Americans and the Wars of the Twentieth Century Jenel Virden,2008-02-04 Jenel Virden outlines the causes courses and consequences of the major wars of the Twentieth century in American history examining how the US became involved how the wars were fought and the domestic consequences Applying just war theory foreign policy as well as civil liberty are discussed Rethinking the Vietnam War John Dumbrell,2012-07-19 The Vietnam War is one of the defining conflicts of the twentieth century not only did it divide American society at every level the conflict also represented a key shift in Asian anti colonialism and shaped the course of the Cold War Despite its political and social importance popular memory of the war is dominated by myths and stereotypes In this incisive new text John Dumbrell debunks popular assumptions about the war and reassesses the key political military and historical controversies associated with one of the most contentious and divisive wars of recent times Drawing upon an extensive range of newly accessible sources Rethinking the Vietnam War assesses all

aspects of the conflict ranging across domestic electoral politics in the USA to the divided communist leadership in Hanoi and grassroots antiwar movements around the world The book charts the full course of the war from the origins of American involvement the growing internationalization of the conflict and the swing year of 1968 to bitter twists in Sino Soviet rivalry and the eventual withdrawal of American forces Situating the conflict within an international context John Dumbrell also considers competing interpretations of the war and points the way to the resolution of debates which have divided Peace Advocacy in the Shadow of War Francis Shor, 2024-01-05 For peace advocates a international opinion for decades corollary to Clausewitz s dictum that war is politics by other means might be that other politics could prevent war By highlighting both individual peace advocates and antiwar peace organizations from World War I through the wars of the 21st century the chapters will provide insights into how these individuals and organizations articulated their opposition to and mobilized against specific wars and international regional conflicts Organized roughly in chronological order each chapter will illuminate the socio historical conditions under which such peace advocacy contested state aggression and armed combat at the national and or transnational levels Beyond understanding the specific socio historical circumstances within which these antiwar and peace advocates and organizations operated and their resultant achievements and failures the book as a whole will examine the kind of politics that perpetuate war and those that offer a challenge to that perpetuation Scholars students and the general public interested in the history of modern and contemporary wars peace and conflict studies and ethical political perspectives in the 20th and 21st centuries should find much to reflect upon in this book Michael Uhl, 2023-06-02 In 1971 antiwar activists Michael Uhl and Tod Ensign founded the Safe Return Committee in New York City seeking amnesty for those who resisted the Vietnam War While thousands of young Americans chose exile in Canada and Europe to avoid the draft Safe Return worked on behalf of those who had come to oppose the war after entering the armed forces Once in uniform many ran afoul of a draconian system of military justice and institutionalized racism They deserted in epidemic numbers some to foreign exile This book tells the story of the Committee's sponsored return of deserters and draft evaders in a series of actions widely publicized to build public support for their acts of resistance
