Manhattan and beyond explaining how it came to be the world's most fabulous city as well as revealing its present day secrets. When the original edition of this incomparable guide was published in 1983 it won the Thomas Cook award as the guide book of the year. After he revised it in 1991 it was chosen by New York Magazine as the best of nearly a hundred books about the city. Now he has been back to retrace his steps. Thoroughly updated this book is packed with inspiration, revelation and sound practical advice. MICHAEL LEAPMAN lived in New York for seven years as correspondent for The Times reporting perceptively on the city's delights and foibles. He continues to visit New York regularly and to write about it for magazines and other newspapers. This is a reissue of a book first published in 1983 and last revised in 2000. It therefore includes references to and descriptions of the World Trade Center. These have been left in for historical interest. **Almanac of Famous People: Biographies**, 2001

Against a Sharp White Background Brigitte Fielder, Jonathan Senchyne, 2019-05-14

The work of black writers, editors, publishers and librarians is deeply embedded in the history of American print culture from slave narratives to digital databases. While the printed word can seem democratizing it remains that the infrastructures of print and digital culture can be as limiting as they are enabling. Contributors to this volume explore the relationship between expression and such frameworks analyzing how different mediums, library catalogs and search engines shape the production and reception of written and visual culture. Topics include antebellum literature, the Harlem Renaissance, the Black Arts Movement, post-Black art, the role of black librarians and how present day technologies aid or hinder the discoverability of work by African Americans. *Against a Sharp White Background* covers elements of production, circulation and reception of African American writing across a range of genres and contexts. This collection challenges mainstream book history and print culture to understand that race and racialization are inseparable from the study of texts and their technologies.

American Women Writers, Poetics, and the Nature of Gender Study Maryann Pasda DiEdwardo, 2016-12-14

This volume studies processes of creating voices of the past to analyze and to juxtapose, discussing the nature of the educational community viewed through feminist theory to reveal hidden ideas surrounding stereotypes, gender status and power in the postcolonial era. The contributions brought together here explore the various facets of language to focus on metaphorical, grammatical constructions unique and specific with form and function. They interpret various works to capture the essence of style as well as rhetorical function of basic structure of grammar, diction and syntax in a literary work as message and meaning. Furthermore, the book also discusses useful pedagogical and theoretical processes used by the literary scholar concerning the power of writing for cultural change. As such, the book will appeal to those who wish to heal through writing. The proceeds of the book support the author's local soup kitchen and crisis centers for domestic abuse.
