*Cultural Heritage of the Great War in Britain* Ross J. Wilson, 2016-04-22 As the hundredth anniversary approaches it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness but also to reflect upon its rich and substantial cultural legacy This book examines the heritage of the Great War in contemporary Britain It addresses how the war maintains a place and value within British society through the usage of phrases references metaphors and imagery within popular media heritage and political discourse Whilst the representation of the war within historiography literature art television and film has been examined by scholars seeking to understand the origins of the popular memory of the conflict these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity place and politics By examining the history usage and meanings of references to the Great War within

local and national newspapers historical societies political publications and manifestos the heritage sector popular expressions blogs and internet chat rooms an analysis of the discourses which structure the remembrance of the war can be created The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression Whilst utilising the substantial field of heritage studies this book puts forward a new methodology for assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society

**Motorcycle** Steven E. Alford, Suzanne Ferriss, 2008-01-03 Easy Rider Motocross Grand Prix James Dean in Rebel Without a Cause The motorcycle is a global icon of untamed freedom symbolizing a daring and reckless lifestyle of adventure Yet there are few books that chronicle how and when this legendary vehicle roared down the open road Motorcycle explores the roots of the rebel's ultimate ride After early incarnations as a nineteenth century steam powered bicycle and multi wheeled vehicles the modern motorcycle came into its own as a cheap mobile military asset during World War I From there it rapidly spread through modern culture as a symbol of rebellion and subversive power and Motorcycle tracks the symbolic role that the bike has played in literature art and film The authors also investigate the international subcultures that revolve around the motorcycle and scooter They chart the emergence of American biker culture in the 1950s when decommissioned fighter pilots sought new ways to satiate their desire for thrill and danger and explore how the motorcycle came to represent the untamed nonconformity of the American West In contrast smaller scooters such as the Vespa and moped became the utilitarian vehicle of choice in space starved metropolises across Europe and Asia Ultimately the authors argue the motorbike is the exemplary Modernist object dependent on the perfect balance of man and machine An unprecedented and wholly engrossing account Motorcycle is an essential reading for the Harley Davidson roadhog bike collector or anyone who's felt the power of the unmistakable king of the road

**Tourist Experience** Richard Sharpley, Philip Stone, 2010-10-04 To consume tourism is to consume experiences An understanding of the ways in which tourists experience the places and people they visit is therefore fundamental to the study of the consumption of tourism Consequently it is not surprising that attention has long been paid in the tourism literature to particular perspectives on the tourist experience including demand factors tourist motivation typologies of tourists and issues related to authenticity commodification image and perception However as tourism has continued to expand in both scale and scope and as tourists' needs and expectations have become more diverse and complex in response to transformations in the dynamic socio cultural world of tourism so too have tourist experiences Tourist Experience provides a focused analysis into tourist experiences that reflect their ever increasing diversity and complexity and their significance and meaning to tourists themselves Written by leading international scholars it offers new insights into emergent behaviours motivations and sought meanings on the part of tourists based on five contemporary themes determined by current research activity in tourism experience dark tourism experiences experiencing poor places sport tourism experiences writing the tourist experience and researching tourist experiences methodological approaches The

book critically explores these experiences from multidisciplinary perspectives and includes case studies from a wide range of geographical regions By analyzing these contemporary tourist experiences the book will provide further understanding of the consumption of tourism

Spirituality in Counselling and Psychotherapy Dennis Lines,2006-10-16 Fascinating There is much here that is controversial thought provoking and very useful It is encyclopaedic in its breadth and use of knowledge Like rich food it needs to be taken in slowly savouring every morsel Thresholds Spirituality has been traditionally taboo within the counselling

and psychotherapy profession Denis Lines comes into this controversial scene with a rigorous but gentle mystical but grounded inspiring and thought provoking voice The book is well written and presents the model in the context of other therapeutic modalities which makes it interesting and useful for therapists from different backgrounds and practice settings It could also be of use for those involved in religious education pastoral care or anybody interested in the spiritual development of the self or the existential quest of humankind Therapy Today This gentle mystical empirical and scholarly book is truly inspirational and it deserves the widest possible readership among therapists religious educators and all those who care about the spiritual destiny of humankind Professor Brian Thorne Co founder The Norwich Centre and Emeritus Professor of Counselling University of East Anglia Spirituality in Counselling and Psychotherapy explores the idea that throughout the course of a therapeutic relationship between therapist and client a spiritual level is reached by the two people involved The author shows how this dimension can help clients who are living in an increasingly secular and faithless society to find some resolution with the issues they bring to therapy By exploring different perspectives on religion and spirituality the book provides therapists with the grounding they need to introduce spiritually centred counselling into their practice It describes the characteristics of spiritual counselling and covers practical considerations such as recognising indications from the client to move into a spiritual mode of therapy exploring the self through spiritual work within the therapeutic process and how this can lead to healing and growth how to deal with doubt and scepticism over issues of spirituality The book is illustrated throughout with transcripts and case studies to show how therapists can integrate the spiritual within their own approach to therapeutic work It will be invaluable to all those who wish to explore this dimension in their work with clients
