Child Care Needs and Numbers Jean Packman, 2021-11-07 Originally published in 1968 the study described in this title began in a very small way in late 1960 At that time some Oxfordshire county councillors and children's department officials were very conscious that the number of children in care in the county was high in comparison with the national average This meant that expenditure was also high The County's position however was not unique Oxford City was in a similar position but other neighbours did not appear to have the same problem A small research project was launched to investigate and it soon became apparent that there was a large and complex problem to be solved The problem was of striking persistent and puzzling variations in the proportion of children in care in the different local authority children's departments of England and Wales This seemed to warrant a larger investigation on a country wide basis and this book outlines the findings of that project

Art of Skating Irving Brokaw, 2009-12-15 From the Original Introduction 1910 In this book the author has endeavored to condense some of the mass of material which he has collected during many years of the study and practice of figure skating in the United States Canada and the skating centers of Europe Enthusiastic interest

and unusual opportunity for comparing the best styles of skating to be found among many nations due to extended travel during the skating seasons and the unbounded hospitality extended to him in all parts of the world where skating is looked upon as sport in the best sense of the word have caused the author to venture on this little volume which on account of its convenient size can be carried about and easily referred to when the learner is on skates It is with some slight sense of responsibility therefore and as a contribution to national interest in a sport which really originated in America that he endeavors to here set down his analysis of the new artistic figure skating destined soon to be the standard all over the world
