Hanna, Amy E. Potter, E. Arnold Modlin, Perry Carter, David L. Butler, 2015-02-11 The examination of social memory and heritage tourism has grown considerably over the past few decades as scholars have critically re examined the relationships between past memories and

present actions at international national and local scales Methodological innovation and reflection have accompanied theoretical advances as researchers strive to understand representations experiences thoughts emotions and identities of the various actors involved in the reproduction of social memory and heritage landscapes Social Memory and Heritage Tourism Methodologies describes and demonstrates innovations including qualitative quantitative and mixed method approaches for analysing the process and politics of remembering and touring the past through place An introductory chapter looks at the history of social memory and heritage tourism research and the particular challenges posed by these fields of study In subsequent chapters the reader is lead through the varying methodologies employed by presenting them in the context of an in depth case study from range of geographical locations The resulting volume showcases innovative research in social memory and heritage tourism and provides the reader with insights into how they can successfully conduct their own research while avoiding common pitfalls This title will be useful reading for scholars professionals and students in tourism geography anthropology and museum studies who are preparing to conduct research on the reproduction of social memory in particular landscapes and places or are interested in investigating heritage tourism practices and representations

**Frontier Democracy** Silvana R. Siddali, 2016 Frontier Democracy examines the debates over state constitutions in the antebellum Northwest Indiana Illinois Iowa Michigan Minnesota Ohio and Wisconsin from the 1820s through the 1850s This is a book about conversations in particular the fights and negotiations over the core ideals in the constitutions that brought these frontier communities to life Silvana R Siddali argues that the Northwestern debates over representation and citizenship reveal two profound commitments the first to fair deliberation and the second to ethical principles based on republicanism Christianity and science Some of these ideas succeeded brilliantly within forty years the region became an economic and demographic success story However some failed tragically racial hatred prevailed everywhere in the region in spite of reformers passionate arguments for justice and resulted in disfranchisement and even exclusion for non white Northwesterners that lasted for generations Geographers Charles W. J. Withers, Hayden Lorimer, 2015-12-14 This twenty sixth volume of Geographers Biobibliographical Studies brings together essays on leading figures in time geography and regional theory on GIS on regional cultural and political geography on scriptural geography historical geography and methodology and on African exploration Each essay engages with the individual s contribution to geography their works and their lives and the intellectual and social contexts in which they worked and which helped shape them In addition and to mark the new co editorial pairing leading the series the volume has an essay on the history of GBS on the importance of biographical work in the history of geography and on issues to be addressed by the scholarly communities engaged in promoting this vital area of geographical research *Geography in America at the Dawn of the 21st Century* Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a

state of the discipline assessment and a topical reference. It includes an introduction by the editors and 47 chapters each on a specific specialty. The authors of each chapter were chosen by their specialty group of the American Association of Geographers (AAG). Based on a process of review and revision, the chapters in this volume have become truly representative of the recent scholarship of American geographers. While it focuses on work since 1990, it additionally includes related prior work and work by non-American geographers. The initial *Geography in America* was published in 1989 and has become a benchmark reference of American geographical research during the 1980s. This latest volume is completely new and features a preface written by the eminent geographer Gilbert White.

**Place and Politics in Modern Italy** John A. Agnew, 2002-10  
 How do the places where people live help structure and restructure their sociopolitical identities and interests? John A. Agnew presents a theoretical model that addresses the relation of place to politics and applies it to a series of case studies set in modern Italy.

**Dividing the Land** Edward T. Price, 1995-04-15  
 Many property lines drawn in early America still survive today and continue to shape the landscape and character of the United States. Surprisingly though, no one until now has thoroughly examined the process by which land was divided into private property and distributed to settlers from the beginning of colonization to early nationhood. In this unprecedented study, Edward T. Price covers most areas of the United States in which the initial division of land was controlled by colonial governments: the original thirteen colonies and Maine, Vermont, Kentucky, West Virginia, Tennessee, Louisiana, and Texas. By examining different land policies and the irregular pattern of property that resulted from them, Price chronicles the many ways colonies managed land to promote settlement, develop agriculture, defend frontiers, and attract investment. His analysis reveals as much about land planning techniques carried to America from Europe as innovations spurred by the unique circumstances of the new world. Price's analysis draws on his thorough survey of property records from the first land plans in Virginia in 1607 to empresario grants in Texas in the 1820s. This breadth of data allows him to identify regional differences in allocating land, assess the impact of land planning by historical figures like William Penn of Pennsylvania and Lord Baltimore of Maryland, and trace changes in patterns of land division and ownership through transfers of power among Britain, the Netherlands, France, Spain, Mexico, and the Republic of Texas.

**Time and a Place** Edward MacDonald, Joshua MacFadyen, Irené Novaczek, 2016-06-01  
 With its long and well-documented history, Prince Edward Island makes a compelling case study for thousands of years of human interaction with a specific ecosystem. The pastoral landscapes, red sandstone cliffs, and small fishing villages of Canada's garden province are appealing because they appear timeless, but they are as culturally constructed as they are shaped by the ebb and flow of the tides. Bringing together experts from a multitude of disciplines, the essays in *Time and a Place* explore the island's marine and terrestrial environment from its prehistory to its recent past. Beginning with PEI's history as a blank slate, a land scraped by ice and then surrounded by rising seas, this mosaic of essays documents the arrival of flora, fauna, and humans and the different ways these inhabitants have lived in this place over time. The collection offers policy insights for the province while

also informing broader questions about the value of islands and other geographically bounded spaces for the study of environmental history and the crafting of global sustainability Putting PEI at the forefront of Canadian environmental history Time and a Place is a remarkable accomplishment that will be eagerly received and read by historians geographers scholars of Canadian and island studies and environmentalists

**Challenging Nature** Philip W. Porter, 2006-03 Tanga Region Tanzania is an area of persistent rural poverty with a long history of drought floods food shortages famine and social and economic disruption Though farmers have been cultivating the land there for hundreds of years they have consistently been unable to supply adequate food for the region's inhabitants In Challenging Nature Philip Porter examines eighteen farming communities to understand what the farmers there know about their environment and which historical and economic factors play into the lack of food security Porter first began work on this project in 1972 asking 250 farmers in the region about life history environmental and agricultural changes types of crops grown and methods of planting environmental assessments agricultural practices food and water supplies training and education and attitudes toward nature Twenty years later he returned and reinterviewed as many farmers as could be found from the first survey The result contextualizes the environmental history of the region while informing current and future agricultural development

**Calvinists Incorporated** Anne Kelly Knowles, 1997-02 Bringing immigrants onstage as central players in the drama of rural capitalist transformation Anne Kelly Knowles traces a community of Welsh immigrants to Jackson and Gallia counties in southern Ohio After reconstructing the gradual process of community building Knowles focuses on the pivotal moment when the immigrants became involved with the industrialization of their new region as workers and investors in Welsh owned charcoal iron companies Setting the southern Ohio Welsh in the context of Welsh immigration as a whole from 1795 to 1850 Knowles explores how these strict Calvinists responded to the moral dilemmas posed by leaving their native land and experiencing economic success in the United States Knowles draws on a wide variety of sources including obituaries and community histories to reconstruct the personal histories of over 1 700 immigrants The resulting account will find appreciative readers not only among historical geographers but also among American economic historians and historians of religion

**North America** Thomas F. McIlwraith, Edward K. Muller, 2001-08-01 This classic text retains the superb scholarship of the first edition in a thoroughly revised and accessibly written new edition With both new and updated essays by distinguished American and Canadian authors the book provides a comprehensive historical overview of the formation and growth of North American regions from European exploration and colonization to the second half of the twentieth century Collectively the contributors explore the key themes of acquisition of geographical knowledge cultural transfer and acculturation frontier expansion spatial organization of society resource exploitation regional and national integration and landscape change With six new chapters redrawn maps a new introduction that explores scholarly trends in historical geography since publication of the first edition and a new final chapter guiding students to the basic sources for historical geographic enquiry North
