

The background of the book cover is a photograph of a coastal scene. On the right, a dark, silhouetted cliff rises from the water, topped with several tall, thin evergreen trees. The left side of the image is dominated by a thick, white mist or fog that obscures the horizon and the lower parts of the cliff. The sky is a pale, overcast grey. The overall mood is somber and atmospheric.

Schnee, der auf Zedern fällt David Guterson, 2016 *Schnee, der auf Zedern fällt*, 2019 *Telemann Studies* Wolfgang Hirschmann, Steven Zohn, 2022-08-04

Even as Georg Philipp Telemann's significance within eighteenth century musical culture has become more widely appreciated in recent years the English language literature on his life and music has remained limited. This volume bringing together sixteen essays by leading scholars from the USA, Germany and Japan helps to redress this imbalance as it signals a more international engagement with Telemann's legacy. The composer appears here not only as an important early Enlightenment figure but also as a postmodern one. Chapters on his sacred music address the work's sensitivity to Lutheran and physico-theology contrasting of historical and modern consciousness and embodiment of an emerging opus concept. His secular compositions and writings are brought into rich dialogue with French musical and aesthetic currents. Also considered are Telemann's relationships with contemporaries such as Johann Sebastian Bach the urban and courtly contexts for his music and his influential position as general Kapellmeister of Protestant Germany. **Harenberg, das Buch der 1000**
