Long Live The Dead:

The Christ Is Dead, Long Live the Christ Andrew Oberg, 2022-07-07 The Christ Is Dead Long Live the Christ A Philotheologic Prayer a Hermeneutics of Healing is a call for renewal and reinvention Following a brief examination of the historical Jesus Yeshua using his actual Aramaic Hebrew name the book moves into a phenomenological study of the image idea and the place of both in our felt experiences Looking closer at what we think were the actual words of this wandering sage the picture we arrive at is one that will surprise possibly unsettle Moved out of our traditional comfort zones we find the need to question what we have been told were Yeshua s teachings compelling us to further rethink messages on the afterlife human finitude so called atonement theologies and above all the kingdom of God Whatever this vision was and might yet be it seems central to Yeshua s efforts and so we finally weigh these kingdom facets against a broader ideascapes offering suggestions for how a Yeshuan kingdom project situated within the panoply of a widely comprehended Judaic way of being might yield fresh life to we who find worth in the utterances and what they point towards to we who wonder about a more human e world

The Project is Dead ... Long Live the

Project! Andreas von Grebmer, 2004 Mining Is Dead. Long Live Geopolitical Mining Eduardo Zamanillo, Marta Rivera, 2025-08-28 Mining Is Dead Long Live the New Geopolitical Mining The era of traditional mining is over Today critical minerals such as copper lithium rare earth elements and others have emerged as strategic assets shaping global power influencing everything from energy transition and electric vehicles to artificial intelligence and defense technologies This new reality means mining is no longer simply about extraction it s about industrial leadership geopolitical influence and economic security Marta Rivera and Eduardo Zamanillo offer a guide to understanding this new global mining paradigm Based on rigorous analysis official data and deep strategic insights this book reveals how regions such as China the United States Canada Australia Latin America Africa and Asia are reshaping the international order through strategic mining decisions In this concise yet comprehensive book you ll discover How strategic speed has become the defining factor for converting mineral resources into industrial and geopolitical power Why a compelling narrative is vital for legitimacy investment attraction and public support in modern mining How failing to industrialize mining exposes countries to long term vulnerability and dependency The crucial role of clean technology AI and strategic alliances in positioning countries as global leaders in the mining sector Why managing illegal mining is critical for national security economic stability and institutional legitimacy Mining Is Dead is a must read for policymakers business leaders investors industry professionals journalists and anyone interested in how critical minerals are redefining global economics geopolitics and technological innovation It offers practical insights and strategic clarity for navigating the complexities of the 21st century mining landscape Ultimately this book is not just about minerals it s about understanding the invisible forces shaping our future The mining we knew is gone welcome to the new geopolitical mining order *Socialism Is Dead! Long Live Socialism!* Todor Bombov, 2017-01-10 This work is divided into two autonomous books The first book The State represents a radically new political system of society one which is the most democratic system ever possible This is a completely new society a real civil society which otherwise in the capitalist system is only a utopia In this book I scrutinize the principles of scientific socialism i e all those principles of Marxism concerning the state that build socialism as a political system The second book The Economic Theory of Socialism is a sequel and as far as I know the only sequel of the greatest work by Karl Marx Capital The economics of socialism makes Marx s socialism already completely possible In this book I scrutinize the economic laws that build socialism as a more effective economic system than capitalism These laws are extracted from Marx s main work Capital From 1917 to 1991 the totalitarian system in USSR and East Europe was called socialism and even by the scientific nonsense and absurd names of communism and communist system In this system the official ideology was allegedly Marxism but really it could not endure any Marxist criticism There was never any socialism anywhere In the twentieth century we passed through a system of utopian socialism as proof that this was not socialism that was not possible but for the utopia of writers before and after Marx We were visited by a utopian socialism which at the contemporary stage is simply capitalism state monopolistic There

is no better application of Keynes's doctrine than the socialism of the twentieth century His planned capitalism is actually planned socialism *The Rebellion of the Beasts, Or, The Ass is Dead! Long Live the Ass!!!* Leigh Hunt, 1825 Why Niebuhr Now? John P. Diggins, 2011-06-30 In this book the author tackles the complicated question of why at a time of great uncertainty about America's proper role in the world leading politicians and thinkers are turning to Niebuhr for answers He begins by clearly and carefully working through Niebuhr's theology which focuses less on God's presence than his absence and the ways that absence abets the all too human sin of pride He then shows how that theology informed Niebuhr's worldview leading him to be at the same time a strong opponent of fascism and communism and a leading advocate for humility and caution in foreign policy **Not of the Living Dead** Noah Simon Jampol, Cain Miller, Leah Richards, 2023-03-03 A killer monkey Suburban witchcraft Motorcycle jousting A cockroach invasion Despite this enticing list of other subjects George A Romero is best known for the genre defining 1968 film *Night of the Living Dead* and subsequent zombie films The non zombie films in his decades long career have gotten varied degrees of critical examination but they remain underexamined compared to the Dead flicks This book focuses on Romero's other work highlighting lesser known films such as *There's Always Vanilla* 1971 and *Bruiser* 2000 as well as more popular films such as *Martin* 1977 and *The Crazies* 1973 It examines how his body of work participates in social critique by delving into issues such as capitalism's pitfalls and excesses domestic and racial power imbalances and our patriarchal culture's expectations of masculinity femininity and sexuality

The Dead Man's Finery Ramón del Valle-Inclán, 2013 Ramon del Valle Inclan is one of Spain's greatest dramatists His particular legacy is the esperpento a satirical mode combining tragedy and farce and characterised by its use of the grotesque *The Dead Man's Finery* 1926 and *The Captain's Daughter* 1927 are two short esperpentos that satirise the military which for Valle Inclan encapsulated the worst and most retrogressive qualities of the Spanish nation In *The Dead Man's Finery* Johnny Bluster is a decommissioned veteran of the Spanish American War who steals a dead man's clothes in order to woo a prostitute A parody of the Don Juan legend the play takes the problematic protean and devilish Don Juan and sets his outrageous behaviour in a very particular social and historical context *The Captain's Daughter* is the most historically and politically oriented of Valle Inclan's works for the theatre A man is killed and the accident of his death sets off a chain of events in which exploitation and self interest are the orchestrating forces concluding in a military coup that topples the government An overt satire of the rise to power of General Primo de Rivera in 1923 the play dispenses with the individual protagonist and portrays a society in crisis Notorious for his recondite use of language Valle Inclan emphasises the popular idiom without ever falling into picturesque realism Rather than recreate accurate modes of speech he creates a mode of expression that highlights incongruity and contrast emphasising the puppet like quality of his characters Translated here for the first time into English the plays are accompanied by a critical introduction and notes to guide the reader or director of these plays Notorious for his recondite use of language in these plays Valle Inclan emphasises the popular idiom without ever

falling into picturesque realism rather than recreate accurate modes of speech he creates a mode of expression that brings together all the play's characters regardless of their status or place in society The emphasis on incongruity and contrast creates a peculiarly sarcastic tone that permeates the dialogue The plays are accompanied by a critical introduction and notes to guide the reader or director of these plays both fine examples of Valle Inclán's expressionistic and experimental theatre

Is Rock Dead? Kevin J.H. Dettmar, 2013-01-11 Rock and roll's death has been forecast nearly since its birth the country song The Death of Rock and Roll appeared in September 1956 showing that the music had already outraged a more conservative listening audience Is Rock Dead sets out to explore the varied and sometimes conflicting ways in which the death of rock has been discussed both within the discourse of popular music and American culture If rock is dead when did it die Who killed it Why do rock journalists lament its passing Has its academic acceptance stabbed it in the back or resuscitated an otherwise lifeless corpse Why is rock music the music that conservatives love to hate On the other side of the coin how have rock's biggest fans helped nail shut the coffin Does rock feed on its own death and rebirth Finally what signs of life are there showing that rock in fact is surviving Is RockDead will appeal to all those who take seriously the notion that rock is a serious musical form It will appeal to students of popular music and culture and all those who have ever spun a 45 cranked up the radio or strummed an air guitar

Crises of the Sentence Jan Mieszkowski, 2019-04-02 There are few forms in which so much authority has been invested with so little reflection as the sentence Though a fundamental unit of discourse it has rarely been an explicit object of inquiry often taking a back seat to concepts such as the word trope line or stanza To understand what is at stake in thinking or not thinking about the sentence Jan Mieszkowski looks at the difficulties confronting nineteenth and twentieth century authors when they try to explain what a sentence is and what it can do From Romantic debates about the power of the stand alone sentence to the realist obsession with precision and revision to modernist experiments with ungovernable forms Mieszkowski explores the hidden allegiances behind our ever changing stylistic ideals By showing how an investment in superior writing has always been an ethical and a political as well as an aesthetic commitment Crises of the Sentence offers a new perspective on our love hate relationship with this fundamental compositional category
