The most profound and enduring social theorist of sociology's classical period Max Weber speaks as cogently to concerns of the new century as he did to those of the past In Max Weber and the New Century Alan Sica demonstrated Weber's preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern Max Weber A Comprehensive Bibliography is a companion volume that offers some 4 600 bibliographic listings of work on Weber making it the most complete guide to the literature in English and a testament to the continued vitality of Weber's thought Sica's work supersedes all previous bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format In order to demonstrate the enormous variety of Weberiana in English Sica has adopted a liberal criterion for inclusion rather than a critical one choosing to mix the best with what may be more routine work Following a preface in which previous bibliographies and bibliographic problems are discussed the volume opens with a series of five specialized bibliographies The first lists Weber's works in English translation The second lists reviews of Weber's major works including those translated into English while the third covers reviews of recent books and other work on Weber The fourth section contains a selection of dissertations and theses relating to Weber or his ideas The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes The last and largest section offers a comprehensive Weber bibliography of works in English This large scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history

**Max Weber and Postmodern Theory** N. Gane, 2002-04-09 This book explores the contemporary nature of Max Weber's work by looking in detail at his key concepts of rationalization and disenchantment Thematic parallels are drawn between Weber's rationalization thesis and the critiques of contemporary culture developed by Jean Francois Lyotard Michel Foucault and Jean Baudrillard It is suggested that these three postmodern thinkers develop and respond to Weber's analysis of modernity by pursuing radical strategies of affirmation and re-enchantment Examining the work of these three key thinkers in this way casts new light both on postmodern theory and on Weber's sociology of rationalization

*Max Weber's Complete Writings on Academic and Political Vocations* Max Weber, 2008 Annotation This is the first edition in any language of all of Max Weber's writings on academic and political vocations The translation is new and liberally annotated including a look at Weber's personality and what it was that made him such a phenomenon Max Weber made many significant interpretations of both academic and political vocations in his two lectures on Science as a Vocation Wissenschaft als Beruf 1917 and Politics as a Vocation Politik als Beruf 1919 as well as in a series of newspaper articles including those written

**The Religious Ethic and Mercantile Spirit in Early Modern China** Ying-shih Yü, 2021-03-23 Why did modern capitalism not arise in late imperial China One famous answer comes from Max Weber whose *The Protestant Ethic and the Spirit of Capitalism* gave a canonical analysis of religious and cultural factors in early modern European economic development In *The Religions of China* Weber contended that China lacked the crucial religious impetus to capitalist growth that Protestantism gave Europe The preeminent historian Ying-shih Yü offers a magisterial examination of religious and cultural influences in the development of China's early modern economy both complement and counterpoint to Weber's inquiry *The Religious Ethic and Mercantile Spirit in Early Modern China* investigates how evolving forms of Buddhism Confucianism and Daoism created and promulgated their own concepts of the work ethic from the late seventh century into the Qing dynasty The book traces how religious leaders developed the spiritual significance of labor and how merchants adopted this religious work ethic raising their status in Chinese society However Yü argues China's early modern mercantile spirit was restricted by the imperial bureaucratic priority on social order He challenges Marxists who championed China's sprouts of capitalism during the fifteenth through eighteenth centuries as well as other modern scholars who credit Confucianism with producing dramatic economic growth in East Asian countries Yü rejects the premise that China needed an early capitalist stage of development moreover the East Asian capitalism that flourished in the later half of the twentieth century was essentially part of the spread of global capitalism Now available in English translation this landmark work has been greatly influential among scholars in East Asia since its publication in Chinese in 1987

Anter, 2014-02-19 Andreas Anter reconstructs Max Weber's theory of the modern state showing its significance to contemporary political science He reveals the ambivalence of Weber's political thought the oscillation between an statist position mainly oriented to the reason of state and an individualistic one focussed on the freedom of individuals *Founders, Classics, Canons* Peter Baehr, 2017-07-05 Founders classics and canons have been vitally important in helping to frame sociology's identity Within the academy today a number of positions feminist postmodernist postcolonial question the status of tradition In *Founders Classics Canons* Peter Baehr defends the continuing importance of sociology's classics and traditions in a university education Baehr offers arguments against interpreting defending and attacking sociology's great texts and authors in terms of founders and canons He demonstrates why in logical and historical terms discourses and traditions cannot actually be founded and why the term founder has little explanatory content Equally he takes issue with the notion of canon and argues that the analogy between the theological canon and sociological classic texts though seductive is mistaken Although he questions the uses to which the concepts of founder classic and canon have been put Baehr is not dismissive On the contrary he seeks to understand the value and meaning these concepts have for the people who employ them in the cultural battle to affirm or attack the liberal university tradition

**The Vocation Lectures** Max Weber, 2004-03-15 Originally published separately Weber's *Science as a Vocation* and *Politics as a Vocation* stand as the classic formulations of his positions on two related subjects that go to the heart of his thought the nature and status of science and its claims to authority and the nature and status of political claims and the ultimate justification for such claims Together in this volume these newly translated lectures offer an ideal point of entry into Weber's central project understanding how as Weber put it in the West alone there have appeared cultural manifestations that seem to go in the direction of universal significance and validity *The Social Science Encyclopedia* Adam Kuper, 2004-10-14 The *Social Science Encyclopedia* first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised

Written by an international team of contributors the Encyclopedia offers a global perspective on key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society

**Comparative Methods in Sociology** Ivan Vallier, 2023-11-10 The essays in this volume are intended to help social scientists do better comparative research and thereby to improve our possibilities for creating more satisfactory explanations or theories These broad aims are advanced throughout the book in several ways 1 by an identification and assessment of the methodological strategies of exceptionally important comparativists past and present 2 by an explication and refinement of logics of procedure that are central to many types of comparative research 3 by a presentation of new research models that link or bridge heretofore separate lines of comparative inquiry and 4 by the definition of methodological criteria by which theories and conceptual frameworks can be more fruitfully related to and qualified by comparative studies Specific problems such as comparability causal inference conceptualization measurement and sampling are addressed in various sections of particular essays From the Preface This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1971
