**Shembe, Ancestors, and Christ** Edley J. Moodley PhD, 2008-08-18 The Christian axis has shifted dramatically southward to Africa Asia and Latin America so much so that today there are more Christians living in these southern regions than among their northern counterparts In the case of Africa the African Initiated Churches founded by Africans and primarily for Africans has largely contributed to the exponential growth and proliferation of the Christian faith in the continent Yet even more profoundly these churches espouse a brand of Christianity that is indigenized and thoroughly contextual Further the power and popularity of the AICs beyond the unprecedented numbers joining these churches are attributed to their relevance to the existential everyday needs and concerns of their adherents in the context of a postcolonial Africa At the heart of Christian theology is Christology the confessed uniqueness of Christ in history and among world religions Yet this key feature of Christianity as with other important elements of the Christian faith may be variously understood and re interpreted in these indigenous churches The focus of this study is the amaNazaretha Church an influential religious group founded by the African charismatic prophet Isaiah Shembe in 1911 in the province of KwaZulu Natal South Africa The movement today claims a following of some two million adherents and has proliferated beyond the borders of South Africa to neighboring countries in Southern Africa The book addresses the complex and at times ambivalent understanding of the person and work of Christ in the amaNazaretha Church presenting the genesis history beliefs and practices of this significant religious movement in South Africa with broader implications for similar movements across the continent of Africa and beyond

*Struggles in Southern Africa for Survival and Equality* H. Simons, 1997-04-21 A fascinating account which discusses the indigenous peoples at the Cape at the time of the Dutch colonisers arrival through to the years of apartheid This includes the colonial conquest of Zambia expanding upon the role played by venture capital and the demands of manufacturing capitalism in the colonisation of large parts of Africa The place of women in both colonial settler society and indigenous society is also dealt with Through all the chapters runs the thread of the lives of the common people and how their interactions are circumscribed by social conditions

**Emergent Masculinities** Ndubueze L. Mbah, 2019-10-29 In Emergent Masculinities Ndubueze L Mbah argues that the Bight of Biafra region s Atlanticization or the interaction between regional processes and Atlantic forces such as the slave trade colonialism and Christianization between 1750 and 1920 transformed gender into the primary mode of social differentiation in the region He incorporates over 250 oral narratives of men and women across a range of social roles and professions with material culture practices performance traditions slave ship data colonial records and more to reveal how Africans channeled the socioeconomic forces of the Atlantic world through their local ideologies and

practices The gendered struggles over the means of social reproduction conditioned the Bight of Biafra region's participation in Atlantic systems of production and exchange and defined the demography of the region's forced diaspora By looking at male and female constructions of masculinity and sexuality as major indexes of social change Emergent Masculinities transforms our understanding of the role of gender in precolonial Africa and fills a major gap in our knowledge of a broader set of theoretical and comparative issues linked to the slave trade and the African diaspora The Warrior Tradition in Modern Africa Mazrui, 2022-04-25 **Population, Settlement, and Development in Zambia** Prithvish Nag, 1990
