Brushed by Cedar, Living by the River Crisca Bierwert,2019-11-01 A brilliant experimental ethnography Brushed by Cedar is destined to change the way anthropologists write about the people they befriend Crisca Bierwert has created a fresh poststructural ethnography that offers new insights into Coast Salish cultures Arguing against the existence of a master narrative she presents her understanding of these Native American peoples of Washington state and British Columbia Canada through poetic bricolage offering the reader a pastiche of rich cultural images Bierwert employs postmodern literary and social analyses to examine many aspects of Salish culture legends and their storytellers domestic violence longhouse ceremonies the importance and power of place and disputes over fishing rights Her reflections overlap as a dialogue would

weaving throughout the book significant threads of Salish knowledge and creating a nonauthoritative text that nonetheless speaks knowingly This book represents the future of contemporary anthropology Unlike traditional ethnography it makes no attempt to portray a complete picture of the Coast Salish Instead Bierwert utilizes a critical and diffuse approach that defies colonial syncretic and hegemonic structures and applies advanced literary theory to the creation of ethnography *Brushed by Cedar* is an important guideline for anyone who writes about other cultures and will be especially useful to classes in the methodology and history of ethnography as well as to scholars specializing in Native American studies or oral literatures

Iroquoia William Engelbrecht, 2005-09-23 In a book that spans the Iroquoian culture from its ancient roots to its survival in the modern world William Engelbrecht maintains that two themes pervade this development warfare and spirituality An investigation of oral tradition archaeology and historical records provides new insight into this now largely vanished world known as Iroquoia Engelbrecht covers a wide geographic range exploring regional and temporal differences in material culture and subsistence patterns He finds change over time in the distribution and size of communities and in response to environmental demographic and social factors In addition he furthers the controversial debate that arrow sacrifice and other beliefs spread from Mesoamerica with the dispersal of maize and horticulture Although scholars have suggested that palisaded hilltop Iroquoian villages were constructed with an eye for defense this book is unique in showing that the longhouse known mainly as a community forum and spiritual place may also have served as a defense structure Throughout this work which will become the new standard text to which scholars will refer Engelbrecht reminds us that the study of the Iroquoian people continues to enrich and inform the modern world

Drawing Back Culture Tweedie, 2015-08-17 The Makah Indians of Washington State briefly in the national spotlight when they resumed their ancient whaling traditions in 1999 have begun a process that will eventually lead to the repatriation of objects held by museums and federal agencies nationwide *Drawing Back Culture* describes the early stages of the tribe's implementation of what some consider to be the most important piece of cultural policy legislation in the history of the United States the Native American Graves Protection and Repatriation Act NAGPRA NAGPRA was passed by Congress in 1990 to give Native people a mechanism through which they could reclaim specific

objects of importance to the tribe Because NAGPRA definitions were intended for widespread applicability each tribe must negotiate a fit between these definitions and their own material culture The broad range of viewpoints within any given tribal community creates internal negotiations over NAGPRA surrounding the identification and eventual return of such objects Negotiations also arise concerning the nature of ownership At the heart of this ongoing struggle are themes relevant to indigenous studies worldwide the central role of material culture in cultural revitalization movements concerns with intellectual property rights and self representation and the trend towards professional cultural resource management among indigenous peoples The conception of ownership lies at the heart of the Makahs struggle to implement NAGPRA Tweedie explores their historical patterns of ownership and demonstrates the challenges of implementing legislation which presumes a concept of communal ownership foreign to the Makahs highly developed and historically documented patterns of personal ownership of both material culture and intellectual property Drawing Back Culture explores how NAGPRA implementation has been working at the tribal level from the perspective of a tribe struggling to fit the provisions of the law with its own sense of history ownership and the drive for cultural renewal
