Long Live The Spy 1st Edition:

Flowing Through Time Lynn Willoughby, 2012-05-23 This handsome illustrated book chronicles the history of the Lower Chattahoochee River and the people who lived along its banks from prehistoric Indian settlement to the present day In highly accessible energetic prose Lynn Willoughby takes readers down the Lower Chattahoochee River and through the centuries On this journey the author begins by examining the first encounters between Native Americans and European explorers and the international contest for control of the region in the 17th and 19th centuries Throughout the book pays particular attention to the Chattahoochee s crucial role in the economic development of the area In the early to mid nineteenth century the beginning of the age of the steamboat and a period of rapid growth for towns along the river the river was a major waterway for the cotton trade The centrality of the river to commerce is exemplified by the Confederacy s efforts to protect it from Federal forces during the Civil War Once railroads and highways took the place of river travel the economic importance of the river shifted to the building of dams and power plants This subsequently led to the expansion of the textile industry In the last three decades the river has been the focus of environmental concerns and the subject of water wars because of the rapid growth of Atlanta Written for the armchair historian and the scholar the book provides the first comprehensive social economic and environmental history of this important Alabama Georgia Florida river Historic photographs and maps help bring the river s fascinating story to life

Herodotean Inquiries S. Benardete, 2012-12-06 Herodotus has so often been called since ancient times the father of history that this title has blinded us to the question Was the father of history an historian Everyone knows that the Greek word from which history is derived always means inquiry in Herodotus His so called Histories are in quires and by that name I have preferred to call them His inquiries partly result in the presentation of events that are now called historical but other parts of his inquiry would now belong to the province of the anthro pologist or geographer Herodotus does not recognize these fields as distinct they all belong equally to the subject of his inquiry but it is not self evident what he understands to be his subject the notorious difficulties in the proemium are enough to indicate this If his work presents us with so strange a mixture of different fields we are entitled to ask Did Herodotus under stand even its historical element as we understand it Without any proof everyone as far as I am aware who has studied him has assumed this to be so
