School Choice: Separating Fact from Fiction Patrick J. Wolf, 2020-05-21

School choice is a hot topic in the United States Private school vouchers public charter schools open enrollment and homeschooling all regularly appear on the policy agenda as ways to improve the educational experience and outcomes for students parents and the broader society Pundits often make claims about the various ways in which parents select schools and thus customize their child's education What claims about school choice are grounded in actual evidence This book presents systematic reviews of the social science research regarding critical aspects of parental school choice How do parents choose schools and what do they seek What effects do their choices have on the racial integration of schools and the performance of the schools that serve non choosing students What features of public charter schools are related to higher student test scores What effects does school choice have on important non cognitive outcomes including parent satisfaction student character traits and how far students go in school What do we know about homeschooling as a school choice This book originally published as a special issue of the *Journal of School Choice* provides evidence based answers to those vital questions

The End of Desegregation? Stephen J. Caldas, Carl Leon Bankston, 2003

After over half a century of court directed efforts to redress the historical educational chasm between blacks and whites in the United States both the past achievements and the future direction of school desegregation are uncertain Too often the early gains made in racially desegregating America's schools seem to have been halted and in many cases reversed Urban school decay is once again on the rise with predictable consequences For the very poorest minority students who have limited educational options apart from dangerous deteriorating neighbourhood schools drop out rates are high standardised test scores are abysmally low and violence is an everyday fact of life The gulf between the unskilled marginalised students being warehoused in these predominantly poor minority schools on the one hand and the increasingly high tech society they cannot compete in on the other is growing This ground breaking book presents the viewpoints and research of some of the most prominent scholars in the field of school desegregation It covers virtually the entire spectrum of thinking and scholarship on school desegregation and its promise success necessity pitfalls and failures

School Choice in Massachusetts W. Richard Fossey, 1993

Excellence Through Equity Alan M. Blankstein, Pedro Noguera, Lorena Kelly, 2016-02-26

Excellence Through Equity is an inspiring look at how real world educators are creating schools where all students are able to thrive In these schools educators understand that equity is not about treating all children the same They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed To help educators with what can at times be a difficult and challenging journey Blankstein and Noguera frame the book with five guiding principles of

Courageous Leadership Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships They further emphasize that the practices are grounded in three important areas of research that are too often disregarded 1 child development 2 neuroscience and 3 environmental influences on child development and learning You ll hear from Carol Corbett Burris Michael Fullan Marcus J Newsome Paul Reville Susan Szachowicz and other bold practitioners and visionary thinkers who share compelling and actionable ideas strategies and experiences for closing the achievement gap in your classrooms and school Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest As Andy Hargreaves writes in the coda The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become not about a target or ranking that the nation should attain From the Foreword by Archbishop Desmond Tutu Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together Let this bold practical book be a guide and may you travel into this new exciting vista in which every child can succeed
