Looking At Iran:

Iran Looking East Annalisa Perteghella, 2020-01-12 In February 2018 anticipating the US withdrawal from the JCPOA Iran's Supreme Leader Ayatollah Ali Khamenei declared a policy of preferring East over West thus paving the way for deeper cooperation with Asian powers such as China Russia and India Differently from the Look East policy promoted during the presidency of Ahmadinejad 2005-2013 the current Iranian strategy is not only functional to escape the US led isolation but it rather seems devoted to the consolidation of a block of power which can commit to security and economic schemes in alternative to the Western dominated ones This ISPI report aims to answer few crucial questions Which are the major initiatives promoted within Iran's Look East 2020 strategy To what extent will Tehran succeed in creating a solid Eastern block What will be the influence of the wider geopolitical context And finally what role is left for the EU **Through the Looking**

Experience the tale of a hapless young artist Yasmine the pick up and an extraordinary journey across the world Corpus Anarchicum Hamid Dabashi,2012-09-24 This book is a meditation on and an attempt to understand suicidal violence in the immediate context of its most recent political surge the decade between 2001 and 2011 from the suicidal mission of Muhammad Atta and his band in the United States to the suicide of Mohamed Bouazizi in 2010 in Tunisia After the former a devastating military strike and occupation of two Muslim countries commenced and after the latter a massive transnational democratic uprising ensued Suicidal violence is neither specific to Islam nor peculiar to our time It has been manifested in practically all cultures and religions and throughout human history But the suicidal violence we witness today is of an entirely different disposition because the bodies both of the assailant and of the assailed on which it is perpetrated are no longer the human body of our Enlightenment assumption What we are witnessing is in fact the contour of a posthuman body The posthuman body as Dabashi here proposes is the body of a contingent and contextual being and as such an object of disposable knowledge while the human body that it has superseded was corporeally integral autonomous rational indispensable and above all the site of a knowing subject Ceasefire! Ivan Molloy,2020-02-27 This is a true story On one level it is part my autobiography On another it deals with three generations of my family s active involvement in war terrorism political and social conflict and the tragic emotional and psychological consequences my family endured as a result In 2009 as an Australian academic with expertise in global terrorism and a one time aspiring federal politician I fled to France to try and deal with clinical depression and associated Post Traumatic Stress Disorder PTSD I was fleeing the nightmare of a destroyed career and a shattered family As I tried to battle the Black Dog of depression suicide was a very real option for me But first I decided to write a book about my research and involvement with Muslim terrorists and revolutionary guerrilla groups in the Philippines It was a way of combating a public media campaign that had destroyed my professional and private life But to do this I needed to retrace both my own and my family s earlier experiences with conflicts

elsewhere which influenced me to choose such research In so doing I discovered new realities about the psychological condition I was battling and how it impacted on and haunted my own extended family over generations and all due to war and social conflict with horrific human consequences Ultimately I have concluded I m certainly not alone in my struggle I m merely another casualty of a brutal primeval human phenomenon which continually infects the psychology of the next generation It is the phenomenon of the subconscious human struggle for the survival of the fittest Now with a greater understanding of my condition I have at least so far managed a stand off with the Black Dog I realise it wasn t spawned by any particular condition of my own but rather the very nature of human society So far society still fails to take responsibility for generating such a condition and instead still promotes our innate species drive to achieve the survival of the fittest an endgame which usually results in warfare In the 21st century if we do not challenge and change our notion of what is needed to survive then forget the Koreas ISIS nuclear warfare etc human kind will eventually psychologically and then physically self destruct How did I come to this realisation It all played out in a small village called Ouroux En Morvan in France
