Childress of *PRINCIPLES OF BIOMEDICAL ETHICS* first published by OUP over 25 years ago and a true cornerstone of contemporary bioethics. This volume is both an introductory textbook as well as a definitive expression of what is known as the dominant principlist approach which views bioethical reasoning developing out of four key principles: respect for autonomy, non-maleficence, beneficence, and justice. This view has been highly influential over the last two decades and has set the agenda for the field. This volume will collect Tom Beauchamp's 15 most important published articles in bioethics, most of which were published over the last 25 years and most of which have a strong connection to the principlist approach. Most of the essays included here augment, develop, or defend various themes, positions, and arguments in that earlier book, both adding depth as well as taking off in new directions. Among the topics discussed are the historical origins of modern research ethics, moral principles, and methodological concerns. Beauchamp will include a new introduction to explain the history of the essays and their relationship to the principlist theory.

The Philosophy of Sri Aurobindo Debidatta Aurobinda Mahapatra, 2020-05-14. Indian philosopher, poet, mystic, and Yogi Sri Aurobindo argued that human society has evolved throughout history and is destined to move towards better organization of life. Applying his ideas to problems confronting the world today, this collection presents an in-depth exploration of Aurobindo's evolutionary philosophy and Integral Yoga. Written by an international team of scholars and practitioners, each chapter takes a theoretical aspect of Sri Aurobindo's philosophy, positions it alongside policy debates on the individual and the state, and explains its practical and educational benefits. Contributors discuss his vision of unity in diversity, shed light on his poetry, and offer a comprehensive view of his concept of ethics as well as his metaphysics of consciousness. They examine his contribution to the Indian response to post-Enlightenment modernity and reveal how his philosophy illuminates some of the fundamental problems of our times, offering possible solutions. By presenting the first sustained discourse between Sri Aurobindo and the contemporary world, this collection addresses the relevance of his philosophy for everyday life and highlights the lasting work of this important 20th-century Indian thinker.
