Lectures on Philosophical Ethics Friedrich Schleiermacher, 2002 Schleiermacher is known to English readers primarily as a theologian and hermeneuticist but many German scholars have argued that it is in fact his philosophical work in ethics that constitutes his most outstanding intellectual achievement This edition also includes a historical and philosophical introduction and notes on further reading *Schleiermacher: Lectures on Philosophical Ethics* Friedrich

Schleiermacher, 2002-11-21 This is the first English translation of Friedrich Schleiermacher's mature ethical theory Situated between the better known positions of Kant and Hegel Schleiermacher's ethics represent an under explored option within the rich and creative tradition of German idealism Although Schleiermacher is known to English readers primarily as a theologian and hermeneuticist many German scholars have argued that his philosophical work in ethics constitutes his most outstanding intellectual achievement This edition includes an historical and philosophical introduction and notes on further reading Cambridge Texts in the History of Philosophy Friedrich Schleiermacher, 2002 Schleiermacher is known to

Hermeneutics - Ethics - Education Andrzej Wiercinski, 2015 This book confronts the challenges that hermeneutics brings to ethics and education by thematizing the critical influence which ethics and contemporary educational theory and practice have on the self understanding of philosophical hermeneutics In the hermeneutic spirit of commitment to cultivating lifelong habits of critical thinking moral reflection and articulate expression the book presents many voices that illuminate a rich cultural diversity with the profound hope of nurturing the full flourishing of human beings The hermeneutics of education calls for diverse ways of thinking about education which deeply cares for the common good of individuals communities and nations This diversity promotes a genuine interest in different approaches to the event Ereignis of education Series

International Studies in Hermeneutics and Phenomenology Vol 8 Subject Hermeneutics Ethics Education The Limit of Responsibility Esther D. Reed, 2018-08-23 This volume frames the question of responsibility as a problem of agency in relation to the systems and structures of globalization According to Ricoeur responsibility is a shattered concept when considered too narrowly as a problem of act agency and individual freedom To examine this Esther Reed develops a short genealogy of modern liberal and post liberal concepts of responsibility in order to understand better the relationship dominant modern framings of the meanings of responsibility Reed engages with writings by major modern Schleiermacher

Hegel Marx Weber and post liberal Buber Levinas Derrida Badiou Butler Young Critchley theorists to illustrate the shift from an ethnic responsibility built on notions of accountability and attributions to an ethic responsibility that starts variously from the other Reed sees Dietrich Bonhoeffer as the most promising partner of this theological dialogue as his learning of responsibility from the risen Christ present now in the global church is a welcome provocation to new thinking about the meaning of responsibility learned from land distant neighbour global church and the bible Bonhoeffer's reflections on the centre boundaries and limits of responsibility remain helpful to Christian people struggling with an increasingly exhausted concept of accountability

*Gadamer's Truth and Method* Cynthia R. Nielsen, Greg Lynch, 2022-03-28 Gadamer's *Truth and Method* A Polyphonic Commentary offers a fresh look at Gadamer's magnum opus *Truth and Method* which was first published in German in 1960 translated into English in 1975 and is widely recognized as a ground breaking text of philosophical hermeneutics The volume features essays from fourteen scholars both established and rising stars each of which cover a portion of *Truth and Method* following the order of the text itself The result is a robust historically and thematically rich polyphonic reading of the text as a whole valuable both for scholarship and teaching

*Christian Ethics as Witness* David Haddorff, 2011-01-01 Christian ethics is less a system of principles rules or even virtues and more of a free and open ended responsible witness to God's gracious action to be with and for others and the world Postmodernity has left us with the risky uncertainty of knowing and doing the good It also leaves us with the global risks of political violence and terrorism economic globalization and financial crisis and environmental destruction and global climate change How should Christians respond to these problems This book creatively explores how Christian ethics is best understood as a witness to God's action thereby providing the ethical framework for addressing the various problematic social issues that put our world at risk Haddorff develops the notion of witness through a detailed study of Karl Barth's theological ethics Barth he argues provides a language enabling us to know what a Christian ethics of witness actually looks like in both theory and in practice In correspondence to God's gracious action Christians remain free to think and act in faith hope and love in response to their unique circumstances even in a world at risk In their witness Christians remain confident that God has not abandoned the world but loves and cares for its future

Confessional Lutheranism and German Theological Wissenschaft James Ambrose Lee II, 2022-01-19 This book investigates the relationship between nineteenth century German theological Wissenschaft and the emergence of confessional Lutheranism It argues that the first generation of confessional Lutherans contributed to the discourse over the nature of theological Wissenschaft Part I examines the intellectual context of nineteenth century theological Wissenschaft Chapter 2 presents Kant's and Schelling's conceptions of Wissenschaft in relationship to theology Chapter 3 analyzes Schleiermacher's contribution to the debate about the integrity of theology as a Wissenschaft and concludes by considering the developments represented by F C Baur and Albrecht Ritschl Part II investigates the different Lutheran approaches to theological Wissenschaft represented by Adolf Harle August Vilmar and

Johannes von Hofmann Chapter 4 examines Harle s Theologische Encyklop die as the first expression towards a confessional Lutheran Wissenschaft Chapter 5 highlights Vilmar s antagonistic posture towards modern German theology while attending to his construction of an alternative approach to modern theology Chapters 6 and 7 contextualize Hofmann against the landscape of German theology while situating his theological Wissenschaft within his contentious work Der Schriftbeweis Chapter 8 reflects upon these efforts at establishing a theological Wissenschaft in service to the church and the university

**Embedded Grace** Kevin M. Vander Schel,2013-11-01 Scholars are now at work not only rethinking Schleiermachers relation to the modern and contemporary theological tradition but re examining the dogmatic intricacies and commitments within his texts Situated within this revisionist milieu the author takes up the important issue of the coordination of grace and history in Schleiermacher arguing for its significance in understanding the dynamics of Schleiermachers dogmatics and its grounding and realization in Christology *Indigenous and Christian Perspectives in Dialogue* Allen G.

Jorgenson,2020-12-30 In *Indigenous and Christian Perspectives in Dialogue* Allen G Jorgenson asks what Christian theologians might learn from Indigenous spiritualities and worldviews Jorgenson argues that theology in North America has been captive to colonial conceits and has lost sight of key resources in a post Christendom context The volume is especially concerned with the loss of a sense of place evident in theologies written without attention to context Using a comparative theology methodology wherein more than one faith tradition is engaged in dialogical exploration Jorgenson uses insights from Indigenous understandings of place to illumine forgotten or obstructed themes in Christianity In this constructive theological project kairotic places are named as those that are kenotic harmonic poetic and especially enlightening at the margins where we meet the religious other Schleiermacher's Theology of Sin and Nature Daniel J. Pedersen,2020-04-19

Friedrich Schleiermacher 1768 1834 is often considered the Father of Modern Theology known for his attempt to reconcile traditional Christian doctrines with philosophical criticisms and scientific discoveries Despite the influence of his work on significant figures like Karl Barth he has been largely ignored by contemporary theologians Focussing on Schleiermacher s doctrine of sin this book demonstrates how Schleiermacher has not only been misinterpreted but also underestimated and deserves a critical re examination The book approaches Schleiermacher on sin with respect to three themes one its power to transcend an intractable metaethical dilemma at the heart of modern debates over sin two its intended compatibility with natural science and three to re evaluating its place and so Schleiermacher s place in the history of theology It solves and dissolves problems arising simultaneously from natural science confessional theology ethics and metaphysics in a single integrated account using Schleiermacher s understudied thought from his dogmatics *The Christian Faith* In contrast to the account sometimes given of modern theology as marked by a break with Greek metaphysics Schleiermacher s account is shown to stand in stark contrast by retrieving not excising ancient thought in service of an account of sin adequate to natural science This is a vital rediscovery of a foundational voice in theology As such it will greatly appeal to scholars of Modern

Theology theological ethics and the history of Modern Christianity      **The Oxford History of Modern German Theology, Volume 1: 1781-1848** Grant Kaplan, Kevin M. Vander Schel, 2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848 the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come      **Fichte, German Idealism, and Early Romanticism** Daniel Breazeale, Tom Rockmore, 2010 This volume of 23 previously unpublished essays explores the relationship between the philosophy of J G Fichte and that of other leading thinkers associated with German Idealism and the early Romantic movement Several papers explore the broader question of Fichte s relationship and contribution to German idealism and German romanticism in general while others offer comparative studies of the relationship between Fichte s writings and those of Leibniz Kant Schelling Hegel Friedrich Schlegel Novalis Schleiermacher and Wilhelm von Humboldt Taken collectively this set of essays provides anglophone readers with a new and historically accurate understanding of the origin development and reception of Fichte s philosophy in the context of its own era and in relationship to the most important intellectual movements of the time The authors include both well established and internationally recognized experts in their fields as well as younger scholars with fresh and challenging perspectives to offer This volume proposes a new interpretation of the history of German idealism in general and of the place therein of Fichte s Wissenschaftslehre It emphasizes the intimate connection between transcendental idealism and German romanticism and shows how developments within each of these intellectual movements reflected and in turn influenced developments within the other Finally it sheds new light on Fichte s own philosophical development and does so by relating the various stages of his writings to other contemporary movements and authors      Modern Religion, Modern Race Theodore Vial, 2016-06-16 Religion is a racialized category even

when race is not explicitly mentioned In *Modern Religion Modern Race* Theodore Vial argues that because the categories of religion and race are rooted in the post Enlightenment project of reimagining what it means to be human we cannot simply will ourselves to stop using them Only by acknowledging that religion is already racialized can we begin to understand how the two concepts are intertwined and how they operate in our modern world It has become common to argue that the category religion is not universal or even very old but is a product of Europe s Enlightenment modernization Equally common is the argument that religion is not an innocent category of analysis but is implicated in colonial regimes of control and as such plays a role in Europe s process of identity construction of itself and of non European others Current debates about race follow an eerily similar trajectory race is not an ancient but a modern construction It is part of the project of colonialism and race discourse forms one of the cornerstones of modern European identity making Why can t we stop using them or re construct them in less toxic ways By examining the theories of Kant Herder and Schleiermacher among others Vial uncovers co constitutive nature of race and religion describes how they became building blocks of the modern world and shows how the two concepts continue to be used today to form identity and to make sense of the world He shows that while we disdain the racist language of some of the founders of religious studies the continued influence of the modern worldview they helped create leads us often unwittingly to reiterate many of the same distinctions and hierarchies Although it may not be time to abandon the very category of religion with all its attendant baggage *Modern Religion Modern Race* calls for us to examine that baggage critically and to be fully conscious of the ways in which religion always carries with it dangerous ideas of race

The Oxford Handbook of German Philosophy in the Nineteenth Century Michael N. Forster, Kristin Gjesdal, 2015 The Oxford Handbook of German Philosophy in the Nineteenth Century is the first collective critical study of this important period in intellectual history The volume is divided into four parts The first part explores individual philosophers including Fichte Hegel Schopenhauer Marx and Nietzsche amongst other great thinkers of the period The second addresses key philosophical movements Idealism Romanticism Neo Kantianism and Existentialism The essays in the third part engage with different areas of philosophy that received particular attention at this time including philosophy of nature philosophy of mind philosophy of language philosophy of history and hermeneutics Finally the contributors turn to discuss central philosophical topics from skepticism to materialism from dialectics to ideas of historical and cultural Otherness and from the reception of antiquity to atheism Written by a team of leading experts this Handbook will be an essential resource for anyone working in the area and will lead the direction of future research

**Nietzsche: Thus Spoke Zarathustra** Robert Pippin, 2006-06-25 Nietzsche regarded *Thus Spoke Zarathustra* as his most important work and his story of the wandering Zarathustra has had enormous influence on subsequent culture Nietzsche uses a mixture of homilies parables epigrams and dreams to introduce some of his most striking doctrines including the Overman nihilism and the eternal return of the same This edition offers a new translation by Adrian Del Caro which restores the original versification of Nietzsche s text and captures its poetic

brilliance Robert Pippin's introduction discusses many of the most important interpretative issues raised by the work including who is Zarathustra and what kind of hero is he and what is the philosophical significance of the work's literary form The volume will appeal to all readers interested in one of the most original and inventive works of modern philosophy

**Joining Creation's Praise** Brian Brock, 2025-08-19 In the beginning God created Thus begins the Bible's story of a long conversation between God and creatures one in which humans are often the least edifying contributors They need to learn what it means to confess themselves creatures if they are to begin to understand what it means to be human and how to live Joining Creation's Praise a major statement by a leading Christian ethicist shows how confessing that we are creatures deeply reshapes every aspect of Christian thinking and living Human beings are made to embody Christ's image in the world not as dominators but as conduits of divine life In this comprehensive yet clear volume of theological ethics Brian Brock follows the first few chapters of Genesis in order to discover the things that the sages of Israel took to be crucial for the ethical life of human beings among other creatures in God's world Informed by theological rigor and careful exegesis the many ethical reflections in this volume allow an ancient wisdom to shed fresh light on very postmodern ethical questions about conversion life with God knowledge and wisdom dominion Sabbath vocation economics human dignity our relationship with the rest of creation sexuality marriage family sin death and politics

**Sextus Empiricus: Against the Logicians** Sextus (Empiricus.), 2005-12-22 Sextus Empiricus Against the Logicians is by far the most detailed surviving examination by any ancient Greek sceptic of the areas of epistemology and logic It critically examines the pretensions of non-sceptical philosophers to have discovered methods for determining the truth either through direct observation or by inference from the observed to the unobserved It is therefore a fine example of the Pyrrhonist sceptical method at work It also provides a mine of information about the ideas of other Greek thinkers ideas that are in many cases poorly preserved in other sources This volume presents Against the Logicians in a new and accurate translation together with a detailed introduction that sets the work in its philosophical context

**Aquinas: Summa Theologiae, Questions on God** Saint Thomas (Aquinas), 2006-02-16 Thomas Aquinas 1224-6-1274 was one of the greatest of the medieval philosophers His Summa Theologiae is his most important contribution to Christian theology and one of the main sources for his philosophy This volume offers most of the Summa's first 26 questions including all of those on the existence and nature of God Based on the 1960 Blackfriars translation this version has been extensively revised by Brian Davies and also includes an introduction by Brian Leftow which places the questions in their philosophical and historical context The result is an accessible and up-to-date edition of Aquinas' thoughts on the nature and existence of God both of which have continuing relevance for the philosophy of religion and Christian theology
