whether illustrated or not can address similar frameworks Whereas travelled space is often adventurous and speaking of hardship strange encounters and danger city portraits tell a tale of civilized life and civic pride The book seeks to address the multiple ways in which maps and travel literature conceive of the world communicate a Weltbild depict space and or define knowledge The volume challenges academic boundaries in the study of cartography by exploring the links between mapmaking and artistic practices The contributions discuss individual mapmakers authors of travelogues mapmaking as an artistic practice the relationship between travel literature and mapmaking illustration in travel literature and imagination in depictions of newly explored worlds **Hebrew between Jews and Christians** Daniel Stein Kokin, 2022-12-19 Though typically associated more with Judaism than Christianity the status and sacrality of Hebrew has nonetheless been engaged by both religious cultures in often strikingly similar ways The language has furthermore played an important if vexed role in relations between the two Hebrew between Jews and Christians closely examines this frequently overlooked aspect of Judaism and Christianity s common heritage and mutual competition *The Executioner's Journal* Frantz Schmidt, 2016-09-02 During a career lasting nearly half a century Meister Frantz Schmidt 1554 1634 personally put to

death 392 individuals and tortured flogged or disfigured hundreds more The remarkable number of victims as well as the officially sanctioned context in which they suffered at Schmidt s hands was the story of Joel Harrington s much discussed book *The Faithful Executioner* The foundation of that celebrated work was Schmidt s own journal notable not only for the shocking story it told but in an age when people rarely kept diaries for its mere existence Available now in Harrington s new translation this fascinating document provides the modern reader with a rare firsthand perspective on the thoughts and experiences of an executioner who routinely carried out acts of state brutality yet remained a revered member of the local community widely respected for his piety steadfastness and popular healing Based on a long lost manuscript thought to be the most faithful to the original journal this modern English translation is fully annotated and includes an introduction providing historical context as well as a biographical portrait of Schmidt himself The executioner appears to us not as the frightening brute we might expect but as a surprisingly thoughtful complex person with a unique voice and in these pages his world emerges as vivid and unforgettable

Studies in Early Modern German History Urban Space in the Middle Ages and the Early Modern Age Albrecht Classen, 2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms

Between Manuscript and Print Sylvia Brockstieger, Paul Schweitzer-Martin, 2023-07-24 A cross cultural comparative view on the transition from a predominant culture of handwriting to a predominant culture of print in the late medieval and early modern periods is provided here combining research on Christian and Jewish European book culture with findings on East Asian manuscript and print culture This approach highlights interactions and interdependencies instead of retracing a linear process from the manuscript book to its printed successor While each chapter is written as a disciplinary study focused on one specific case from the respective field the volume as a whole allows for transcultural perspectives It thereby not only focusses on change but also on simultaneities of manuscript and printing practices as well as on shifts in the perception of media writing surfaces and materials Which values

did writers printers and readers attribute to the handwritten and printed materials For which types of texts was handwriting preferred or perceived as suitable How and under which circumstances could handwritten and printed texts coexist even within the same document and which epistemic dynamics emerged from such textual assemblages

Tree of Jesse Iconography in Northern Europe in the Fifteenth and Sixteenth Centuries Susan L. Green, 2018-10-26 This book is the first detailed investigation to focus on the late medieval use of Tree of Jesse imagery traditionally a representation of the genealogical tree of Christ In northern Europe from the mid fifteenth to the early sixteenth centuries it could be found across a wide range of media Yet as this book vividly illustrates it had evolved beyond a simple genealogy into something more complex which could be modified to satisfy specific religious requirements It was also able to function on a more temporal level reflecting not only a clerical preoccupation with a sense of communal identity but a more general interest in displaying a family's heritage continuity and or social status It is this dynamic and polyvalent element that makes the subject so fascinating
